A big show every night—Fine Music with Miss Lucile Lore at the organ

C. C. Farr Chosen Director
H. S. Norton, School Clerk

The largest attendance at a school meeting in Coquille since that opening affair at the Washington building, some 10 years ago when A. T. Morrison was first elected director and the decision to build the high school building was made, was in attendance Monday evening at the high school.

Interest in the election had been increased by the entrance of three candidates into the race for clerk to succeed F. G. Leslie. The winner, Stewart Norton, did not get into the race until last Saturday morning but his political manager made a most effective campaign and her efforts were rewarded when her husband walked away in the count by 4-1 and 8-1 leads over his competitors.

The new law passed by the last legislature requires that the ballot boxes remain open for one hour, and more than half of the 200 voters had left before the results were announced.

Chairman of the board, C. C. Farr presided at the meeting, while O. C. Sanford was chosen clerk pro tem in the absence of Mr. Leslie who was attending council meeting.

Following the reading of the clerk's annual reports, nominations for director for three years were called for. Only one name was presented, and that by J. P. Beyers who stated that six years ago he had placed Mr. Farr's name before the school meeting, and during that time he had made so excellent a record as director that he (Beyers) was most pleased to again nominate Mr. Farr. No other names were presented and the tally, later in the evening resulted in Mr. Farr receiving 166 votes. Other scattering votes were for Hal Baxter 2, Mrs. J. S. Barton 3, Mrs. Leo J. Cary 1, H. N. Lorenz 1, John Leneve 2, M. J. Hartson 2, L. H. Hazard 1, C. C. Archibald 1.

Nominations for clerk were made by Jas. Watson, who presented the name of Stewart Norton, by Dr. G. E. Low who placed Ben Currie in nomination, and by Lyman Carrier who named Rev. W. S. Smith.

The tally showed the following results: Norton 129, Smith 41, Currie 31.

The vote on increasing the school tax for the 1929-30 school year, was adopted by a vote of 85-13. Before the vote Assessor Beyers spoke at some length on the desirability of voting the increase, which he said should have been more than the \$12,000 proposed, in order that the district might the sooner get out of debt, wipe out its interest charges, and secure the lower tax rate which would follow. He was opposed to the installment plan, whether in public or private business, and wanted to see the payment of large sums of interest stopped, by getting the district to a cash basis as quickly as possible.

When it came to adopting the proposed budget, after the increase had been decided upon, the voters unanimously approved it, by a 79-0 vote.

The tellers for the evening were Jas. W. Laird, Rev. S. D. Walters, Orval Haga, and Wm. Howell.

Good Bids for Street Work

The opening of bids and awarding of contracts for the North End street and sewer improvement was the principal business transacted by the city council Monday evening. Contractors from Portland, Eugene, Corvallis, as well as Coos county bidders, were present, and some very good bids were made. In fact the successful bidders, Anderson & Matson, of Coos Bay, were \$2,347.71 under the engineer's estimate on the two jobs. They bid \$27,501.90 for 5-inch compressed, or vibrolithic pavement, on which J. Loy Stacer had estimated \$28,713.95; and \$6,730.04 for concrete sewer pipe, where the estimate was \$7,865.70.

Concrete pipe for sewers has been uniformly satisfactory and the difference of \$647.08 between that and vitrified made it an item worth considering.

Others bidders for the paving job were the Northwest Road Co., of Portland, \$29,495.77 for Warren bitulithic; the United Contracting Co., \$32,532.60 for the same; Stein Bros., of Eugene, \$26,566.85 for plain 6-inch concrete, and \$27,448.85 for 5-in. vibrolithic; Peart Bros., \$29,733.28 for plain concrete.

The vibrolithic paving, laid in the east part of Coquille, has proven a most satisfactory job. It does not crack as plain concrete does, and Mr. Stacer says that his specifications call for an even richer mix—25 per cent more cement—than was used in the pavements around the Washington school.

The unsuccessful bidders on the sewer job were as follows, the first figure indicating the bid on vitrified, and the second that on concrete pipe: Northwest Road Co., \$8,675.35, \$8,592.54; Keating & Bade, Portland, \$7,378, \$7,307; Yunker Wiecks, Corvallis, \$7,528.50, \$7,460.90; Peart Bros., \$7,914 for either kind; United Contracting Co., \$8,424.12 for concrete.

While there was one bid under that of Anderson & Matson by \$60 on the paving, it is so necessary that both improvements be put in by the same contractor that the bid of Stein Bros., was rejected. Besides that, the successful bidders were lower on the total for the two jobs than any of the others by more than \$600.

By commencing the work at once, and using a ditching machine for the sewer trenches, the contractors figure that the job will be completed before the rainy season starts, and within the 90-day time limit set.

The water superintendent was authorized to order sufficient 4-inch iron pipe to lay under the intersections where the new improvement is going in at once.

Beside the ten blocks of paving which will be laid, the new improvement will connect with the Tenth street paving on Henry, and will also connect at the Opperman corner, on Seventh, with the macadam road on Henry.

The state highway department was given permission to install stop signs within the city limits at highway intersections. This applies particularly to the intersection of Hall and Front where the highway runs west from the Fitzgerald service station.

The council voted to install lights on the posts which the ladies of the Woman's Club are installing at gateways to the city.

The city recorder was instructed to notify the United Contracting Co. of the needed repair on Spurgeon street near the R. H. Mast residence.

