A TIP from Your Teacher

Among "Northwestern" students of last summer were teachers who paid us many splendid compliments. Of many letters later received was one which read:

"As a graduate of the University of Washington and the Ellensburg State Normal School, I am glad to state that your instructors are among the best I have ever known."

Information about the forthcoming summer session will be gladly sent to you on request.

Write direct to Chas. F. Walker, President.

M. E. South Assembly Here for 10-Day Session

(Continued from first page)

as guests of John F. Kdenenberg at Wecoma Baths.

The program for Sunday includes, besides the 11 and 7:30 services, a day of other activities in other branches. Lyman Carrier and Rev. O. W. Moerner will have charge of the Sunday school, and Mrs. Hume R. Steele will address the Girls' class. Rev. Moffett Rhodes will be leader for the young men's class.

Senior, Hi-League and Junior Epworth League services will be held in the afternoon and evening.

The faculty for the courses of study pursued during the assembly is included in the following list:

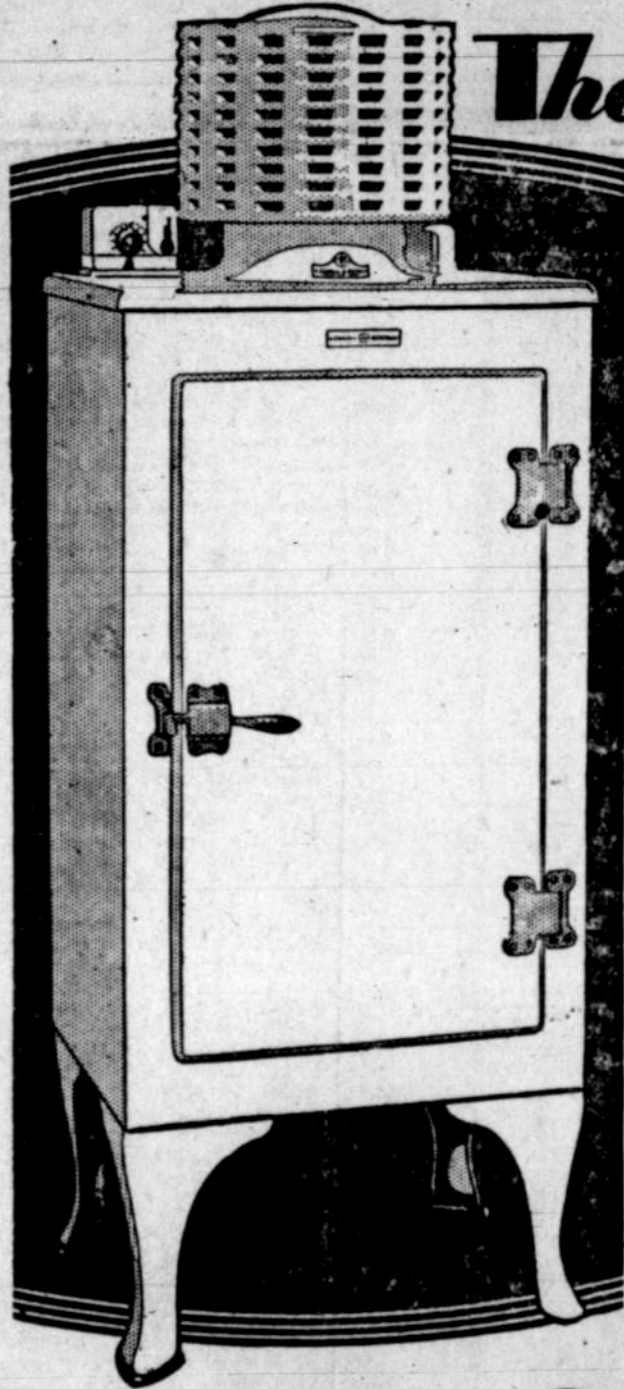

Women's Missionary Society—Mrs. Hume R. Steele, of Nashville, and Mrs. H. S. Shangle, of Milton, Ore.

Sunday School—Rev. O. W. Moerner Pastors' School—Rev. Moffett Rhodes, of Santa Ana, Calif.

Epworth League—Rev. E. O. Harbin, of Nashville; Rev. E. J. Harper, of Corvallis; Rev. John F. Reagan, of Willow Creek, Mont.; Rev. S. T. Wheeler, of Milton, Ore.; Miss Leah McGaughey, of Roseburg; Miss Mildred Newton, of Corvallis; Miss Linnie Carney, of Milton; Miss Agnes Creek, Mrs. E. C. Smith, of Miasoula, Mont.; and Mrs. Jessie Kain, of Walla Walla.

The sessions are proving a wonderful attraction to the people of this city, as well as to the visitors from elsewhere in Oregon, from Washington, Idaho and Montana, and if they are thrilled by the beauties, climate and weather in Coquille, as well as by the whole-souled greeting extended them, the people of this city are no less delighted with the visitors and the opportunity to attend an assembly.

John Seeley returned Sunday from San Francisco where he spent the week following the close of school at the University of Oregon.

The ONLY All-Steel REFRIGERATOR EVER BUILT!

BESIDES keeping the scientifically correct temperature always, the General Electric Refrigerator has many unique features. This apartment model has an all-steel cabinet that cannot warp and that uses less current. It has all its mechanism safely enclosed in an hermetically sealed steel casing. It is unusually quiet in operation, entirely automatic and worry-proof.

Health authorities agree that there is a definite "danger point" in the preservation of foods and this danger point is fifty degrees. 50 degrees! When the temperature rises even a degree or two above that, bacteria multiply and flourish—foods spoil and become unsafe to eat . . . a menace to good health.

Take your own refrigerator's temperature . . . at different times of the day. If it registers several degrees below fifty—under all conditions—then you will know that your food is being safely preserved. If it doesn't, you owe it to your family's health to investigate the General Electric Refrigerator.

Come in and get all the details. A small down payment will place one in your home.

Listen in on the General Electric Hour, broadcast every Saturday evening, 9 to 10 Eastern Standard Time, over the N. E. C. network of forty-two stations.
