Right Tire at the Right Price**GOODYEAR**

If the first-choice tire costs no more, there's not much point in buying the second-choice tire, is there? Well, Goodyear Tires cost no more! And as for being first-choice, they're THAT by millions more sold every year. "MORE PEOPLE RIDE ON GOODYEAR TIRES THAN ANY OTHER KIND." You owe it to yourself to know the reason why Goodyear Tires lead all others so greatly. They are the very reasons that should prompt you also to decide: "I will buy only the leading make of tires."

Prices being equal, sales opportunity being equal, isn't it logical to suppose that the company which builds the most tires does so because it builds the best tires? Well, Goodyear builds the most tires—by millions! It has built the most tires every year for 16 years. No need then to say that it builds the best tires; the public has decided that. Wouldn't this be a good time for you to do a little deciding, too—as, for example, that in the future it will pay you to say:

"I will buy only THE leading make of tire!"

Maryland Woman Happy Now—Loses 55 Lbs.

Edith J. Marriott of Baltimore, Md., writes: "Last winter I weighed 200 lbs. and was very much ashamed. I bought a bottle of Kruschen Salts which gave such wonderful results I bought more. After 4 bottles I weigh 145 lbs. and all my friends say, 'How slender you've gotten—how did you do it?' I say only 4 words—thanks to Kruschen Salts."

A generous bottle of Kruschen Salts that lasts 4 weeks costs but 85 cents at Fuhrman's Pharmacy, Inc., or any drug store in America—take one half teaspoon in a glass of hot water every morning before breakfast—cut out pastry and fatty meats—go light on potatoes, butter, cream and sugar—that will help Kruschen take off your fat.

Take Kruschen every morning—it's the little daily dose that does it—if not joyfully satisfied after the first bottle—money back.

McKinley Notes

The McKinley school closed Monday with six pupils receiving diplomas, namely Leonard Lawhorn, Ronald Maiden, Melvin Jenkins, Archie Hansen, Maxine Glenn and Arla Jenkins.

Mrs. Mulkey surely is to be congratulated on her work to eliminate final examinations from the grade schools as a child who has proved his scholarship for eight years is entitled to go on rather than be fretted by having a final test hanging over his head that he possibly could fail through sheer nervousness. It is well known that some of the best students are of the nervous type.

The school board held the annual budget meeting Tuesday night, but instead of trying to lower the cost of

running the school an additional item was voted, that of having a well dug, although McKinley now has one of the best water supplies in the county. Another item voted on that astonished the old time residents, and especially the boys, was to padlock the base ball grounds that a former board had spent several hundred dollars to buy and clear for a baseball diamond. The only excuse offered was to prevent an occasional car from using the school grounds for a turning place, although it was hard to comprehend why it was necessary to lock more than one side of the double gate or why the small gate in the rear, which was put there years ago as the only practical foot route to the Hansen wood lot, or the other small gate at the extreme end of the school yard, need be ordered nailed up. Probably the taxpayers will have something to say concerning the public school ball grounds and other matters at the annual meeting.

This neighborhood has at all times past encouraged the boys in all outdoor sports, and at one time four McKinley boys were on the Coquille high school football team. The board member who proposed locking the only available ball grounds is a former scoutmaster which makes the action the more incredible.

McKinley folks are rejoicing at the thought of having the Holmstrom family out on their farm again. It is expected they will come here from Coquille some time this week.
