

Well Folks---

The Football Season Is On!

Our High School Boys are working out daily. Coach Hartley and the boys are doing their part. The arrow points to a County Championship, let's all do our part and boost.

It's our team.

How to Raise Poultry

By Dr. L. D. LeGear, V. S. St. Louis, Mo.

Dr. LeGear is a graduate of the Ontario Veterinary College, 1892. Thirteen years of veterinary practice on all classes of live stock and poultry. Extensive authority on poultry and stock raising. Nationally known poultry breeder. Noted author and lecturer.

ARTICLE LI Is Bacillary White Diarrhoea a "Pipe Dream"?

Many Widely Differing Opinions Have Been Printed About This Deadly Disease. Most Investigators Now Agree That Blood Testing Is the Only Dependable Means of Detecting Its Presence in the Parent Stock—Sanitation and Elimination of Carriers the Only Effective Weapons Against It.

We find experts of unquestionable reputation who assert with great positiveness that Bacillary White Diarrhoea (B. W. D.) is the greatest menace to poultrymen since the landing of the ark and that the blood test is the one sure means of achieving victory. Another group of just as impressive reputation assert with equal assurance that the B. W. D. menace has been vastly overrated and the kindest thing they can say about the blood test is that it is just an experiment with only limited value, if any. The one group maintains that it is a germ disease while the other is quite sure that it is caused by improper brooding, too early feeding or the feeding of improper materials, etc.

The majority of our best authorities favor the view that B. W. D. is a highly infectious disease which is transmitted from hen to chick through the egg. These writers are also of the opinion that the blood test known as the Agglutination Test is the only sure means of detecting the disease in mature fowls. My own study of the disease extending over a number of years convinces me that the true B. W. D. is a genuine contagious bacterial disease transmitted from hen to chick through the egg, and is quickly spread from affected chicks to others in the brood.

This fact should be fully realized by poultry raisers everywhere, for B. W. D. is one of the worst diseases affecting baby chicks. Losses up to 50 per cent are not uncommon and not infrequently 80 to 90 per cent of a hatch will be wiped out. Of those that survive, many will retain the germs in the ovary or egg sack where they will find their way into the eggs causing infections of future generations. If these birds are used for breeders, the most critical period is during the first 48 hours.

All cases of bowel troubles in baby chicks are not B. W. D. by any means. Simple Diarrhoea is not contagious, and is often the most common kind seen. It is usually caused by faulty feeding, improper brooding, dampness, etc.

Affected chicks are dull, dispirited and dejected looking. In the most serious cases a white pasty substance closes up the vent. As a result the chick becomes pot bellied and utters a pitiful "peep, peep" indicative of great pain. Death usually follows in a few hours. Those only mildly affected may develop rapidly, show no outward signs of the disease and reach maturity with the germs concealed in their ovaries. Such fowls are called carriers or re-actors.

Since carriers show no external evidence of their condition, the importance of finding some way to detect these disease spreaders has long been recognized. Several tests are now available, but the most reliable one is that known as the Agglutination Test.

Corvallis Man Wins Cup

Mr. Coleman of Corvallis took the honors in the men's division of the state archery shoot held in Coquille on Labor Day and won the honor of being first to have his name inscribed on the Durant cup.

Mrs. Perma Harris of Coquille captured first place in the women's division in the target events, thus winning the Stone-Burr-Gouthier cup.

Grover Gouthier of Coquille made a fine American round, winning over the day's champion by eighteen points but dropped back in the York round to such an extent that he was eliminated from the finals.

John Stone of Coquille won the flight shoot with a distance of 346 yards. Gouthier was second and Don Donaldson third in this event.

The junior shooters were not very much in evidence. Harrison Greenough won in the target event and H. Storey of Sweet Home took second, while in the clout and flight events, Storey took both first with Greenough a close second.

Following is a list of winners in the principal events, with their scores:

These scores are counted without adding hits, which system was adopted for the cup shoot.

Men's American Round—Gouthier, 517; Coleman, 499; Harvey, 487.

