

MINOR MENTION

Telling About People and Events in the City and County

Mrs. J. A. Shaver left Tuesday morning for a few days' visit in Portland, intending to be home again the last of the week.

A bundle of child's clothing, picked up on the highway between Coquille and Marshfield yesterday, awaits an owner at the Sentinel.

Mrs. Cora Nester arrived in Coquille Saturday morning from Little Rock, Arkansas, to spend the summer with her aunt, Mrs. R. B. Knife, and family.

Fourth of July Special on Chickens, dressed, for Saturday—Fryers 20c, Heavy Hens 20c, Light Hens 16c. People's Market.

R. A. Jeub left yesterday noon for Lexington, in northeastern Oregon, where Mrs. Jeub has been visiting at her former home the past two weeks. They will return home Tuesday.

Mrs. Carl Floten, mother of Mrs. R. F. Miller, was taken to the Kaiser hospital in North Bend Monday, where she underwent a major emergency operation by Dr. J. W. Wheeler.

Frank Bullack is erecting a fine large new barn on his place on the Cunningham road, between Coquille and the county farm. It will be nearer the road than his old barn in the gulch.

Dr. and Mrs. C. A. Rieteman will leave Sunday for Seattle where the doctor will spend next week attending the sessions of the Pacific Dental Association. They expect to be gone ten days.

Applicants for chauffeurs' and drivers' licenses will be able to take examinations at the Coquille city hall next Tuesday, July 5, between 1 and 5 p. m. Ward McReynolds will be here to conduct the exams.

V. R. Wilson, Optometrist. Eyes examined. Glasses fitted. Broken lenses duplicated. Grimes Building, Coquille, Ore. 11f

Mrs. A. J. Sherwood returned home Saturday evening from a two months' visit with her daughters. She spent six weeks with Mrs. F. G. Jennings at Tillamook and two weeks with Mrs. Ralph M. Cake at Portland.

A card from Mrs. May Sanders, at Long Beach, Calif., says that she and her two daughters will arrive here in a week or two to spend the summer with her mother, Mrs. O. O. Lund. Mrs. Sanders is a teacher in the Long Beach schools, and has been delayed since school closed by the illness of one of the girls.

Fourth of July Special on Chickens, dressed, for Saturday—Fryers 20c, Heavy Hens 20c, Light Hens 16c. People's Market.

"Chuck" Murphy was sentenced to 90 days in jail and sentence suspended for two years by Justice Stanley, Tuesday morning. He pleaded guilty to possession of deer meat which had been killed the fore part of June and which had been canned by the time Sergeant C. A. Hearing found it—or had it dug up for him.

In a note to the Sentinel this week, Mrs. Zula M. Buchheister writes that she left Vancouver, B. C., where she has taught the past two years, on Tuesday. She went to her former home in Santa Clara county, Calif., for a few weeks' visit with relatives and expects to be in Coquille about the middle of August.

Mrs. R. F. Smith, mother of Mrs. J. E. Axtell, who makes her home with her daughter at the east end of Second street, suffered a fractured hip Tuesday. She was out in the yard, ascending some steps, when a snake at her feet startled her and she jumped and fell. Dr. Wheeler was called and said what he could to relieve her. Mrs. Smith is 66 years of age.

Dr. J. R. Bunch, dentist, will not be in his office in the Laird building for the next two weeks. He and Mrs. Bunch left this morning for Portland where they will spend three days before going to Seattle where the doctor will attend the sessions of the Pacific Northwest Dental Association and clinic. They will also visit a day or so in eastern Oregon before returning home.

A letter from E. F. Grider, who expects to secure his master's degree at the close of the summer session at the University of Washington, tells of seeing W. V. Ferguson in Seattle Tuesday. Also that Guy Mauney and wife (formerly Miss Maxine Paulson, are there for the summer session. Mr. Mauney is high school principal at North Bend. Mr. Grider did not say what his plans were for the coming year.

FOR SALE—House and five acres on Sanford Heights. Good road to it from highway. M. D. Sherrard. 2444

Old Papers, good-sized package at The Sentinel for 5 cents.

Mr. and Mrs. Lans Leneve returned Sunday night from Port Ludlow, Wash., for an indefinite stay, although they expect to go north again some time this summer. The fact that his father, J. W. Leneve, is on crutches while a broken bone in his leg is mending, induced them to return and besides Lans is needing an appendicitis operation which Dr. Jas. Richmond will perform next week. Lans is quite taken with that Olympic peninsula country, and Mrs. Leneve has improved and gained in weight during their few weeks up there.

