Age of Race Tracks

The Lexington race track is the oldest in the country of the tracks now operating, but a neighbor of the metropolitan tracks—the oval at Saratoga—is second oldest. The oldest Sheep-head Bay and Long Branch tracks date far back in the history of the turf, but are no longer in existence as race tracks. Pimlico, the Maryland track, has been in use longer than the present Saratoga track, but if you include the entire Saratoga property, including the little Horse Haven track across Union avenue, then the Saratoga oval can claim second honors.—New York Sun.

Coal Miners' Superstition

The origin of the superstition regarding a woman's entering a coal mine is obscure. It has existed in England, Scotland and Wales from very early times. In many parts of England it is customary for the men to enter and leave the pits during the night and it is regarded as an omen of bad luck if they meet a woman when they first leave the pits or leave their homes before entering them. A similar superstition exists among the fishermen of Yorkshire. If they meet a woman when leaving home they immediately return home.

Calling cards 100 for \$1.50.

New Cases in Circuit Court

Jan. 11—Mae Wurth vs. John R. Wurth. Suit for divorce.
Jan. 12—State of Oregon, for the use of the Coos Bay Logging Co., vs. V. A. Bilderbach & Sons, A. C. Greenwood and the Aetna Casualty & Surety Co.
Jan. 13—Katherine G. McBee vs. Delbert McBee. Suit for divorce.
Jan. 13—Farmers & Merchants Bank of Coquille vs. Willis L. Harmon.
Jan. 14—Ada Anderson vs. Gorst & King and Lyman Page.

Marriage Licenses

Jan. 8—Sam Karavanich and Matilda Karavanich, both of North Bend. They were married Friday by Justice J. J. Stanley at his office here.
Jan. 12—Mark Anusick and Mary Yerkovich, both of North Bend.

Odd Wedding Features

At the wedding of his son in Sheffield, England, Sir William Ellis wore the suit in which he was married 42 years before, while the bride wore the dress which Lady Ellis wore at her wedding, and the pearls and other jewelry which belonged to Lady Ellis' grandmother.

SOCIAL NOTES

The Coquille Woman's Club met Tuesday at the Guild Hall with a splendid attendance being present. The meeting was opened with the president, Mrs. J. E. Norton, presiding. It was voted by the club ladies to give ten dollars a month from January to May, inclusive, to the Coquille public library. Not much new business was taken up that day, mainly due to lack of time.

A very interesting program followed with Rev. J. J. Handsaker, of Portland, associate secretary of the National Council for Prevention of War, as the main speaker for the afternoon. The program opened with all singing, "Star Spangled Banner," which was followed with the "Salute to the Flag." Mrs. George Chaney, first on the program, gave a very interesting paper on "International Events." It dealt with the much-talked-of problems of ours and foreign countries of today.

Mr. Wm. Zemel, commander of the American Legion here, introduced Mr. Handsaker, who to many needed no introduction, as twenty-eight years ago Mr. Handsaker came into this country as minister to the Christian Church. His talk was on disarmament of all countries and about the international conference which will be held February 2nd in Geneva, Switzerland. At the close Mrs. Lyman Carrier sang a solo with Miss Inez Rover accompanying her.

The hostesses, Mesdames Lyman Carrier, H. E. Hess, Kennett Lawrence, R. E. Boober and Paul Walker, served refreshments to the following attending: Mesdames J. E. Norton, C. C. Farr, C. D. Walker, Paul Van Scoy, Annie J. Robinson, C. T. Skeels, L. P. Maury, George Leach, Frank Rowe, P. P. Whitmore, H. H. Coleman, F. G. Leslie, O. C. Sanford, C. A. Rietman, Lyman Carrier, W. H. Mansell, Raymond A. Jeub, E. A. Walker, S. M. Nosler, R. L. Stewart, F. L. Greenough, Geo. Chaney, J. W. Laird, J. A. Lamb, C. J. Fuhrman, E. L. Vinton, Leland Peart, R. B. Rogers, C. Weldon Kline, Lefe Comp-ton, Loe J. Cary, Wm. Candlin, E. G. Opperman, M. C. Miller, E. A. Wood-yard, George Bryant, R. L. Hazard, Bonnie Dutton, John McCue, Misses Inez Rover and Harriet Gould.

The Senior "500" club members enjoyed the evening on Tuesday of this week at the home of Mr. and Mrs. L. H. Hazard on East Third street. The ladies' high score prize was won by Mrs. Barton and the gentlemen's by Mr. Folsom. Present were Mesdames and Medames Bert Folsom, J. S. Barton, George Chaney, H. E. Hess, J. E. Paulson, F. L. Greenough, R. L. Stewart, Mesdames A. J. Sherwood, Hal W. Pierce, W. V. Glaisyer, Edward W. Lorenz and J. W. Laird and Mr. J. Arthur Berg.

