Many aged persons, both men and women in Coos county are expected by members of the county court to apply for old age pensions when the new law passed at the last session of the state legislature goes into effect in 1934. A number already have inquired as to the provisions of the law, some of them being of the opinion that it is already in effect.

In order that those who may be planning to claim the pension may become acquainted with the provisions of the law and for the benefit of any others the following summary of the act is outlined:

"No person shall be entitled to a pension having children, or any other persons responsible under the law of this state for his or her support, and found by the commission able to support them. No pension shall be served to any person who disposes of his property for the purpose of obtaining a pension.

"The county court shall have the right to require that all property of any applicant be transferred to the county. The county shall be reimbursed for the full amount of pension paid, plus three percent per annum, from the estate of any person leaving any property.

"Anyone convicted of a crime during the past 25 years shall not be eligible to a pension. Any husband who has deserted his family for more than six months, or any wife who has deserted her husband or any minor children without just cause, is likewise not entitled to a pension.

"Severe penalties are imposed upon persons who misrepresent their condition in any way in order to get a pension. In case a person gets a pension and it later appears that he had property, the county can recover from the property twice the amount paid in pension.

"A person must have been a resident of the state of Oregon for 16 years and of the county for two years immediately preceding the date of application, and have reached the age of 70 years and be able to qualify as to their specific provisions of the law before being eligible for a pension.

"The amount of pension will depend on findings of the commission in the sum which they may deem just after investigation of each particular case. However, said pension shall not exceed \$50 per month in any case.

"There will be no money in the fund to pay old age pensions until taxes are open for collection in 1934. In all probability it will be several months before application blanks are received. The county court states when application blanks are received, public notice will be given that those entitled to make application for pension may do so."

**Next Week at the Liberty**

Joan Bondell is teamed with Chesler Morris for the first time in "Blondie Johnson," a First National picture in which they play the featured leads with a notable cast in support. The picture, which opens at the Liberty Theatre tonight, gives an entirely new and novel slant on the personal life of the big time crook, with a woman as the brains and dominating figure in the operation of their questionable trade.

Frederic March, young star who recently won the most distinguished honor the motion picture industry can bestow, the award of the Academy of Motion Picture Arts and Sciences for the best performance of the year, co-stars with Claudette Colbert, dark-eyed, French-born screen beauty, in "Tonight Is Ours," screen adaptation of a play by Noel Coward, which comes to the Liberty Theatre Sunday.

Like "Private Lives," best known to the movie public of all Coward's works, "Tonight Is Ours," is a witty, romantic story of clever, intelligent people. It centers around a girl of position who waives her responsibilities and sets out to have an amusing time in Paris, and a wealthy young Parisian who insists on being the source of the amusement. In giddy, ecstatic fashion, they chase about the French capital, but their moments alone are moments of deep, flaming passion. A strange trick of fates almost upsets their lives, but a dramatic climax ultimately sets everything to rights. March is cast as the Parisian, with Miss Cobert as the girl in the case.

"Employees' Entrance," which First National has made with a great all-star cast headed by Warren William, Loretta Young and Alice White, and which comes to the Liberty Theatre next Wednesday is going to cause a whale of a lot of discussion among women, according to Loretta Young. All because, William, whose God appears to be business success, has adopted the creed, that "a wife handicaps a man in his efforts toward success."

**Why the Cow Bell Dairy Has Made Milk Safe by Pasteurization**  
Article taken from U. S. Dept. of Agriculture Bulletin No. 602  
**Cow Bell Dairy**

"Infectious abortion of cattle is the cause of great losses to the cattle industries, and has a significance, of as yet undetermined importance, in respect to human life. This disease is caused by a germ commonly known as Brucella abortus.

This germ has been found to cause undulant fever in man, the disease being acquired through the consumption of raw milk from abortion infected cows.

To avoid danger from this disease milk should be pasteurized."

**Inauguration Day**  
The Continental congress, on September 13, 1788, selected the first Wednesday in the following March as the day on which proceedings under the federal Constitution should begin. On that day, which happened to be March 4, the terms of congressmen and executives began. As the terms of these officers were set for two, four and six years, it follows that they always begin and expire on March 4.

The period between election and inauguration was made as great as it is because of the time required for communication and travel in those days between such distant states as New Hampshire and Georgia and the capital.

**Littleton Ghost Story**  
Ghost-story lovers may be interested by an incident of which the details are claimed to be perfectly authentic.

On the night of November 25, 1779, the second Lord Lyttleton dreamed that a bird flew into his room, changed to a woman, and bade him prepare for death within three days.

He told the dream to his family at breakfast next morning, but made light of it, being to all appearances in excellent health.

He joked about it again just before going to bed, a few minutes before midnight on the third day.

While he was undressing he suddenly fell dead.—London Times.

**Toys Children Favor**  
A comprehensive survey leads to the conclusion that building blocks are the favorite toy for children up to the age of seven. Drawing and painting materials rank high. With little girls' dolls and housekeeping equipment are favorites. Sand and clay for modeling retain the interest of most children. Mechanical toys, on the other hand, are soon discarded. Adults usually enjoy the mechanical toys more than the children for whom they are purchased.