Just before Mrs. F. S. Emery left for a visit at her old home near Boston, on June 10, Geo. A. Ulett asked Mr. Emery if he didn't want to take his three weeks' vacation and accompany her. "No, I don't care to go back," was Ferb's reply. But Monday, after receiving a letter from his wife, a homesickness evidently hit him squarely for he asked, "Does that three weeks' vacation offer still hold?" Assured that it did, he left by car for Portland Tuesday morning, hopped a rattler that night and will join Mrs. Emery this week.

Fourth of July Special on Chickens, dressed, for Saturday—Fryers 20c, Heavy Hens 20c, Light Hens 16c. People's Market.

Return from 9500-Mile Trip

Mr. and Mrs. Stanley Stevens and Harold Stevens returned to Coquille Monday afternoon after a trip of 9500 miles on which they left the day the first two were married—April 12. They covered a great deal of country while on the trip, going south from here to Los Angeles and to Tia Juana, then across the southern route and up into Kansas and Missouri where they visited relatives, thence to Chicago and on to Michigan and Wisconsin. They made good travelling time on the return trip. The 1060 miles from Wisconsin to Yellowstone Park was made in 35 hours and 15 minutes, including all stops for gas, oil and meals. They took turns at sleeping in the car and kept travelling. After a week in Yellowstone and with relatives in Wyoming, they followed the same procedure from there to Portland, making the same time.

The greatest car trouble they had was in crossing the 10,000 foot elevation over the Rockies. It seemed to be impossible to get the carburetor adjusted properly for the lighter air altitude and they could only average six miles to the gallon of gas while crossing the backbone of the continent.

Mrs. Stevens is the daughter of Mr. and Mrs. Elmer Shull, who live on the Fishtrap road.

Denton Ellingson Off on Cruise

Denton Ellingson left for Oakland, California, Tuesday morning with Mr. and Mrs. Ed Carr, of Vallejo, California, who had been here for a visit with Mr. and Mrs. M. C. Murdock, on east First. Mr. Carr is an old schoolmate of Roy B. Gudmundson and they both enjoyed talking over old times. He said Vallejo was the busiest town on the Pacific coast. The government is building the cruiser U. S. S. San Francisco at the Mare Island Navy Yard at the present time and this ship will be launched in about a year. Depression is unknown in Vallejo. Mrs. Carr is a sister of Lee Mannelin, of this city. G. E. Trott, of the Coos Bay Bottling Works, and Mr. Carr were formerly neighbors in Vallejo.

Hotel Men Visitors at Hotel

Hotel visitors at the Coquille Hotel this week have included Mr. and Mrs. Earl Hungerford, of the Hungerford hotel at Seattle; Dr. and Mrs. I. U. Temple and two children, of the Dorian hotel at Pendleton, and Mr. and Mrs. Adolph Schmidt, of the New Washington hotel at Seattle. The latter was especially enthusiastic over the Coast Highway and said he could and would earnestly recommend to his patrons that they travel over it.

Glee Club at Bandon

The Milwaukee State Teachers College Men's Glee club, consisting of 35 members, will appear at the Hartman Theatre in Bandon on July 6, at 8:00 p. m., under the auspices of the Bandon Lions club. The glee club is directed by Samuel Thorn, brother of Tom Thorn of Bandon. They appeared in Bandon last year and are considered one of the foremost clubs ever touring the western coast. Admission will be 35 and 10 cents.

Safety First! Use Cow Bell Dairy's Pasteurized Milk and protect your health.

Trepass Notices, printed on cloth, for sale at this office.

Bent Grass Growers to Meet

The bent grass marketing situation will be considered by members of the Coos District Bent Seed Growers at a meeting which will be held at the J. E. Ford farm Sunday, July 3, at 10:00 a. m. This meeting is being called by J. E. Ford, president of the association.

An effort will be made at this time to determine approximately what acreage of bent will be harvested during this season and in addition a report will be given of the activities of the association up to this time. It is understood that a different plan of marketing the seed will be proposed by directors who have given the subject considerable thought and investigation recently.