Men's York Round—Coleman, 440; Harvey, 410; Burr, 386.

Combination—for the Durant Cup—Coleman, 939; Harvey, 897; Burr, 849.

Men's Clout—Tracksel, 201; Stone, 167.

Women's Columbia Round—Harris, 454; Tracksel, 393.

Women's National Round—Harris, 311; Tracksel, 264; Coleman, 192.

Women's Clout—Tracksel, 259; Harris, 10; Coleman, 110.

Women's Combination—for Local Cup—Harris, 765; Tracksel, 657.

The performance of Mr. Coleman was especially remarkable from the fact that he is unable to walk a step without crutches and has to use them constantly while shooting.

Perfect weather as is usual at this time of year in Coquille, with very little wind, made it an ideal day for the meet. The attendance was very fair and quite a gallery of spectators watched the events.

Business College Opens

The business college opened this week in their new location in the Clay building with a goodly attendance. Those wishing to enroll for the specially reduced rates in evening classes should be at the school rooms Friday evening of this week. Coquille is fortunate in securing a branch of the established college of Marshfield which enables students to complete courses who otherwise would be deprived of such an opportunity. As soon as the enrollments warrant, a regular day class will be conducted, in addition to evening classes, with resident teachers in charge.

Probate Court Items

Mrs. B. Christensen, of Marshfield, has been appointed administratrix of the \$800 estate left by Nancy McIntosh, who died at Marshfield, Aug. 27. The appraisers of the estate are Geo. H. Bessey, Lawrence D. Bessey and Annie Smith.

There are many biological laboratories in the country capable of making such tests. Once it has been determined which hens are the carriers of the disease, they could be separated from the flock and used no more for breeders.

Steps can be taken to limit the spread of the disease. Baby chicks should be divided into small flocks of 100 or 200 or less. By this means they can be watched more closely. If any are noticed with bowel troubles, they should be removed at once and either kept to themselves a few days for developments, or killed and burned. Droppings should be cleaned out often. Feeding and watering equipment should be kept scrupulously clean at all times. Floors should be cleaned often and disinfected with a 3 per cent dip and disinfectant solution. Dry, clean litter should then be placed on the floor.

By covering the brooder room floor with half-inch mesh wire, raised a few inches from the floor, will do a lot to prevent the spread of this disease. Chick Tablets should be dissolved in all drinking water for the first three weeks. Fresh buttermilk or clabber-milk should be fed daily in clean protected vessels. Only feed of the best quality should be fed.

It is especially important that incubators and brooders be thoroughly scrubbed and disinfected before being used for fresh hatches. A very important factor in the control of this trouble is to keep houses, runs and all equipment in 100 per cent clean and sanitary condition at all times by cleaning often and using freely a good dip and disinfectant. The germs of B. W. D. may remain alive for months and unless such precautions are observed may cause an outbreak of the disease.

Loggers Win and Lose in Two Games With Salem

After losing to the Salem Senators in a poorly played game Sunday 11 to 4, the Coquille Loggers came back on Labor Day, and in the best ball game seen here this year, won by a 6-3 count, tying the series at one all.

While the entire team played brilliant ball Monday, special mention should be given Al Brown who pitched a wonderful game, and received such airtight support that not a senator crossed the plate until Messenger hit one over Pulford's head in the seventh for a home run.

"Chuck" Wirth, Logger second baseman, was the flashiest ball player seen around the keystone sack for several years. Fast as a streak, he cut off what looked like sure base hits and was the pivot man in a lightning fast double play in the fourth. T. Girod had singled and P. Girod hit a slow one to Stewart. Bill just did get the ball to Wirth ahead of the runner and Wirth turned as he caught the ball, touching the bag, and fired to Tuma who had the ball an eyelash ahead of the batter.

Seven sacrifice hits by the Loggers Monday shows the kind of ball the club was playing.

Brown had well nigh perfect control. He did not walk a man, nor hit one; in fact there was not a batsman hit in either game. Some of the Salem men said that Brown was easily the best pitcher in the Willamette valley this year.

