

The REFRIGERATOR of the FUTURE

Mechanism on top, hermetically sealed... never needs oiling... quiet, all steel, cannot warp... electrically operated.

\$215

At the Factory with conveniently spaced payments

THE same group of engineers and scientists who perfected the hermetically sealed mechanism of the General Electric Refrigerator, now have designed and produced an all-steel refrigerator cabinet—the first all-steel refrigerator ever built!

It is a small-family model—entirely of steel—strong and durable as a safe. It has no wood in it. It cannot warp. No cold can seep out, no heat can creep in.

Quantity production and the employment of the most efficient manufacturing methods have made possible this very low price—\$215, at the factory. Never before has any single refrigerator been built in such great quantities... never before has such high quality been available at such a low price.

You will readily understand why this has been called "the refrigerator of the future" when you examine it yourself and compare it carefully with all others. Be sure to come in and see it. This, or any model, may be purchased on easy payments.

Listed in on the General Electric Hour, broadcast every Saturday evening, 9 to 10 Eastern Standard Time, over N. B. C. network of forty-two stations.

This easily accessible refrigerator mounted on the top of each General Electric Refrigerator, makes it possible for you to speed up the freezing of ice cubes whenever desirable.

Wendell Kerr Here on Visit

With the closing of this school year at the Oregon State College, Wendell H. Kerr, from this place, registering in electrical engineering, has finished his studies with honors far above the average student. He also was a member of cavalry and was promoted until he won the office of major and is continued in the reserve officers training corps. He is a member of six fraternities and honor societies and has the distinction of being mentioned as an honor student, his scholastic standing earning for him the title of Major W. H. Kerr, Bachelor of Science. He spent his vacations working for the Mountain States Power Co. at this place and by his straight-forwardness and industry won for himself the respect of all with whom he worked or associated. His splendid physical appearance overtopped by a brilliant display of hair earned for him, the nickname of "Red." Four years ago he married Miss Rose Philpott, of this valley, whom he met at college. His parents and sisters, of Loomis, California, Mr. and Mrs. Hart, of Sacramento, California, Mr. and Mrs. Wm. Philpott and Georgia, of Bullards, and Mr. and Mrs. George Buckingham and family, of Monroe, were relatives and friends who drove from a distance to attend the graduating exercises which were held at Corvallis last week. Mr. and Mrs. Kerr spent a few days in Coquille and Coos county last week.

Revested Lands Open to Entry

Notice is hereby given that the Lot 2 and W 1/2 of SE 1/4 of Sec. 5, Tp. 27 S., R. 12 W., W. M., containing 120.05 acres, and all in the revested Coos Bay Wagon Grant lands, north of Coquille, and all in Coos county, are restored to entry, subject to the preference rights of ex-service men of the late war with Germany, on July 5, 1929, at 9 o'clock A. M., at the United States Land Office at Roseburg, Oregon, and open to entry by the general public on October 4, 1929, at 9 o'clock A. M. Applications may be filed in this office by the ex-service men within 20 days prior to the date of the opening, or from June 14 to July 3, 1929, and by the general public from September 14 to October 3, 1929, if the land still be open to entry. All applications filed during this 20-day period will be considered as filed simultaneously, and if more than one application be filed for the same land, a drawing will be held.

Ex-service men must file with their applications for the land, soldier's affidavit, copy of discharge, and water hole affidavit. This land is revested wagon road land and must be paid for at \$2.50 per acre—50 cents per acre and fees and commissions, when filing, and \$2.00 per acre and commissions, when making final proof.

Hamill A. Canaday, Register

Make Repairs Off Highway

"With states lifting their speed limits, it becomes more and more imperative that the car owner who needs to make a roadside repair take the precaution to move his car from the path of the fast moving traffic. The motorist has been demanding higher speed limits because he knows they are safe, but he defeats their undeniable safety by such practices as this," says the Oregon State Motor Association.

"This club and others of the 1065 affiliated with the American Automobile Association have records of many accidents that are to be attributed directly to the ignorance of car owners in this respect. A new season of heavy travel is at hand. It is up to the individual whether this condition shall maintain throughout another year."

Rev. Omer Idso, of Myrtle Point, who left Monday for an extended eastern trip, is carrying out in a smaller way the purpose which was behind the Roosevelt Highway Development Co. last year, and which failed to function. He is going to spend considerable time giving information about and showing pictures of this section, and endeavor to send settlers this way who will help in the development of Oregon's latent resources.

Saving in Texts

The office of County School Superintendent has received from the state superintendent's office a pamphlet which pertains to the new texts which have been adopted by the state for the use of the schools for 1929-1930. In this text sheet Superintendent Howard mentions that the elementary language books are the only ones which cover over several grades and he advises that the lower book which is to be used in the fourth, fifth and sixth grades will not be used in classes where the children are already supplied with the old book. This are pertains to the upper book which is used for seventh and eighth grades.

This will mean a considerable saving to the schools in the county. Supt. Howard is also encouraging the buying by pupils of second hand books as a means of saving money for the parents. The changes which are made in the elementary books for this year are few; however, there are more changes in the high school.

Christian Science Churches

"God the Only Cause and Creator" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 9.

The Golden Text was, "By the word of the Lord were the heavens made; and all the host of them by the breath of his mouth" (Psalms 33:6.)

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "And God saw every thing that he had made, and behold, it was very good" (Gen. 1:31).

The Lesson-Sermon also included the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Spiritually to understand that there is but one creator, God, unfolds all creation, confirms the Scriptures, brings the sweet assurance of no parting, no pain, and of man deathless and perfect and eternal" (p. 69).

R. E. Baker Goes to Iowa

Of interest to his many friends here, where he was once superintendent of public schools as well as county superintendent of schools, is the announcement that Raymond E. Baker has resigned his position on the faculty of Albany college, to accept that of head of the English department in Parsons college, a Presbyterian school in Fairfield, Iowa. He expects to leave about the last of August after completing his work as English instructor at U. of O. summer school.

That's Different

"I bought a new car and traded in my player piano as first payment."

"I didn't know they accepted player pianos as payment on new cars?"

"They don't usually, but the salesman is a neighbor of mine."—Judge.

You, Too

May Have a Position Like This

Howard Marks graduated from high school and set his course to get into business by the quickest route. He figured—and rightly—that the Northwestern route would be the most direct. In a few months, we graduated him and placed him in his first position. He made good. The other day he came in his face abeam. He had just been appointed credit manager for a million dollar organization, and wanted to know the good news. You, too may be just as successful. Let us send you particulars. Use the coupon below.
