**B. & P. W. Club Notes**

A regular meeting of the Business Women's club was held Monday evening at the club rooms, at which time the members began work on favors for the state convention.

Mrs. Gertrude Graves Martin, of Portland, will talk at a public meeting sponsored by the club on February 20, on India. Arrangements have been made with the Coos Bay club to have Mrs. Martin speak in Marshfield on February 21.

Mrs. Georgia Richmond, chairman of the finance committee, suggested that each member take ten cents and add to it until February 6, and the members making \$5.00 or more will receive a prize. This will be a means of procuring further money for the state convention fund and the idea was accepted by the club.

Mrs. Ida Oerding, chairman of the Embroidery committee, will have charge of the program for the next meeting, January 16.

**Next Week at the Liberty**

With Norma Shearer as its star, and one of the most brilliant supporting casts yet assembled for the speaking screen, Metro-Goldwyn-Mayer's lavish production of "Smilin' Through" will open Sunday at the Liberty Theatre.

Miss Shearer in the feminine lead follows in the footsteps of Jane Cowl, who achieved one of her greatest successes in the record-breaking New York stage run of the play from which the screen production was adapted. Opposite her is Frederic March, borrowed from Paramount to play the dual role of Jeremy Wayne in the mid-Victorian sequences of the story and Kenneth Wayne, his son, in the modern scenes.

"Smilin' Through" is the story of an old man who seeks to shed the relentless bitterness of his blighted romance on a pair of young lovers. The colorful background provides a contrast between the England of 1865 and modern days.

**McKinley Notes**

The word was brought by mail carrier John Rhule that Mrs. Isaac Chandler of Lee had passed away early Tuesday morning. Her death was not unexpected for it was said before the telephone lines went down and the high water made communication difficult that she was very rapidly sinking. She suffered a fractured hip in a fall several months ago but seemed to be recovering from the injury fairly well.

The interment was in the cemetery at Lee. Her eldest daughter, Mrs. Lee Mast was with her the last week and Mrs. C. A. Miller, another daughter, who lives in McKinley, went down when she heard that her mother was so low, although she was hardly recovered from an attack of influenza.

No outside mail had reached McKinley since Saturday when this was written on Tuesday and Monday the high water prevented the mail from getting through. Tuesday the school bus could not run.

Mrs. Al Volk and Miss Verna Finley, former teachers here, were out calling on old friends last week.

Little Ardye Bonewitz of Bangor has been here over the holidays visiting with her aunt, Mrs. Harris and daughter Lorna. She also spent part of two days at the Hansen home waiting until the water went down so that she could get home. Mrs. Harris took her back and will remain for a few days visiting friends and relatives on the bay.

Mr. and Mrs. Lyle Beyers and Floyd Scott have been guests at the R. H. Lawhorn home for several days.

Mrs. Charles Freeman of Lakeside and Timothy Freeman and wife and family of Coquille, came out for a visit with relatives. Mrs. Freeman remained for the rest of the week.

John Jenkins and son Olin, former residents of McKinley came for a visit with relatives. Olin returned to school at Newburg and Mr. Jenkins plans to prune some orchards in the valley.

In last week's items it was neglected to be stated that Mrs. I. J. Bennett was re-elected Chaplin at the last Grange election. She has served well and faithfully in that office so many years that no one else is ever considered for the post.

Mrs. Nellie Brown has been about laid up with rheumatism in her knee and shoulder ever since the beginning of the cold weather.

The Weather Man offers the following for December. Some record! The minimum temperatures, on the 12th and 14th reached the lowest ever recorded here being 6 degrees above zero. The maximum was reached the 3rd with 60 degrees. There was 11.69 inches of rainfall. The greatest in 24 hours was 2.10 on the 26th. The total rainfall here since Sept. 1 is 23.16.

The school water system is not working yet. Repairs have been held up because of there being so much water in the stream.

**Knife Hospital Notes**

Fred Milani, 17-year old son of Mr. and Mrs. Joe Milani, of Arago, underwent an operation for appendicitis last Friday afternoon.

Miss Ruby Haskin, who had been receiving treatment at the hospital for a couple of weeks, underwent a major operation Wednesday at the hands of Dr. Richmond.

J. H. Oerding, who underwent a major operation recently, is recovering nicely from its effects and will soon be out again.

**Why the Loving Cup**

It was customary from very ancient times to award prizes for athletic prowess. In some of the ancient Greek games, amphorae were given, these having a form similar to the modern loving cup. In a survey of the town of Stamford, England, first published in 1646, there is reference to a silver-gilt cup being awarded for the local race.

**Why Known as "Cranberry"**

"Cranberry" is a corruption of "cranberry," referring to the fact that at blossoming the stem of the plant resembles the neck, head and bill of a crane.

**First Mississippi Levees**  
When the first levees were built along the Mississippi, there is not a matter of record, says Pathfinder Magazine. Such levees have been constructed in that region since early in the Eighteenth century. At first individuals built levees to protect their own land property in time of flood and later local authorities, county and state, aided in the work. In 1879 congress created the Mississippi river commission and the first appropriation for improving the river was made the following year.

**Heron's Nest**

Florida was given that name by Ponce de Leon for two reasons—first, because it was a flowery land; and, second, because he landed on the day of the Spanish festival called Feast of Flowers, which corresponds with Palm Sunday.
