Brewster Valley

Harry Hall came to the valley Monday from Portland. He is a brother of Mrs. Walter Laird.

Mrs. Phoebe Harry has been quite ill with a bad cold for several days. Kenneth Laird has recently purchased a gas donkey.

Miss Edna Alford, who has been practically bedfast for several years, has been in a very critical condition the past few days, but is somewhat improved at present.

Little Betty Jean Nickason has been sick with tonsillitis.

Miss Hazel Durrell was home over the week end.

Mr. and Mrs. Alva Harry made a rush trip to the valley last week.

Insure your car with Ned C. Kelley.

Lose Fat Safely and Quickly

Kruschen Salts---(a perfect combination of the six mineral salts your body should have to function properly) purify your blood of harmful acids, and aid the kidneys and bowels to throw off waste material---the continual formation of which is probably the cause of your fat.

In this modern age of living, it's impossible to get these salts from the fancy foods you eat---but don't worry just as long as you have Kruschen Salts.

Take a half teaspoon every morning before breakfast in a glass of hot water---little by little that ugly fat disappears, you'll feel better than ever before---years younger, more energetic. You'll soon possess that enviable beauty, clear skin, sparkling eyes, superb figure which only perfect health can impart.

An 85c bottle (lasts weeks) at Fuhrman's Pharmacy, or any progressive druggist in America. Money back if Kruschen doesn't convince you that it is the safest, quickest, easiest way to lose fat.

A Hartford woman writes, "I'll tell the world Kruschen Salts is wonderful stuff to reduce." An Ohio woman lost 10 pounds with one bottle.

Arthur P. DeCamp's Lecture on Christian Science

(Continued from sixth page.)

inevitably come to him. One must awake to a conscious possession of his real possessions---right ideas proceeding from infinite Love---and use them, make them the basis of multiplication of good in every avenue of his experience. Jesus did not belittle the apparently scanty supply of bread and fish when it was necessary to feed a multitude. He gave thanks for it and used it. And his understanding became a law of multiplication which proved the supply sufficient to meet the need.

NULLIFYING THE BELIEF OF AGE

What is to be done about the condition called old age? It should be met with truth, with clear spiritual recognition and positive declaration of real being, with realization that man is as eternal as Truth, the divine Spirit, the source of his being; and the denial of the corporeal sense of man as having material beginning and ending---birth, growth, maturity, decay, death. "The fetters of man's finite capacity," we are told on page 223 of the Christian Science textbook, "are forged by the illusion that he lives in body instead of in Soul, in matter instead of in Spirit," whereas we learn in Christian Science that "God expresses in man the infinite idea forever developing itself, broadening and rising higher and higher from a boundless basis" (Science and Health, p. 258). The belief of aging manhood should be overcome through scientific thought, with the same confidence in the power of spiritual truth to destroy error as we feel and know when meeting the beliefs of sick and sinning manhood. Hear the wisdom of the book of Job on this question, "If thou prepare thine heart, . . . thine age shall be clearer than the noonday; thou shalt shine forth, thou shalt be as the morning." If one agrees with the false testimony of material sense that he is getting too old to work and says, "No one wants to employ a man of my age," he may have difficulty in finding suitable employment, but with the true sense of spiritual identity governing his thought, knowing himself to be the son of eternal Life and Love, eager hands will reach out to obtain his services. One must know for himself that man's spiritual endowment of strength, intelligence, wisdom, executive ability, is fadeless. Then his human demonstration of these qualities will grow with experience.