Immediately following the bent grass meeting, growers of Reeds canary grass seed will consider methods of improving this industry. It is reported the quality of seed sold from this district this year would have been much better if handled in a different way. Germination tests on samples from local grown lots as reported by the state seed testing laboratory showed considerable variation, most of which could be traced to different handling methods.

G. R. Hyslop, chief of farm crops from the State College, will be in this section inspecting bent grass seed for certification on July 2 and 3 and will attend both of these meetings.

Baseball Sunday at Bandon

Baseball during the 4th of July celebrations will see but one league game played, that between Eastside and Reedsport, while the Coquille Loggers are to meet the best that Bandon can get together for a real game on July 3rd.

A rumor is heard that Bandon is to hire a real Coast League hurler to pitch against the Loggers and this man may possibly be Ossie Orwall, the ex-Portland hurler, who was released earlier in the week. That this rumor has real foundation is the truth, and if the Bandon promoters can not get the big left-hander, they are planning on obtaining the next best.

Players from the entire county are to adorn the Bandon line-up, including men from Marshfield, Eastside and the other towns. Bandon loves to see Coquille beaten and they are going as far as possible to do this trick.

Manager Fortier is to start Carl Gilbert in this fray and the big right-hander is to be backed by the entire Logger strength.

Ray Woodyard will most likely be on third base, allowing "Slug" Pulford to play again in the outfield and if Bandon does get a left-hander, "Old Bill Fortier" will play.

The July 4th game at Bandon will see the Coquille Junior League nine pitted against the Bandon Juniors. Coquille has two previous victories over Bandon, but since then the sea-side youngsters have improved greatly, beating North Bend by a much larger score than Coquille did.

Accident Due to Sun's Rays

Mr. and Mrs. Nestle, of Long Beach, Calif., and their daughter, Asenath, who were severely bruised and cut when their car rolled over a 50-foot embankment at Hubbard creek, below Port Orford, Tuesday evening, will soon be able to leave Westley hospital. The sun blinded Mr. Nestle, who is a banker in Long Beach, as he rounded a curve and the car plunged off the road. It was badly wrecked.

Three From North Bend

Perry Meredith and Kyle Olen Babcock, two boys from North Bend, were brought over here to jail last Sunday and have been turned over to the juvenile court. They were arrested on a burglary charge.

Ralph J. Watson, charged with obtaining money under false pretenses, was brought here from North Bend, Tuesday, and lodged in jail.

Sanctuary for Birds

In the very densest part of Liverpool's industrial life is a patch of green round by the cathedral. Here have been placed bird tables, baths, nesting-boxes, and shelters; and here, amid smoke and noise, hundreds of birds come every year to build their nests and rear their young. All the common birds, in addition to tits, great white-throats, yellow-hammers, and chaff-chaffs, have been noted by the city naturalists, and Archdeacon Howson thinks it is the only sanctuary of its kind in a great city—London Mall.

Touching

The landlady was in a sentimental mood when dinner was served. "This is the anniversary of the death of my poor, dear uncle," she sighed. "He was a sea captain, and went down with his ship this day five and twenty years ago. I was only a child when he went away, but I remember he gave me a pet lamb as a parting gift."

The boarder regarded his lamb cutlet with mournful interest. "Poor, dear lamb!" he murmured reproachfully. "And you've killed it at last!"

Laborers, \$3.60—\$2.50.
Emergency laborers, \$2.50—\$2.00.
Shovel operators, \$6.30 per day—\$5.00.

Much of the time of the committee Tuesday evening was spent in discussion of a portable cannery for preserving the wealth of vegetables and fruit grown in the county this year, for consumption next fall, winter and spring. The suggestion was made by County Agent Jenkins that the equipment of such a cannery would cost little, that it would have a capacity of 2500 to 3000 quarts a day. Meat also could be canned, all of the output being used for needy and indigent relief.

The price of cans, quoted at from 2 1/2 to 7 cents each would be the largest item, but as the needy would otherwise be supported by county funds, it would only mean that the outlay would be made this summer instead of in dribbles through the winter.

Not only is the county court thus figuring ahead as to what can and must be done this winter, but it behooves community chest or relief committees in each city and town to begin preparation for the care of the unemployed during the coming winter season.

Rev. T. R. Jackman, of the Coquille Foursquare church, is already planning on a minimum of 5000 cans of meat, fruit and vegetables for the church commissary, where its supply last year was only 1200 to 1500 cans.