Members of the Good Samaritan Class of the Pioneer Church held their monthly business and social meeting at an all-day gathering on Tuesday at the home of Mrs. J. S. Houck. At noon a potluck luncheon was spread and enjoyed by the following: Mesdames W. S. Smith, M. W. Way, Margaret Brown, B. A. Davis, Allen McLeod and C. L. Willey.

Saturday evening at the home of Mr. and Mrs. Ralph S. Taylor, 441 South Henry street, Mr. and Mrs. B. W. Taylor, of Marshfield, entertained a group of their close friends, also of Marshfield, at an attractive dinner party. The Taylor home was very prettily decorated with sprigs of holly and on the dinner table was a centerpiece of heliotrope and fern. Later in the evening the party attended the dance. Covers were provided for Mr. and Mrs. A. E. Adel-sperger, Mr. and Mrs. D. D. Daehney, Mr. and Mrs. J. W. Graberg, Mr. and Mrs. Ted Balcom, Mr. and Mrs. Ralph Taylor and the hosts, Mr. and Mrs. B. W. Taylor.

Wednesday afternoon at the Parish House the Women's Guild of the St. James Episcopal Church met for their regular weekly meeting. Mrs. Annie J. Robinson and Mrs. Paul Van Scoy served tea to the ladies late in the afternoon. Attending were Mesdames A. J. Sherwood, L. H. Hazard, W. H. Mansell, James W. Laird, C. K. Norcott, Muri Pettit, Edward W. Lorenz, C. J. Fuhrman, James Watson, E. L. Vinton, George W. Taylor, Sr., F. L. Greenough and Bert Folsom.

Probate Court Items

Claud H. Giles, of Marshfield, has been appointed executor of the will of Nellie W. Milbury, who died at Myrtle Point, Oct. 30, 1931. Karl Kaufman, H. G. Dement and Jesse D. Clinton are appraisers of the estate which is estimated to be worth \$2000.

The will of Tollef Olsen, who died at North Bend, Dec. 10, was admitted to probate Monday. Carrie Christiansen, of Lakeside, has been appointed executor, and L. C. Oxnevad, J. N. Hosking and Andy Anderson are appraisers of the \$8500 estate.

Call Farr & Elwood for transfer and fuel.

Terry Kileen Gave Shaw A Boxing Lesson Last Night

Taking advantage of an injury, inflicted to Kermit Shaw's nose during the course of the second round, Terry Kileen, Salem middleweight, peppered the member with so many punches that in the fifth canto Referee Jimmy Byrne stopped the mill to wave the Coquille boy to his corner, awarding the decision to Kileen on a technical knockout. Throughout the encounter the laughing Dutchman had held an advantage.

Shaw, who has been training in Portland for the past month, did not seem to be the same battler that he did during his three memorable frays with "Bud" Bryant. Word has it that two weeks ago, while in preparation for last night's affair, he suffered a similar accident to his nose and last night's occurrence only re-opened the healing hurt.

Both boys took things easy in the opening round, but in the second the pace increased after the referee had told the boys to "snap it up." Out of a sudden assily, Kileen stepped ahead as master, bringing the claret from Shaw's nose with profusion. Once in a while Shaw would land a hurting blow, but mostly he was tied up by the claver Salemite, who in turn boxed nicely to pile up point after point.

Shaw did not want to quit, but Byrne knew best.

The best preliminary scrimmage was between "Papoose" Thomas, 145, Cooson, and "Shorty" Pettingill, 140, Coquille. The local lad won the decision in four rounds, and though landing many hard blows could not put the Indian down. It was the second bout.

The other results were: Curtain-raiser: Archie Mathews, 136, Powers, won by a knockout from Dick Brown, 138, Bandon, in the first round.

Special event: "Babe" Riddle, 135, Myrtle Point, took a six-round decision from Charley Wilson, 136, Bandon.

Semi-windup: "Bud" Bryant, 163, North Bend, decisioned Joe Corbett 160, Roseburg, in a listless six-round, er.

A near-capacity house filled the Community Hall.

Died as Result of Burns

Death of Ellen Ulding Denn, 20, wife of Lonnie Denn of Camas valley, occurred at the Roseburg General hospital Wednesday night from the effect of burns received when distillate being used to start a fire in the Denn home exploded. Arthur White, 13, brother of Mrs. Denn, who was severely burned, is expected to recover.

