

For Quick, Safe Stops on Slippery Pavement get Tires that **GRIP!**

HAS your car been skidding? Before you have an accident, look at the treads on your tires. Worn-down pretty smooth? Or have they nothing but ribs—"sled-runners"—in the center?

Plenty of miles left in them—but mighty little non-skid protection! We'll pay you for the remaining mileage—and put on new Goodyear All-Weathers that will also insure you against delays and tire changes on wintry days and nights.

Not in 25 years has any tread approached the All-Weather for the prevention of skidding. Those deep-cut, sharp-pointed, sharp-edged cross-blocks of tough rubber—**DOWN THE CENTER** where you most need tires to **GRIP**—cut in and take hold the moment you step on your brakes.

And more! Get into a rut or sink into deep mud, sand, slush or snow and those cross-blocks extending **UP THE SIDES** also take hold.

Drive in safety this winter! Trade in those slippery-tread tires **NOW!** One accident may cost you many times the price of a change-over.

Grip!

All-Weather Treads grip! Proved by a quarter-century of use, the world's safest and best non-skid tread.

Assistant Co. Agent Opposed

Myrtle Grange voted against employing an assistant county agent, giving as a reason that it was just another burden upon the already overburdened taxpayers. The matter had been referred to the Grangers by the county court for recommendation. The plan as proposed to the court was that the assistant should act as

4-H club leader in Coos and county agent in Curry, devoting half his time to the work in each county.

Arago Grangers are preparing for an all-day meeting November 3, beginning the day with a morning service, then a noon meal followed by a grange program.
