Miss Buckley has been an instructor in the Camas, Wash., schools for the past two years.

Hess Subdued Them

H. E. Hess, vice president of the Lions Club, came through with flying colors at yesterday noon's luncheon, although there was a disposition to get the goat at this, his first time to act as president. He overruled motions and declared motions lost on which there was not a dissenting vote, with an aplomb and ruthless gavel-wielding that put Ray Jeub and Dave Rackleff to rout.

Entertainment was furnished by Miss Lillian Schwur, of North Bend, who not only delighted her hearers, but gave Ernie Ferrari a lesson on how the accordion should be played.

Other guests at the luncheon were her parents, Mr. and Menry Schwur, and Mrs. L. Page, all of North Bend, and A. A. Frenzler, International Truck representative.

B. P. W. Picnic Sunday

The luncheon at noon will be in the Richmond cabin or on the beach just below the cabin. A tempting menu has been arranged and a good time is being anticipated by all members.

On Monday evening, Aug. 7, 1933, the regular meeting of the Coquille Club will be held in the Coquille Hotel at 8 p. m. There will be an interesting program consisting of music and short talks by Wade Arstill, Fred Fuhrman, Duane Fitzgerald, and Geo. Ulett on their trip to the Century of Progress. After the program a short business session will be had.

Bridge Ordered Repaired

The patrolman of the Bridge road district reported to the county court this week that the bridge across the Middle Fork on the Bridge-Bancroft road, was not safe for loads of more than five tons, and with the logging now being done above there, the logs being brought out over this bridge, that it should be repaired or limited to its five tons capacity. The court instructed W. D. Leaman to have such repairs as are necessary made, the cost not to exceed \$1500.

Upon application of C. J. Budella, superintendent of the C. C. C. camp at Loon Lake, he was authorized by the county court to improve the county road from Silver Falls, through the Loon Lake country, to the Douglas county line. The boys in his camp will do the work.

A Trip Around the World

Each station will serve its own food. After visiting all these stations, the globe trotters will return to America (the church) where they will learn something about the stations and enjoy a program of music and one of Mrs. Nosler's fine pictures. The public is invited.

Ask Mr. Niles for the Book

Clyde E. Niles, local Ford distributor, this week received several copies of a booklet showing by picture and statistics the tremendous increase in business, and the wonderful improvements made in Ford cars since production was begun thirty years ago. The advancement in type from the Model A in 1903 to the 1933 V-8, as well as the improvements in chassies, engine, crankshaft, radiator, lights, and wheels, is all pictorially shown.

Mr. Niles will be pleased to give these booklets, as long as they last, to those who are interested.

Smith-Hughes Conference

Being Held This Week

(Continued from first page)

of agricultural education, Salem; W. T. Spanton, federal agent for agricultural education, Washington, D. C.; H. B. Swanson, federal board for vocational education, Washington, D. C.; W. A. Schoenfeld, dean of agriculture, Oregon State College, Corvallis; E. W. McMinder, representative, state board of vocational education, Astoria; John D. Goss, state senator, Coos county, Marshfield; Ray W. Gill, master of the state grange, Portland; George H. Jenkins, Coos county agricultural agent, Coquille.

Among those attending is O. K. Beals, now in the Corvallis high school, who was Smith-Hughes instructor in Coquille High School, preceding Mr. Cunningham, and who left here four years ago. Mrs. Beals was also an instructor here. They now have two children.

The fun organization of the conference held its annual initiation in the gym there Tuesday evening. This is the Oregon Vocational Agricultural Kennel of Yellow Dogs, a branch of a national organization.

Homer Grow, chief cur of the Yellow Dogs, was ably assisted in conferring the Yellow Rod degree on seven candidates which included R. L. Tucker, Myrtle Point Herald, County Agent Geo. T. Jenkins, C. J. Gillette, Coos Bay Times, H. A. Young, Coquille Valley Sentinel, Kenneth Beach, Roseburg, Joe Jarvis, Amity, and J. L. Winsten, Dayton.

This writer has been the candidate in a great many lodge initiations, but never before has he experienced one comparable to that given the curs who wish to become Yellow Dogs. We have learned since that there are three other Yellow Dogs in Coquille—J. L. Smith, F. W. Martin and C. C. Farr. Wm. Cunningham is also one and there is talk of organizing a Coquille local boneyard for the Yellow Dogs.

Coos Bay Has Bad Fire

The worst fire in several years on Coos Bay was that on the North Bend waterfront Sunday evening, starting about 9:30, when the Kruse & Banks shipbuilding plant was destroyed and the Western Battery and Separator plant in the building was burned. The Mt. States Power Co. also experienced considerable loss in the destruction of its fuel bins, conveyors and screen house through which waters from the Bay are carried to the condensers.

The loss is estimated at from \$200,000 to \$300,000, and it was not until Monday afternoon that the firemen of Marshfield and North Bend had made safe all the property in that section, for brush fires kept starting clear up the hill.

Besides all their equipment and stock on hand the veneer plant lost a carload of battery separators, loaded and ready for shipment, and valued at \$7,000. That company had arrangements made to work a second shift Monday, doubling their working force of 65 men and women.

Coos county had a narrow escape from total darkness that night for the Copco line from Roseburg was the first to go out, and had the fire not been stopped just when it was the screen house would have gone and the plant would then have had to be shut down.

The concrete power house, nor the adjoining Culver mill, were not damaged.

Found a Fine Spear Head

M. G. Sumerlin brought to the Sentinel office yesterday an Indian stone spearhead which he found in his hay field. It is five and one-half inches long, and an inch and three-quarters at the widest portion, tapering to a point. The stone is a dark reddish color, but so far Mr. Sumerlin has found no one who could tell him which tribe in the olden days was responsible for its manufacture.

Zane Grey's
"The Golden West"
with GEORGE O'BRIEN JANET CHANDLER

WHEN WE HAVE SUCH A PICTURE AS "THE GOLDEN WEST" WE PROBABLY BECOME OVER ENTHUSED. THIS TIME WE WILL REPRODUCE THE FOLLOWING COMMENTS OF OTHER SHOWMEN OVER THE UNITED STATES:

The Golden West: George O'Brien—A truly wonderful picture that should please anywhere. Really much better than the "Covered Wagon." Historical, comedy drama and action. A picture for the masses. Fine direction and produced on a big scale. A picture for the children as well as adults.—Guy W. Johnson, Johnson Theatre, Bowman, N. D.

The Golden West: George O'Brien—A Zane Grey story, almost epic in form, of the early West, excellent, as it contains those excellent shots of buffalo herds and wagon trains and the building of the first railroad. The Indian dance is authentic.—G. C. Moore, American Theatre, Harlowton, Mont.

The Golden West: George O'Brien—I believe that this is the best Zane Grey western that I have ever seen. The production is made up very elaborate, as one seldom sees in a western. Fox made a big one when they made this picture and some of my patrons thought it better than "The Big Trail."—W. L. Stratton, Challis Theatre, Challis, Idaho. Small town patronage.