Distributes Over Million Barrels

American Red Cross chapters throughout the United States distributing Red Cross flour milled from government wheat had applied for 1,922,833 barrels of flour as of June 4, the date of the latest national compilation, according to a report released by A. L. Schafer, at San Francisco.

The compilation made by Jas. L. Fleiser, vice chairman of the Red Cross at Washington, D. C., shows applications from 2,813 chapters. Families benefiting in the flour distribution total 2,403,450 while the number of persons in these families is placed at 10,815,625.

In addition to its widespread distribution of flour for human consumption, the Red Cross through 327 chapters, situated in drought areas, distributed 220,079 tons of stock feed. The United States Department of Agriculture certified to the Red Cross 321 counties in 16 states as being affected by drought conditions. The number of families benefited by the stock feed distribution is placed at 175,270.

Some idea of the magnitude of unemployment relief is given by Mr. Fleiser's compilation which reveals that 2,159 Red Cross chapters were participating in unemployment relief as of May 27. These chapters in their service to civilians and veterans have dealt in recent months with 1,350,000 persons.

Insect Pest

The boll weevil is an insect which lays its eggs in the bud of the cotton plant. Out of these eggs come worm-like larvae, which eat the growing bud and prevent the production of cotton fiber. In American slang, boll weevil is a term sometimes applied to a person who is a pest.

Earth's Ice Supply

There are about 6,000,000 square miles of ice on the earth's surface. Of this amount 5,000,000 square miles are in the Antarctic.

The Child's Rights

Oregon State Board of Health Oregon has had a Child Health and Protection Conference. It was a state-wide effort to disseminate the findings of the White House Conference. Governor Meier assumed the leadership and appointed a plan committee. The conference brought together for the first time all of the groups interested in child care. It was a stimulating meeting. The five hundred or more people who attended were enthusiastic in the support of the conference program. The meetings were arranged according to the plan of the Washington Conference—in four sections. Sections 1 and 2 of Medical Service were combined and the meetings held on the first day. The findings of the conference were read and adopted on the second day. The ideals and the objects that are inscribed in the Children's Charter were adopted by the conference.

I. Every child has a right to spiritual and moral training that will enable him to stand on his own feet under the pressure of life.

II. Every child has a right to have his personality regarded as his most precious right.

III. Every child is entitled to the love and security that a true home should provide.

IV. Every child has a right to be well born by a mother who has had prenatal, natal and post-natal care.

V. Every child has a right to protection from birth to adolescence by regular physical examinations and by the correction of physical defects.

VI. Every child has a right to health instruction for the establishment of good health habits in regard to diet, exercise and recreation.

VII. Every child has a right to a safe, sanitary and wholesome dwelling place.

VIII. Every child has a right to attend a school which is sanitary, properly equipped, heated and lighted, and safe from hazards.

IX. Every child in the community has a right to protection against physical danger, moral hazards and disease.

X. Every child has a right to an education that will prepare for a living that will give him the maximum results.

XI. Every child has a right to such training that will prepare him for successful parenthood, home-making and good citizenship.

XII. Every child has a right to an education that will protect him against accidents to which modern conditions subject him.

XIII. Every blind, deaf or physically or mentally handicapped child has a right to such training and treatment that may render him an

asset to the community rather than a liability.

XIV. Every child who is in conflict with society has a right to be dealt with intelligently as society's charge not society's outcast.

XV. Every child has a right to grow up in a family with an adequate standard of living.

XVI. Every child has a right to be protected against labor that stunts growth either mentally or physically.

XVII. Every child has the right to have a satisfactory school and health service as the city child.

XVIII. Every child should have the right to associate himself with some volunteer youth organization.

XIX. Every child should have the right to live in a community that provides for his health, education and welfare with full-time officials including a health officer, public health nurses and a full-time welfare service to provide for the relief, guidance and aid of children who are in need of such service due to poverty, misfortune or behavior problems and to protect them against abuse, neglect, exploitation or moral hazards.

Another Burned to Death

The fourth man to be burned to death in Coos and Curry counties in the past few months was W. C. Elliott, whose remains were found in the ruins of his cabin on Sixes river this week by forest fire fighters. Their theory is that his cabin caught and started the fire which raged down there for several days. Elliott was a prospector and miner.

The other three to be burned to death were Kamper at Springtown, across the river from Myrtle Point; Summers at the still explosion on Floras creek, and the man who was burned to death near LaBorde some months ago.
