

THE 1932 YEAR BOOK OUR HISTORY OF 1931

In many lines of industry the largest companies reduced their output in 1931. Those who furnished them with raw materials had, at best, restricted markets.

Swift & Company's 1932 Year Book, now ready, tells how this nation-wide, diversified marketing organization met conditions in a better way.

1. It kept its doors open and handled more pounds of products than in 1930.
2. In more than a hundred produce stations it held to the policy of purchasing all the poultry, eggs and dairy products offered by farmers.
3. Still more important, Swift & Company cut its own costs.

Thirty years of experience have proved that the most economical way to market produce is through the same channels that handle meats. The same salesmen sell, the same refrigerator cars transport, the same branch houses sell and deliver the whole Swift & Company line of fine foods, such as Swift's Premium Hams and Bacon, Swift's Premium Milk-Fed Chicken, Golden West Fowl, Swift's Brookfield Butter, Eggs, Cheese and many other products.

Read the 1932 Year Book. It explains how a rounded line makes Swift & Company operations stable and how diversification lessens the costs of handling both meat and produce. It takes the mystery out of the factors that go to make price levels. And it tells in detail the steps this Company has taken to make itself still more efficient in covering the gap between hundreds of thousands of producers and millions of consumers.
