

Here's SUPERIOR QUALITY

at
No Premium in Cost

ARE you under the impression, because Goodyear Tires are so very much better, that they cost any more to buy?

As a matter of fact, Goodyears ARE PRICED AS LOW AS OR LOWER THAN OTHER TIRES.

MILLIONS MORE PEOPLE
ride on Goodyear Tires

Building millions more tires than any other company, Goodyear can manufacture for less. This makes possible a superior quality at no premium in cost. What is this "superior quality" which Goodyears possess? Can it be demonstrated and proved? Yes!

There are two main parts to a tire; the outside tread; the inner carcass.

Take the tread—we can demonstrate why Goodyears have superior treads, in TRACTION and in LONGER WEAR. The finer appearance of a Goodyear tread speaks for itself.

Take the carcass—on a cord-testing machine you will be shown the superiority of Goodyear's patented Supertwist Cord which is used to make the plies of cord fabric in the carcass.

You will see how Supertwist STRETCHES and COMES BACK like a rubber band, while other cord stays stretched. You will see how Supertwist stretches up to 60 per cent farther before it breaks.

The meaning of these cord-stretching tests is this: a Goodyear Supertwist carcass, because it can absorb more road shocks and withstand more bending under the wheel to cushion your riding, is the longest-lived carcass known to the tire industry.

The proof that these superiorities of tread and carcass are real is MORE PEOPLE—MILLIONS MORE PEOPLE!—RIDE ON GOODYEAR TIRES. Experience with all tires has conclusively demonstrated that Goodyears outwear any other kind, dollar for dollar.
