

What will happen this Winter?

IT DEPENDS upon the treads you have on your tires, whether or not you drive with safety this winter. "Good brakes plus tires that slip equal no brakes."

Examine your tires today. Are they worn as smooth as a hog's back? Are they the type that slip and slide?

The One Real Winter Tread--Goodyear All-Weather

Note the deep-cut, sharp-pointed, sharp-edged cross-blocks IN THE MIDDLE of the All-Weather Tread.

You can plainly see that—being in the center where you need them most—these cross-blocks will cut in, dig down, and grip the road. They act like cleats or spikes.

Note, too, how the cross-blocks extend up both sides—to prevent skidding on curves—to take hold in ruts—to pull you out of deep mud, sand, slush, snow.

Twenty-five winters of slippery roads have proved the All-Weather the safest and best non-skid tread. Yet it costs you no more.

Exchange Your Unsafe Tires for Safe New Goodyears

To promote safe winter driving, now when you most need effective traction, we will buy your present tires and give you safe new Goodyears. Pay us only the difference in mileage value. You lose nothing by not wearing out the old tires which have more value than they will have later on. You gain winter safety.

New Goodyears now cost less than ever. Yet the mileage in them beats all former records. And they are guaranteed for life—by the world's largest rubber company.

Drive in—learn the small cost of safely equipping your car with Goodyear All-Weathers.

More People Ride On Goodyear Tires Than On Any Other Kind

The H&L club met at the home of Mrs. Ray Dement Wednesday afternoon. A delightful luncheon was served at 1:30, after which bridge was the diversion of the afternoon. Mrs. Chas. Harlocker won high score. The club guests were Mesdames M. Earl Wilson, Charles Harlocker, Harry Dement, Will Lundy, R. Harrison Mast, Earl Cooley and John Arnold. The local football team will play

the North Bend team on the Myrtle Point field Saturday afternoon.

P. I. L. E. Starts Tomorrow

The Pacific International Livestock Exposition, to be held October 26 to November 2, will house this year some of the most outstanding exhibits in the industrial section ever seen. The various general merchants, manufacturers, industrial organizations, transcontinental railroads, and other factors in the development of this Western country, are again taking space, and will be found, generally speaking, in their old stands. This feature of the Exposition is a very interesting one, and a never ending source of profit and enjoyment to the

many thousands of people who come to the Pacific International each year. There is hardly a thing manufactured or sold in Portland that may not be found represented in the various booths at the Exposition, and particularly enjoyable and profitable are the exhibits of the power and light organizations of this country. Space is selling rapidly, and every day sees new faces applying for space.