PROVISION FOR PROGRESS
The Samaritan did not simply give "first aid" to the sick and sinning traveler and then leave him to shift for himself. He "set him on his own beast, and brought him to an inn, and took care of him. And on the morrow when he departed, he took out two pence, and gave them to the host, and said to him, Take care of him; and whatsoever thou spendest more, when I come again, I will repay thee." Likewise does Christian Science make full provision for the protection and for the future progress of those whom it rescues from the Jericho road of sin and suffering. Christian Science "takes care" of its beneficiaries. Some receive all the help necessary to put them on their feet mentally and bodily through their own reading of the textbook. Others are taken care of with the help of a practitioner through what is named mental treatment which can best be described as prayer. This is a prayer of silent communion with our heavenly Father. It declares and realizes the all-power, all-presence, all-action of the one Mind, the Soul of the universe, divine Spirit. This prayer is the knowing of the fact that the divine Mind, our God, is infinite and is good. It affirms the inseparability of God and man in His likeness. This prayer also denies any substance, power, causation, or law to evil or matter. This prayer, or treatment, cannot be a formula. It must pour forth spontaneously as the result of spiritual communion with our omnipresent, omniscient Love, Life, Truth.

STUDY OF THE BIBLE
Christian Science shows the student how he may study the Bible in its original tongue of the Spirit. This study is in accordance with the first of the Tenets of this denomination, found on page 497 of Science and Health, "As adherents of Truth, we take the inspired Word of the Bible as our sufficient guide to eternal Life." It is through the study of Mrs. Eddy's monumental work, the Christian Science textbook, "Science and Health with Key to the Scriptures," and her other writings, together with the periodical literature issued by this denomination, that one is able to grasp and to prove the spiritual Science revealed in the Scriptures. Attendance at the public church services, making use of the Reading Rooms, consulting when desirable with practitioners, teachers, and other loyal Christian Scientists, greatly aid one who desires to know and to use the Science of right living.

One of the most useful and greatly appreciated channels of good initiated by Mrs. Eddy and provided by the

Christian Science church is the weekly "Bible Lesson" appearing in the Christian Science Quarterly. It consists of selections from the Bible and from Science and Health. Christian Scientists give daily study to the weekly lesson, and this lesson comprises the Sunday sermon which is read in every Christian Science church throughout the world. An earnest student, in testifying as to the practical value of this study, said that an annoying eruption had appeared on her body some months before. At that time her thought was especially given to the overcoming of what seemed to be a more serious physical ailment. The latter condition yielded to the application of the truth, but the annoyance from the eruption continued. Finally, one day she felt the call to work more deeply and claim the healing. She knew the condition to be unreal, and that it was only a picture of mortal thought, externalized on the body. As a method of lifting her thought above sense-evidence to practical spiritual Truth she chose to give diligent study to the weekly Lesson-Sermon. With confidence, she searched each of the Bible citations and those from Science and Health, expecting to gain the spiritual sense of God's allness and of man's perfection which would cast out conscious or seemingly unconscious fear, and destroy the false picture. As she read each of the references she mentally emphasized the application to her case. "Claiming the promise and knowing that only divine Love governs man, I had every moment during this searching and study been conscious that the discord was vanishing and I knew I was free," she said. "The irritation was gone! The skin was found to be smooth and natural where the discordant evidence had been before."

ATTITUDE FOR THE WORK OF MRS. EDDY

No fair-minded observer can be left in doubt as to the success attending his new-old Christian system of reforming the sinner and healing the sick. A great multitude in all parts of the world are the beneficiaries of its ever developing ministrations in behalf of humanity. Are they grateful to the woman who in this age has shown how practical and how complete is Christian salvation? They surely are. Christian Scientists do not worship Mrs. Eddy, as has been alleged. Her teaching shows the impossibility of personal worship. But they do revere her. They do appreciate her untiring labors for our race. They rejoice in her courage, her steadfastness, in her spiritual rationality, wisdom, and in her love for God and man. They realize that no one on earth to-day would have known anything of the real Science of Christianity or how to heal a single case of sickness through the application of his Science, except for the work of Mary Baker Eddy. And they rejoice that as time goes on the real Mrs. Eddy, the Discoverer and Founder of Christian Science, is becoming better known.

