SMOOTH tires don't hold on wet pavement. Punctures are more dangerous when it's slippery. Changing tires is also dangerous and disagreeable. Better put on new Goodyears now—they'll protect you, save you money on repairs and delays, and still be like new when spring arrives.

**Center Traction Means Safety!**  
SEE how Goodyear puts TRACTION in the center—big husky blocks of rubber—keen-edged—deep-slotted—to dig in, grip and hold. More stop! The All-Weather Tread is a big reason why millions more people ride on Goodyear Tires. Come in—we'll demonstrate!
