

**On Your Wheels
This Tire Will Win
Your Friendship**

**THE NEW
GOODYEAR
PATHFINDER**

● This big husky Pathfinder will turn out mileage on the wheels of your car—this year it is averaging 27% more mileage than a year ago. Here's another thing you want—Safety. Every ply in the Goodyear Pathfinder is built of Super-twist Cord and what's more—every ply runs from bead to bead. That's real blow-out protection. And talking about Traction—you get it in the Pathfinder Tire—in the center of the tread—which means surer grip and quicker stops. Economy—look at our prices. They'll have to talk for themselves. Our recommendation is—buy this Goodyear Pathfinder.

Telephone Company Campaign

Local telephone employees are rolling up their sleeves in preparation for a special effort to gain new telephone subscribers. "The replacement of a number of telephones in the past few weeks," reports District Manager G. E. Krieger, of the West Coast Telephone Company, indicates that as prices and business get better, people are realizing the need for their telephones to help speed things along.

"During the past three years many families, in an attempt to reduce expenses, removed their telephones, but found that such action robbed the home of a valuable service. Now that conditions and prospects are rapidly improving, people everywhere are having their telephones reconnected and again are getting in touch with their neighbors and entering the business life of the community.

"We are doing our part in bringing back better times and furthering General Johnson's 'Buy Now Campaign' by installing telephones during the period from September 25th to October 31st without making a charge for the installation. Everybody who wants new or additional telephone service should take advantage of the offer and place their orders during this period."