The explosion occurred Wednesday morning while Mrs. Denn was preparing the morning meal. The boy, in desire to hurry the fire, threw a small can of distillate into the open flame, an explosion occurring which threw burning oil over the two. Mrs. Denn directed the boy to extinguish the fire in his own clothing in the spring and to save her 19 months' old baby from possible harm before attempting to extinguish the fire in her own clothing.

Mrs. Denn rushed outside and extinguished the flames in her clothing by rolling on the ground. She was burned over practically her whole body, and was rushed to the hospital in a critical condition. Her death occurred before the day was over.

Her brother was also brought to the hospital for treatment. He was burned severely on the legs, but was reported as recovering. Treatment was in charge of Dr. Shoemaker.

The deceased was born at Visalia, Calif., March 28, 1911, the daughter of Mr. and Mrs. Arthur White, and a grand daughter of Mrs. Geo. Clinton, of Lee. She was married at Myrtle Point to Lonnie Denn, son of Mr. and Mrs. H. J. Denn. The family has lived at Camas valley for some time.—Roseburg Chieftan.

Business Women to Meet

All members of the Business Women's Club are urged to attend the meeting to be held Monday night at 7:30 at their club rooms. Mrs. Leona Bryant, chairman of the Legislative Committee, is in charge of the program, which will consist of musical numbers and talks by guest speakers on the "Laws of Inheritance" and the "Making of Wills."

A letter has been received from the president of the National Federation, urging all members to aid in the unemployment relief work by giving at least one hour a week work to some unemployed person. Figures show that if the 60,000 members of the National Federation would each give one hour a week work to an unemployed person, it would make 6,666 working days at 9 hours each, or 952 working weeks and more than 31 working months. The various kinds of work suggested were mending, darning, making of draperies, upholstery, painting of furniture, laundry, cleaning and personal shopping and numerous other things.

January 17 to January 23rd is National Thrift Week. It is so designated to assist all women in business to not neglect taking care of their

life insurance, making of wills and other financial matters.

Prohibition in Twelve Years

1. It made liquor an outlaw; stopped liquor advertising; drove liquor from the main street to the criminal hiding place.

2. It removed the saloon, with its public invitation to drink; its grip on politics; its certain introduction to vice and crime.

3. It reduced drinking by at least 80 per cent. It reduced insanity due to drink; it has almost abolished poverty due to drink.

4. It reduced arrests for drunkenness; alcoholic mortality is only a half of what it was.

5. It reduced drink-caused crime.

6. It protects women and children from the neglect and brutality of drunken fathers.

7. It has given us the highest social and economic status in the world.

8. It has given the United States the world's most efficient industry.

9. It has reduced commercialized vice; it has made streets safer for women and children.

10. It has helped make our standard of living the highest in the world.

11. It gave us an economic cushion against the shock of depression. America withstood the world wide troubles better than the liquor ridden nations and for a longer time.

12. Prohibition and its economic results has given millions of young people a richer educational opportunity. High school enrollment alone in the United States increased from two million in 1920 to nearly five million in 1930—the most remarkable advance in the history of civilization.

Salaries of Presidents

The French President receives about \$152,000 a year. The President of the United States receives a salary of \$75,000 a year with an allowance of \$25,000 for traveling and entertainment expenses. The French President, however, is chargeable for practically all the expenses of the upkeep of his houses, as well as all services and personal charges. He is at the expense of entertaining and of traveling. The winter home of the French President is the palace of the Elysee and he has the choice for summer occupancy of several chateaux owned by the government.

Cheap Tea

In the days long ago when tea was too expensive for the children of agricultural laborers in Essex and Sussex, a beverage was given them made from the scalded raspings of over-baked bread called "Towd Tea" (the Old Tea). The stimulating qualities of tea were well described by an old woman, who said: "It must be a bad complaint that a cup of tea didn't cure." In those days also poor men often smoked dried willow leaves in place of tobacco, which they could not afford to buy.—Montreal Herald.

More Dependable

Three weeks after buying a moderately priced diamond for his fiancée, a young man trudged disconsolately into the jewelry store and tossed a tiny box on the counter, saying:

"There's the engagement ring I bought here. I want to trade it in on a good watch—something I can put a little faith in."

Calling cards 100 for \$1.50.

Many Uses for Kapok

Kapok is the down from the seed pods of the randoe tree, grown chiefly in Java, but to some extent in Ceylon and the Philippine Islands. The United States imports around 700,000 tons per year. Due to its resilience it is used in the manufacture of pillows and mattresses. Its buoyancy makes it useful in the manufacture of life preservers. It has been found also that it is an excellent insulating material for both heat and sound.
