Sunday and Monday Sept. 28-29

Lila Lee and Conrad Nagel in

"Second Wife"

The truth about second marriage brought to the screen for the first time, bringing to the homes of the world in one tremendous dramatic sweep a problem no picture dared treat before.

Tuesday and Wednesday, Sept. 30 & Oct. 1, Ramon Novarro and Lottice Howell in "IN GAY MADRID." A thrilling, passionate romance of old Spain. Hear his golden voice in unforgettable melodies. See him fight. See him in his greatest role.

Thursday, Oct. 2, Sally O'Neil and Molly O'Day in "SISTERS." These two charming sisters play the most absorbing roles of their careers in this comedy drama of love and sacrifice.

Friday and Saturday, Oct. 3 & 4, Mary Nolan in "YOUNG DESIRE." She was the Queen of the Side Show. And he was just a small-town boy. A smashing climax.

We have the finest short subjects to be seen on the screen. Don't miss them!

Football Squad Is Showing Up Well in Practice

The C. H. S. football squad is showing daily improvement as Coach Hartley puts them through the practice grind every evening, and the boys are hopped up with the idea that they will get somewhere this season. They believe they can meet any team in the conference this year with a good prospect of winning and that attitude will help a great deal when they meet teams which may be equally strong.

In scrimmage last Tuesday afternoon Mr. Hartley played the seniors and sophomores on the squad against the juniors and freshmen. The senior squad considerably outweighed their opponents and contained most of last year's lettermen. They won by five or six touchdowns to none, in 10-minute quarters, and showed some smart football.

The boys are none too sure yet on their passing game, but in interference and tackling and taking out a man they were good, and old-fashioned players who watched the scrimmage believe the boys have a very dependable defensive as well as offensive this year.

Coquille will play its first conference game next Saturday, Oct. 4, against Roseburg HI, here. The first game of the season is tomorrow afternoon when Myrtle Point plays at Bandon.

U. S. Boys To Model This Coach With "U" Scholarships as Goal

Newly formed Fisher Body Craftsmen's Guild offers \$50,000 in awards to youths

Detroit, Mich. — Four university scholarships of \$5,000 each are offered to the boys of America in an announcement today of the formation of the Fisher Body Craftsmen's Guild, an organization dedicated to a program of education in manual arts and to perpetuating the ideals of the ancient craft guilds.

The scholarships and more than 900 other awards having a total value in excess of \$50,000 will be given to the boys who build the best miniature models of a Napoleonic coach. The contest is open to every boy in the nation between the ages of 12 and 19 inclusive. Owing to the wide age range, there will be two class divisions: juniors aged 12 to 15 years, and seniors aged 16 to 19 years; with equal awards to each group.

The Fisher Body Craftsmen's Guild and its educational program are sponsored by leading educators and industrialists. The entire dealer organization of the Boy Scouts of America, and William J. Fisher, president of the Fisher Body Corporation, is active president of the guild. The board of judges of the Guild is composed of the following nationally known educators:

Thomas S. Baker, president, Carnegie Institute of Technology; M. L. Brittain, president, Georgia Institute of Technology; M. E. Cooley, dean emeritus, College of Engineering and Architecture, University of Michigan; G. J. Davis, Jr., dean, College of Engineering, Ohio State University; D. S. Kimball, dean, College of Engineering, Cornell University; P. R. Kolbe, president, Polytechnic Institute of Brooklyn; Robert A. Millikan, California Institute of Technology; R. L. Sagner, dean of engineering, Pennsylvania State College; Rev. G. A. Steiner, G. E. O. dean, College of Engineering, University of Notre Dame; and B. W. Stratton, president, Massachusetts Institute of Technology.

The Fisher Body Craftsmen's Guild has been organized for the purpose of encouraging and stimulating the craft guilds of bygone centuries. The boys eligible to become members of the Guild and compete in this contest soon will be knocking at the door of industry seeking their start in their life-work. We believe that they will come better equipped

through the training received as Guild members, and thereby be enabled to achieve greater heights.

A comprehensive plan has been devised so that it will be easy for every boy in the age limit to enter the contest. To obtain this nationwide accessibility, the entire dealer organization of General Motors, of which the Fisher Body Corporation is a division, has been drafted into service. Each of these 20,000 motor car dealers has been supplied with enrollment blanks with which to enroll the youthful entrants. In addition they will advise and assist the contestants in any questions which may arise.

At the conclusion of the contest, coach models made in each state in the country will be judged separately and according to junior and senior groups. The boys adjudged the best craftsmen in both groups and in each state will be given a trip to Detroit as guests of the Guild and \$50 in gold.

The four first awards of \$5,000 scholarships may be used at any university selected by the fortunate young craftsmen. These scholarships cover a full college course of four years. In the junior division, where the winners may not have reached college age, the scholarships will be held in trust by the Guild until the winners are prepared to enter the university of their choice.

In addition to these principal awards and the Detroit trips for the 96 boys, there will be cash awards for builders of the second best coach model in both divisions in each state and other cash awards for individual merit on particular parts of the model building, such as woodcraft, metalcraft, trimcraft, and paintcraft. These special awards will be equally divided among the junior and senior groups in each of the states.

TAKING-THE GUESS OUT OF BUSINESS

By JOHN G. LONSDALE
President American Bankers Association

BANKERS and business men err in not adopting more universally the tactics of the scientist. When the

John G. Lonsdale

scientist wishes to fathom the mysteries of the universe or to solve things into their component parts he calls to his assistance the magnifying power of the microscope. There before him, like an open book, lie the secrets of nature which unaided eyes cannot observe.

The uncanny power of the microscope's all-seeing eye has revealed countless secrets for the material and intellectual progress of humanity. It has enabled us to study the processes of growing cells in plant and animal life, trace the causes of disease and successfully combat the ill of mankind; it has aided the engineer in his search for stronger and more serviceable materials, giving us taller, lighter and more sanitary structures, and better highways; it has disclosed the defects in steel rails and brought us an era of safer railway travel; it has added to the food supply of the nation; in fact, it has affected favorably nearly every activity of the human race, whether it apply to production, distribution or consumption, in time of peace or in time of war.

In the business and banking world, economic research and analysis serve as the microscope through which we are enabled to see basic factors more clearly and thus determine the causes of success and failure. Only through research and analysis and apply them in such a way as to eliminate the guesswork that was characteristic of industry a few years ago. "Eliminate the guess and reach success," might well be a motto for all of us.