THE PERFECT RULE OF LIFE

What called forth the Parable of the Good Samaritan? A certain lawyer seeking, though not with an open mind, the solution of the age-old question, had inquired of Jesus, "What shall I do to inherit eternal life?" Jesus responded by asking him, "What is written in the law? now readest thou?" Thereupon the lawyer had repeated the familiar digest of the Mosaic law, "Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy strength, and with all thy mind; and thy neighbor as thyself." And Jesus said to him, "Thou hast answered right: this do, and thou shalt live." But the lawyer was not satisfied with Jesus' simple and direct reply. He entered a demurrer: "And who is my neighbor?" he parried. It was then that Jesus told him the story, pregnant with wisdom and love, of the man who fell among thieves, and of the priest, the Levite, and the Samaritan, the attitude of the latter clearly illustrating obedience to the eternal demand of Truth to love one's neighbor as one's self.

Let us pause to inquire, How are we succeeding in meeting that demand? Many Christian men and women, struggling with the temptation to hate someone, have agonized over the Christian requirement not only to love one's neighbor, but also to "love your enemies." To personal sense it seems impossible to obey this requirement. But the spiritual sense of being, taught in the Bible and made clear and practical through the teachings of Christian Science; enables mankind to obey these injunctions. To love one's neighbor, to love one's alleged enemy, one must first learn to love one's self. One can love himself only as he learns to know himself as the offspring of the one creator, Love. All must be included in the one creation. A neighbor is one who dwells near. It is not possible to get any nearer than by knowing that all are bound together in the creation of infinite Love. Then one will love unselfishly, impersonally, impartially, universally, and refuse to have any sense that another is his enemy, and he will learn better day by day how to serve mankind.

Evidently wishing to commit the lawyer questioner as to his acceptance of the lesson taught in the parable, Jesus asked, "Which now of these three, thinkest thou, was neighbour unto him that fell among the thieves?" The sense of supercilious superiority and of unreasoning condemnation had melted away in the sunshine of Love understood and demonstrated (the same phenomenon is observable to-day in the attitude of those who have thought themselves opposed to Christian Science), and the ungrudging response came spontaneously. "He that shewed mercy on him." Then said Jesus unto him, even as divine Love is saying to each of us at this hour, "Go, and do thou likewise!"

Rural Teachers Entertained

The Millington Welfare Club and teachers of the Millington school are entertaining rural teachers at luncheon Saturday noon. They plan to serve soup, coffee, and apple pie a la mode. The visiting teachers will each bring crackers, cake or cookies with them.

Miss Hoyendahl, public health nurse, will be in attendance to answer questions pertaining to health of pupils.

Maude Barry, art supervisor of the Marshfield schools, will help the teachers by giving suggestions as to correlating moral education with arithmetic. Irene Steele, of Bridge, will lead teachers interested in primary work in a discussion of problems, while Mrs. Mulkey, county superintendent, will lead those interested in advance work.

The music will be in charge of Flora Haysany and Irene Hodson, who will teach the visitors songs to be used with their pupils.

The meeting at Norway held last Saturday was very interesting and well attended, those present were: Mrs. Lather Wilson, Mildred Russell, Norway; Ida F. Oeding, Roy; Ethel Fish, Flagstaff; Freda Elder, Allegany; Elsie Halliday, Lester Gardner, Valley View; Ellen Sandine, Allegany; Claudia Parker, Gaylord; Effie K. Shindell, Bald Hill; Inez Chase, Coquille; Opal Phelps, Broadbent; Faye LaBranch, Bridge; Evelyn McPherson, Astoria; Mrs. Hilda Peterson, Brown Hill; Mrs. Cora Mackey, Roy; Mrs. Esther Hurst, Alder Creek; Florence Jerding, Cunningham; Edith Mecum, Remote; Everett Poling, Olga Sandine, Lee, Alice Jenkins, Shiloh; Robert Brash, Catching Creek; Edith Woodward, Fairview; Nellie Davis, Bridge; Mrs. Laura Luttrell, Dora; Lucy Bloyd, Zoa A. Bloyd, Pleasant View, Washington County; Audry Wiencken, Marion King, R. M. Knox, Martha E. Mulkey.
