VACATIONS and HEALTH

By Dr. ERNEST H. LINES
Eminent Authority and Chief Medical Director

CAMP LIFE

CAMPING in the woods or on the shore of some lake can be one of the most healthful ways to spend a summer holiday. This is particularly true of city office workers who should aim to get plenty of fresh air and sunshine, and a moderate amount of exercise, during the two weeks vacation usually allotted to them.

When selecting a camp site, go to one that is free from mosquitoes, flies and other insects which are not only unpleasant but also disease carriers and poisonous. Then choose a spot of ground high enough to be dry if it rains. Do not sleep on damp ground. An ample supply of woolen blankets should be provided, as well as warm clothing and sweaters if you are camping in a place where the evenings may be cool.

Matches, cigarettes and cigar stubs should not be thrown away carelessly when camping in the woods. Campfires should also be thoroughly extinguished whenever you leave the camp. Forest fires, causing injury and death, have often been started by careless campers.

Axes and hatchets should be used with care, for it is too easy to cut a hand or foot badly. Sterilize all cuts, particularly those from rusty nails or old iron, to avoid lock-jaw or other infection.

Firearms

The National Safety Council reports that one-third of the deaths from firearms occur between ages 10 and 19, and another 20 per cent between ages 20 and 29. The hazard exists chiefly among boys and young men. Firearms should be carried only according to the accepted rules. If you don't know the rules, learn them before picking up a gun and tramping through the fields and woods.

Make sure that nobody is in range when you contemplate using firearms, and under no circumstances point a gun at another person. Your victim may never live to hear that all too common and weak excuse, "I didn't know it was loaded."

far-seeing vision who builded for the future. Their mission: Loyalty to the Grand Army of the Republic and to the broad ideals of patriotic service has been an inspiration. The record proves that they were worthy leaders of a great and noble cause.

To the Juniors:
"Here is to our Junior Clubs. The patriotic daughters of patriotic mothers and the future mothers of our country. May they carry on the work laid down for them by the Woman's Relief Corps. May they scatter sunshine and happiness all along the way, and may they teach to all children the great love and devotion to the Veteran Soldier, as Jesus has taught the world, when He said, 'In as much as ye have done it unto one of the least of these, ye have done it unto Me.'"

The pioneers of the Bandon and Coquille Corps responded by giving short sketches of the work and their experiences in the early years of the W. R. C.

Patriotic music was interspersed throughout the program and the session ended with the Flag salute.

A good attendance was present at the services in the Church of Christ last Sunday morning when the program as announced last week was carried out.

Spotted Arabian Stallion Sold

She shipped the horse to Powers by truck but expects to use him for breeding purposes and has named Jim Songer as caretaker for the animal. Any one wishing to secure his services should communicate with Mrs. King at Powers.
