

LIBERTY THEATRE

JUNE 16 TO JUNE 22

Sunday and Monday, June 16 and 17

William Fox Presents

"Mother Machree"

Smiling Irish Eyes and Aching Irish Hearts with

Belle Bennett, Neil Hamilton, Victor McLagen, Ted McNamara, Ethel Clayton and Constance Howard

Based on the Song and Story by Rida Johnson Young. As Poignant as the Song—Vital with Life—Sparkling with Irish Wit—A Picture to stir the Heart and become a Treasured Memory. Scenes actually filmed in Ireland amid the ancient abbeys, castles, lakes and hills.

Special music by Miss Lucile Lore. Adm. 50c and 10c

Tuesday, Booth Tarkington's "GERALDINE" with Eddie Quillan and Marion Nixon. Wednesday—Double Feature Day, June Collyer and Don Terry in "ME, GANGSTER" and Ranger in "FURY OF THE WILD." Thursday, Karl Dane and Geo. K. Arthur in "CHINA BOUND," a cargo of laughter. Friday—Norman Kerry and Pauline Starke in "MAN, WOMAN AND WIFE," an emotional drama of great power. Saturday—Double Feature Day, Rod La Rocque in "LOVE OVER NIGHT" with Jeanette Loff, Tom Kennedy and Mary Carr and Harry Carey in "BURNING BRIDGES," a romance of the Rails and Ranges.

A Pleasing Show every night with Miss Lucile Lore at the organ

Rupture Shield
Expert Coming to

MARSHFIELD

on MONDAY & TUESDAY June 24 & 25

at CHANDLER HOTEL

from 10 a. m. to 4 p. m.

Evenings by Telephone

Appointment Only

TWO DAYS ONLY

No Charge for Consultation

Mr. C. F. Redlich, the successful expert says:

The "Perfect Retention Shields" hold the rupture perfectly, no matter what position the body assumes or how heavy a weight you lift. They give instant relief, contract the opening in a remarkably short time and strengthen the weak tissues (the real cause of rupture) so that they frequently recover their previous natural retaining power, needing no further outside support. Stomach trouble, backache and constipation often caused by Rupture promptly disappear.

Truly remarkable and prompt results have been obtained not only with recent and not fully developed ruptures but also with old, long neglected ones.

Ingenious, recently perfected devices are now holding ruptures firmly which heretofore never had been retained.

No elastic belts nor filthy legstraps are used.

I guarantee the durability of my absolutely sweat and moisture proof, sanitary appliances.

75 per cent of ruptured children recover completely through expert mechanical treatment according to statistics.

Do not waste your money on widely advertised mail order contraptions. You cannot fit yourself.

C. F. REDLICH, Rupture Appliance Expert, Home office, 535 Boston Block, Minneapolis, Minnesota.

If you want to subscribe for a Portland daily the clipping combination we offer with the Sentinel will save you money

Almost Too Expressive

A Franklin mother and grandmother had invested in gowns for a party, and, after trying them on, called in the young son and grandson of the household for his opinion. Mother was small and slender, and grandmother weighed almost 200 pounds.

"Son, how do you like my new gown?" asked his mother.

"Oh, mother, you look just like a fairy," the son replied.

"Now, dearie," said his grandmother, "how do I look in my new mauve crepe?"

"Good gracious, gram," he answered, "you're a regular knockout."

"Well, if a child of mine had talked like that, I know what I'd do," said the grandmother.

Unbreakable Mirrors

A broken mirror invites seven years of bad luck, according to popular superstition, but in the case of an eastern inventor, it led to success. Seeing a young woman crack the small mirror in her vanity case, he was inspired with the idea of making mirrors that would not break. He succeeded in fashioning one along the lines of the automobile lamp reflectors and it proved strong under severe tests. To keep the powder from spilling out of the vanity bag, he mixed a binder with it and produced a cake form that would not spill. Since then, several other things have been devised by him.—Popular Mechanics Magazine.

Liquid Lenses

Glass shells filled with liquid have been devised by a French investigator as substitutes for ordinary lenses. The invention is regarded as an important one, particularly in the field of astronomy. By the French process, a lens equivalent to one of the usual ground type, that would cost more than \$100,000 and take several years to complete, can be made in a few weeks and for less than \$1,000. It is reported. The fluid substance is inclosed between two hard-glass surfaces. The new lenses can also be made for opera glasses, cameras, microscopes and like uses.—Popular Mechanics Magazine.

B. & P. W. Entertain Mothers

The B. & P. W. had the pleasure of entertaining twenty-five Coquille mothers on Monday evening, June 10. Each member present brought as her guest either her own mother or some other mother whom she had chosen as her representative.

Guests and hostesses gathered at Odd Fellows Hall at 6:30 and found awaiting them a delicious dinner prepared and served by the special committees appointed by our president, Mrs. Chase. The long tables were beautifully decorated with flowers and trailing vines and each guest was presented with a corsage bouquet. The baked ham and "fixings" couldn't have been beaten even in Old Virginia and the strawberry shortcake served as dessert certainly was the cap sheaf.

At the close of the meal all adjourned to the main hall where a short program was given and the regular business meeting held. A unique feature of the program was a sort of experience meeting in which each guest told of her youthful aspirations and how they were fulfilled or frustrated, the latter unfortunate event being usually the result of marriage.

