

Ringlette
the new permanent wave method

15 TIMES LESS WEIGHT
10 TIMES LESS HEAT

"as easy as a marcel"

OUR new "Ringlette" method of permanent waving is revolutionary. It is quite as simple, easy and comfortable as a *marcel*. With it there is not the slightest discomfort, pull or pain. There is no pedestal—no chandler—no heavy mass of metal to take away the pleasure of having a beautiful wave.

100—just one wire is used—that assures you of freedom of movement throughout the operation—YOU CAN WRITE, WALK OR TELEPHONE! It produces a beautiful, natural wave—and that with one-tenth of the usual amount of heat. This naturally tends to protect the hair rather than take the life out of it. The "Ringlette" marks a new freedom and new beauty in permanents—be among the first to enjoy its comforts.

B. P. W. Met Monday

The B. P. W. met at 7:30 Monday evening, December 1, at Pythian Hall. The main event was the initiation of new members but a short business session preceded the ceremony. The most vital issue was our Christmas program. The suggestion of a Christmas tree in the hall with gifts not exceeding fifty cents in value to be given to each other by the members was discussed. This plan was unanimously rejected because of the employment situation and the following one was adopted with equal unanimity. Each member is requested to contribute fifty cents to a Christmas fund to be used in the purchase of necessities for those who lack them because of unemployment or misfortune. This contribution is to be paid to Mrs. Ida Owen who has a complete list of members and will check off the names as contributions come in. Members are asked to be as prompt as possible so that the fund may be available in time for the holiday.

At the close of the business session the initiation ceremony opened with the reading of the collect by all present, followed by the singing of club songs. Candidates were then addressed by Mrs. Gladys Watson who led the ceremony. Mrs. Leona Bryant sang an emblem song and the candle was observed. A group of members then appeared bearing the symbols of the B. P. W. emblem. Mrs. Watson explained the significance of each symbol and the initiation closed with the singing of the emblem benediction.

The following new members were initiated: Mrs. Clara Bosserman, Miss Doris Kay, Mrs. Cora Mackey, Mrs. Bertha Norton, Mrs. Edith Mudd, Mrs. Harmon, Mrs. Jennie Lindros, Mrs. Jennie Price.

The next meeting will be held December 15 at Pythian Hall. This meeting is in charge of the Executive Council and a Christmas program will be presented.

Shower for Mrs. Clausen

A miscellaneous shower was given at the home of Blythe Cousins last night for Mrs. Lester Clausen, nee Bernice Alpine. Many beautiful as well as useful gifts were given the guest of honor. Michigan was enjoyed by those present. The guest list included: Mesdames Lester Clausen, W. T. Alpine, Ernest Perrott, Willard Bosserman, Ronald Ward, Tracy Leach, Floyd Peterson, Martha E. Mulkey, Anna Rooney, Ruby Cousins, Misses Edna Robison, Saima Lindros, Jennie Lindros, Julia Hamblock and the hostess.

KEEPING WELL

CURING INSANITY

DR. FREDERICK S. GREEN
Editor of "HEALTH"

FOR many centuries all unfortunate suffering with any disease or condition affecting the mind were looked on as "possessed" or afflicted with evil spirits. As these demons could only be driven out by harsh and brutal measures, the poor sick persons were subjected to all kinds of cruel treatment. Naturally, recoveries were so few that any form of insanity was considered incurable.

Today, with a better knowledge of mental conditions and with suitable treatment in the form of rest, quiet, suitable nourishment and proper treatment, the number of recoveries is constantly increasing. There still is a high percentage of deaths among the insane, since many forms of mental afflictions are caused by and are a part of serious bodily conditions. In January, 1923, the federal bureau of census made a survey of all hospitals and asylums for mental diseases. This shows that there were at that time 285,829 patients. Among these 71,676 were first admissions, 16,133 second admissions. There were 31,304 discharged as cured and 23,436 deaths.

The number of recoveries differed greatly in different classes. The largest number of recoveries was among drug addicts. Of these, 43.2 out of every 100 admitted recovered. The next largest number of recoveries was among the alcoholic group. 38.5 recoveries out of every 100 admissions. As alcoholism is a drug habit, this shows that 51.8 out of every 100 admitted for mental conditions due to drug habits recovered as soon as the drug was stopped and the patient given proper treatment.

In those forms of insanity caused by bad habits or the use of drugs, the percentage of recoveries is high. But in those caused by actual disease or degeneration of the brain itself, there are few recoveries. For instance, in general paralysis of the insane or what is called softening of the brain, there are practically no recoveries nor is there any hope of recovery.

As a rule, those patients who are going to recover begin improving early in their hospital experience. The high-