Wirth and Stewart scored in the first to get the jump on the visitors. Wirth walked and beat the ball to Second on Stewart's bunt. Tuma sacrificed to advance each a base and Noble Brundage scored them with a screamer past second.

Marion Fischer fails to get credit for a pretty two-bagger in the second when he was called out at first for failure to touch the sack.

Coquille scored one in the fourth without a hit. Brown walked, took second on Cox's sacrifice which P. Girod juggled and scored on Roper's sacrifice to center.

Singles by Tuma and Brundage and three sacrifice hits in a row scored two in the sixth.

In the eighth Brundage got the ball he was waiting for and parked it near the center field gate for a circuit of the bases. Roper's double scored Brown who had singled.

For Salem, Messenger scored on his hit through the gate in the seventh, and in the ninth "Frisco" Edwards, who had done no hitting the day before, tripled to right center, scoring Messenger and P. Girod.

Too much Peterson caused the downfall of the Loggers on Sunday. They only secured five hits off his delivery, while the Senators were nicking Gillie for 14. The five Logger errors also contributed to the defeat. But the Salem bunch had their hitting bats along, and were clubbing the ball wherever Gilbert put it. The four leading hitters of the Willamette Valley League, two from Salem and two from Eugene, were making Gillie's job a tough one and they scored seven in the first two frames.

It is doubtful that the odd game can be played this year, for Salem needs Eugene next Sunday and rain is apt to stop baseball any day now.

SAVE UP TO 33%

Go East before Sept. 30th

a visit to California is included when you go Southern Pacific

September 30 is the last day you can buy the greatly reduced summer roundtrips to the East. Tickets are good until October 31. No matter what your destination—the mid-west, east or south—your Southern Pacific ticket includes a visit to California on the way.

BY RAIL AND SEA TO EASTERN POINTS

This way you get more scenic miles per dollar... you see San Francisco, Los Angeles, the Spanish-American Southwest, New Orleans. Stopover where you like. From New Orleans, choice of

rail or Southern Pacific steamship to New York. Your choice of rail routes returning.

NO OTHER TRIP LIKE THIS

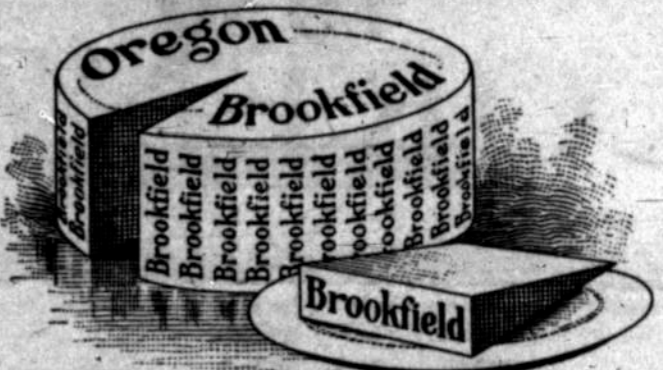

No other great vacation trip compares with this... the full sweep of the Pacific Coast and the South, plus an ocean voyage, on a single roundtrip ticket.

On any trip East, it costs only a trifle more to go this way. In some cases exactly the same as an ordinary roundtrip ticket.

The Southern Pacific agent will gladly help you plan your trip.

Neighbors of Woodcraft Meeting

All Neighbors of Woodcraft are requested to meet on Monday night, Sept. 15th, for a pot luck supper. Myrtle Point and Port Orford lodges have been invited to be present. After the regular meeting there will be given a negro play, "Dinnah is Served," besides other entertainment and refreshments. Each member is asked to bring her family and a friend.

Gregg Starts Another House

E. W. Gregg on Monday broke ground for the five-room house and full basement which he is going to build for Harry Haines, of the county highway department, on the lot just south of the Geo. Moulton residence on Fleish street. It will be 32x28 feet, one story and of the Spanish type.

Give the City Cleaners a chance to attend to all your cleaning and pressing needs. Every garment given careful attention. Prompt service at all times. Phone 103-L.