During the business meeting the club unanimously elected Marguerite Agostino as the next recipient of a loan from the scholarship loan fund. Miss Agostino's record at the high real pleasure to the B. & P. W. to be able to help her to further educational advantages and she has the hearty good wishes of all members.

The guests present were Mesdames Stanley, Cousins, Griner, Collier, DeLong, Van Ness, Buckley, Leach, Bean, N. Lorenz, H. Lorenz, Perry, Austin, Maury, Pierce, Kay, Dunne, Oerding, Leslie, Porter, Gilbert, Laird, Trehearne, Johnson and Lyons. Members of the committees that so ably handled the affair were Mesdames Gould, Smith, Leach, Richmond, Owen and Bryant and Miss Ida Oerding.

Cabinet Form State Government

J. E. Norton left for Portland Tuesday evening to attend a meeting of the State Government Reorganization Commission appointed by the last legislature to investigate the cabinet form of state government. Three members of the House of Representatives and two of the Senate form this interim commission.

All members of the legislature were invited by a Portland civic club to hear the address ex-Gov. Frank Lowden, of Illinois, was to make Wednesday evening, and the Commission took advantage of this opportunity to hear the man who was responsible for instituting this improved-state control plan, and to organize. It was the success of the cabinet form of government during his term as governor of Illinois which made Mr. Lowden the prominent national figure he has been for several years.

Mr. Norton returned from Portland this morning.

Wm. Zosel Heads Lions

Annual election of officers for the Lions Club, held at yesterday noon meeting resulted in the following selections for the coming year:

President—Wm. A. Zosel.
1st Vice Pres.—C. C. Archibald.
2d Vice Pres.—W. V. Ferguson.
3d Vice Pres.—C. C. Williams.
Sec.—Treas.—N. C. Kelley.
Tail Twister—R. A. Jeub.
Lion Tamer—H. C. Gant.
Directors—J. L. Stevens and H. A. Young.

E. F. Grider, new high school principal, and Dick McCoy, of Portland, were guests at the luncheon and both responded to an invitation with short talks.

An appeal to the club was made by R. A. Jeub to work and vote for the \$85,000 bond issue at the Aug. 5 election when it is hoped funds will be provided for making the Coquille water system about 100 per cent more efficient than it is now.

Street Dance a Success

Close to \$100 was netted for the grandstand covering fund at the street dance here Wednesday evening and the huge crowd in attendance enjoyed every moment of the open air exercise.

The music by the Spanish Gardens orchestra was excellent and if any of the dancers failed to enjoy themselves it was not on that account.

Combined with a perfect June evening, good music, and a good crowd, the outdoors feature was one which drew dancers from all over the county.

Whether the funds netted will cover the grandstand is doubtful, but it should at least provide the material.

Divorces to Cost More

Under the new state law, in force June 3, the fees for filing divorce cases in Oregon was increased from \$11.00 to \$16.60. It is divided, \$5 for filing fee, \$5 for district attorney fee, \$2 for circuit judge fee, and \$1.60 for the law library fee.

Fees for other complaints, involving amounts less than \$500, were increased from \$6.00 to \$11.60.

Loggers Still Going Strong

Valley-Bay League

	W	L	PC
Coquille	6	0	1.000
Marshfield	5	1	.834
Eugene	4	2	.667
Myrtle Point	2	4	.333
Bandon	1	5	.167
Cottage Grove	0	6	.000

Although Coquille won by a one-sided score of 12 to 4 from Myrtle Point last Sunday, it was not due so much to hard hitting as it was to errors by Myrtle Point. "Chief" Manning did not have the Loggers eating out of his hand by a long shot, for they touched him for 12 safeties, two of them home runs by Stewart and Rice, but in the second inning when Coquille scored eight runs, the four Myrtle Point errors did as much damage as the four hits.

Carl Gilbert, who in every game this season has demonstrated his right to be considered the best chucker in the league, retired in the seventh inning. Pillsbury succeeded him and pitched good ball, striking out three. He was nicked for two runs and three hits, one of them a home run by Dickson when Jack got a fast one down the left fielder's alley.

The game was played in Coquille because of wet grounds at Myrtle Point. The Marshfield-Cottage Grove game, won by Marshfield 13-1, was transferred to the Bay because of rain in Lane county and the Bandon-Eugene game was scheduled for Bandon, making all three games in the county. Eugene ran itself dizzy, winning the game by a 32-2 score.

Put Sulphur in Shoes

If you would ward off the grip, put a teaspoonful of sulphur in each shoe every morning during the winter months, is the advice of Leverett H. Holden, eighty-three-year-old city clerk of Malden, Mass. The sulphur, he explains, works up through the system and proves unpleasant to any grip germs that happen to be taken into the body. In Holden's boyhood days sulphur and molasses composed a common spring tonic, but the sulphur in shoes as a grip preventive was told to him by a Malden resident who has since died.

Art Too Lifelike

Driving on a icy road near Lawler, Iowa, Ben Webster landed in a ditch. Half a mile away was a man who seemed to be leaning on a pitchfork. "Hey, there!" yelled Webster, "come over and give me a lift!" The man did not move. Webster called louder. Still the man stood motionless. "Must be deaf," Webster said to himself as he started across the field toward the man, who proved to be the bronze figure of a World War veteran, leaning on a rifle, erected as a memorial. Art is becoming too lifelike.—Copper's Weekly.

The Bradley-Wise Paint Company

will have one of their experts here on