The DeLuxe Cleaners was given permission to install partitions in the room adjoining their establishment on Front street.

Thrift Grocery
Home of All Gold Canned Goods

We can supply your grocery needs with the best possible in foods of all kinds, fresh and canned, at the best regular cash prices. We can give you service, too, quick and courteous, with free deliveries both morning and afternoon.

Coquille Batting Average

The batting averages for the Coquille club of the Valley-Bay League have been figured and released by Pres. J. A. Berg's secretary, but those for the other club's have not, due to the failure of official scorers to send in the records of one or more games.

Coquille is batting .365 as a club and undoubtedly leads the league in this respect. Individual records show that Marlow is high man on the club, with six men batting over .360. Following are the averages for the local players:

	AB	H	PC
Marlow	35	20	.571
Stewart	28	13	.474
Heath	34	16	.470
Fortier	26	11	.423
Rice	29	11	.393
Foss	33	12	.364
Gilbert	23	6	.261
Roper	27	7	.259
Pillsbury	9	2	.222
Brown	32	5	.156
Davis	7	0	.000
Sturdivant	1	0	.000

Eddie Foss Goes to Canada

Eddie Foss, who has played second for the Coquille Loggers and occasionally helped out behind the bat, since the opening of the season, left Tuesday for Calgary where he will play in a league which schedules two games a week. Eddie was a man that the Loggers could not afford to lose. A peppy player, always giving his best, and hitting .364 for the seven games, he made a hit with the fans, who were sorry to see him go.

Lots of Majestic Enthusiasm

Chas. Oeding, radio manager of the Oeding Hardware Co., returned last Saturday from attending the Majestic dealers' convention in Portland last week, and tells of greater enthusiasm over the new model Majestic than ever before. It was reported to him that this machine was the big hit of the recent radio show in Chicago, and that this year's improvements make it more than ever an outstanding receiving set.

Dental School Graduate

Mr. and Mrs. Jos. Nilsen, of Riverton, returned last Friday from attending the commencement exercises of the Northwest Pacific Dental College in Portland, which occurred June 10. Their son, Dr. H. E. Johnson was a member of the graduating class. Dr. Johnson was a member of the C. H. S. graduating class in 1925, and has spent the past four years in college. He was a member of Psi chapter and its worthy master during his senior year, of Sigma Delta International Fraternity, and is now a member of the Supreme Chapter. His name has been engraved on the house honor roll, an honor given to seniors with high scholastic standing and who are most valuable to the chapter.

Dr. Johnson remained in Portland to take the state dental board examination and has now had the title of Doctor of Dental Medicine conferred upon him. He has also been commissioned as first lieutenant in the R. O. T. C.

He arrived home Tuesday and while he has no definite plans yet, expects to locate soon and begin the practice of his profession.

Will Build 22 Houses

Carl Ensele, contractor, says that he now has lined up for construction this summer, 28 houses, six of them in Myrtle Point and the rest here in Coquille.

On Wednesday of this week he completed the two very attractive and convenient cottages for Mrs. W. S. Sickels on North Coulter street, this side of the Knife Apartments and is also at work on the E.L. Vinton house, near A. O. Walker's home, and the Leland Peart house, at the corner of Tenth and Henry. He has also started the O. T. Nelson house just east of Mr. Peart's.

He is also figuring on others when the Knowlton street paving improvement is completed.

Mining Location notices for sale at his office.

Chamber of Commerce Meeting

The Chamber of Commerce directors Wednesday evening voted to pay \$55.75, for half of the expense of sending the Canaries on the caravan. It was understood prior to the trip that the County Chamber was to bear the entire expense, but that body referred half of the bill to the local chamber.

A letter from the State Chamber was read asking the local organization to make use of the recently established office in Los Angeles, and to keep it supplied with literature from here. The great increase in travel up the coast highway from the south during the past week or two is an indication of the effective efforts being made to direct travel this way.

President Stevens appointed H. E. Hess and C. C. Farr to act with County Agent Hale on the local advisory board for the Land Settlement Bureau.

The announcement of the Sentinel to issue a big special edition in August, giving publicity to the present condition and opportunity for development of southwestern Oregon, was given official endorsement by the board.

Hon. Louis E. Knapp, of Port Orford, who had been invited to address a forum meeting of the chamber was present and explained the reforestation law enacted by the last legislature. Due to an oversight he had not been notified that forum meetings had been discontinued for three months, but the directors were very glad to have him present and secured valuable information from his outline of the new law.

Walter Laird Surprised

Yesterday being the birthday of Walter Laird, Mrs. Laird invited in a few friends in the evening as a surprise for him. After a most pleasant evening ice-cream and cake were served to Judge and Mrs. D. F. Thompson, Mr. and Mrs. Will Hickam, Mr. and Mrs. Roy Pettengill and daughters, Mr. and Mrs. Drue Cunningham and Jas. N. Jacobson.

Returns from Radio Convention

Fred A. Wimer returned Wednesday night from attending the radio dealers' meeting in Portland. He is greatly enthused over the line-up of machines for this summer and fall's business. The convention was attended by about 250 retail dealers and Mr. Wimer feels that the new stuff he learned while there will be of immense benefit to himself and his customers.

Hurrah for the Fourth of July!

Be all prepared for it.

Just call The City Cleaners 103-L and they'll fix up your clothes for the occasion.
