are dangerous
on s-l-i-p-p-e-r-y roads!

Maybe you've gotten by on smooth tires while roads were mostly dry. But look out now! Slippery driving days are ahead. Your risks are multiplied. Better change at once to sure-gripping new Goodyear All-Weathers. They'll protect you all winter, save you money on repairs and delays, and still be like new for spring and summer. So trade in your smooth tires this week!

SEE how Goodyear puts TRACTION in the center—big husky blocks of rubber—keen-edged—deep-slotted—to dig in, grip and hold. More stop! The All-Weather Tread is a big reason why millions more people ride on Goodyear Tires. Come in—we'll demonstrate!

Fords Lead in the Past Five Years, Says C. E. Niles

Since 1927 when the Model T car was discontinued, Ford passenger car sales led those of all other makes, according to a tabulation by the Ford Motor Company reported today by Clyde E. Niles, president of Niles Motor Co., local Ford dealers. In this period from January, 1927, to and including October, 1932, the latest month for which reports have been compiled, Ford sales total 4,001,384, as compared with 3,705,827 for its nearest competitor and total sales of all makes of 15,183,842. Fords share of all business in these six years was 26.4 per cent.

This record, it was pointed out, was made despite the fact that Ford production was halted twice during this six-year period in preparation for the Model A and the V-8 Ford cars. Manufacture of the Model T was discontinued in May, 1927, Ford being out of the market until December of that year when the Model A was announced. Ford again was out of the market for the first five months of 1932 until volume deliveries of the new Ford began last June.

The year-to-year record follows:

	Ford	Next Make	Total
1927	393,424	647,810	2,628,538
1928	482,010	769,927	3,139,579
1929	1,310,147	780,014	3,880,247
1930	1,055,097	618,884	2,625,979
1931	528,581	583,429	1,908,141
1932*	232,125	305,763	1,006,358
10 Months	4,001,384	3,705,827	15,183,842

Ford passenger car sales in October were 20,410 units, which was 32.3 per cent of total sales of all makes. The next make registered 15,772, or 25.0 per cent of all makes. Ford has led in passenger and commercial car sales in the United States each month since June, when volume deliveries of new Fords began.
