**Report on Dairymen's Meeting at La Grande**

(Continued from First Page)

man of the resolution committee and assisted in preparing a number of resolutions most of which were adopted by the dairymen just before the meeting closed on Saturday. Among this group of resolutions was one urging the adoption of a code regulating the manufacture and sale of butter. Through this resolution the president of the organization was authorized to represent the group in future hearings which would be held for that purpose.

The work of the state milk control board was explained by E. G. Harland, chairman of that body. In his remarks it was pointed out that approximately 20 per cent of all the agricultural income in the United States is from dairy products. This same percentage hold fairly true in Oregon. This emphasizes the importance of a board to regulate such an important phase of agriculture. Wholesale prices ranging from 8c to 7c per quart and retail prices from 5c to 13c per quart were found in some cities and the purpose of the board, as pointed out by Mr. Harlan, was to regulate unfair competition and to protect both the producer and consumer through the adoption of codes of fair practice.

The subject of foreign fats and oils was discussed by R. L. Clark, of Portland, who pointed out the importance of government regulations controlling the importation of these fats and oils which compete too disastrously with dairy products.

A. J. Glover, editor of "Hoard's Dairymen," and president of the Holstein-Friesian association, was the special guest of the convention. "The Advantages of Dairy Herd Improvement Work to the Dairymen" were shown in an address given by Mr. Glover. The importance of regular testing of dairy herds along with a constructive breeding program was illustrated.

The possibility of increasing the consumption of dairy products was outlined by A. E. Engbretsen, of Astoria, who is secretary of the Lower Columbia Co-operative Dairymen's association. In his talk he stated that butter consumption in the United States amounts to from 18 to 20 pounds per person annually, while in Canada the average consumption is 26 pounds. In the United States the average consumption of cheese is 4.17 pounds per person while the consumption of this product in other countries ranges from 8.8 pounds in Sweden to 16.1 pounds in Switzerland.

Paul Adams, executive secretary of the Oregon Dairy Council, explained the work of that organization in advertising dairy products. Most of this work, according to Mr. Adams, is done through the schools, women's clubs, parent-teacher associations and other groups.

George Fullenwider of Carlton was re-elected as president of the association for this year, A. E. Engbretsen, of Astoria, vice president, and Roger Morse, extension dairymen of Corvallis, was re-elected as secretary.

**Pioneer Missionary Society**

The Missionary Society of the Pioneer M. E. Church held its monthly tea at the home of Mrs. Lyman Carrier last Thursday at 2:15 p. m. The devotionals were led by Mrs. E. Ellis. The service was opened with songs and the lesson given by Mrs. Ellis was taken from I Sam. 3: 1-10.

The missionary topic was "Does Brazil Constitute a Missionary Opportunity?" This was given in the form of a dialogue by Mrs. E. Purvance and Mrs. L. W. Oddy. A duet by Mrs. Carrier and Mrs. June Walker, and a solo by Mrs. Carrier were enjoyed.

Games were played until refreshments were served by the committee: Mrs. Dora Oerding, Mrs. D. D. Dale, Mrs. L. Daniels, Mrs. Blanche Davis and Mrs. Wm. Cuning, to those present: Mesdames Carl Ensele, Minnie Clinton, Ray Brown, S. M. Noeler, Theodore Lyubke, J. A. Leach, J. W. McGuffin, C. T. Skeels, Louie Fugelson, W. E. Thompson, Mr. Flanagan, J. W. Sayre, Esta Ellis, Jennie Adams, Pearl McHenry, F. G. Leslie, Blanche Davis, K. E. Pettegill, W. A. Ireland, A. M. Level, R. B. Rogers, B. C. **WHAT IS HOME WITHOUT A GARDEN?**

Place: City Hall.

Time: 7:30 p. m.

When: First and Third Tuesdays.

President—Geo. W. Taylor, Sr.

Treas.—Mrs. John A. Martin

Cor. Sec.—Mrs. Bonnie Dutton.

The meeting Tuesday evening was one of the "red letter" meetings of the Flower Lovers Club year, being the last one before Mr. Taylor's 76th birthday, on Thursday, February 22nd. As in the past, the surprise was complete, Mr. Taylor not having the slightest idea of any celebration. After the business meeting and a short program, Mrs. Geo. Leach, Mrs. Ella Schroeder and Mrs. J. P. Beyers served cake and punch to about thirty members, who thoroughly enjoyed every bit of the refreshments and the evening.

The contest flower was narcissus or daffodil and there were eight fine entries. Mrs. Ella Schroeder carried off the cup with a fine display of seven varieties. A. H. Grimes had a very fine vase of "Golden Spur" for display purposes and Mr. Taylor had two displays, one of Soliel d'Or and the other a companion, the new White Pearl, most generally sold as the new Paper White. In answer to a question, Mr. Taylor said that daffodils and narcissus are the same thing. There are many types and varieties of these lovely flowers, which are a native of Asia and were introduced into England in 1630.

The bulbs will not stand strong fertilizers and Mr. Taylor recommends a mixture of bonemeal and sheep guano; also to separate the bulbs when they begin to get crowded. Every three years is usually a good time for most varieties, if find.

Another flower brought for display by Mrs. Skeels was a growing plant of the "pitcher plant," also known as the "fly catcher" plant. This interesting plant, which is really an orchid, grows wild in marshy ground and is quite plentiful around Bandon and in the North Inlet country on Coos Bay, Gillette, the nationally known grower and seller of wild plants in the east, lists it under the name of "Darlingtonia Californica," as also does Ira Gabrielson, will know grower of Alpine and native plants of the northwest. It is a very interesting plant, attracting attention at any time and when in bloom is more so. The blooms are cream colored bell-shaped flowers at the end of a tall slender stalk. I had one which bloomed for several years but the freeze last winter killed it.

**Church of Christ Ladies Meet**

The ladies of the Church of Christ met at the church for their monthly program and tea. The following program was given: Harriet Schaer, leader, read the scripture; Mrs. Jesse gave a talk on "The Quiet Hour"; Mrs. Maury offered prayer; Mrs. Bean told the story of the old missionary hymn, "From Greenland's Icy Mountains," after which the hymn was sung by the group; prayer was again offered that all Christians might work together for the upbuilding of Christ's kingdom; Mrs. Farr then gave a talk on "Poland"; Mrs. Hatcher spoke on "Poland's Needs"; Mrs. Hooton gave a very interesting talk on "Christianity in Poland." She said there were 65 churches of Christ in Poland and that it remains with us as Christians whether Poland becomes Christian or atheist. Mrs. McCulloch spoke on "The Lighted Torch and Penny Banks" for use in collecting offerings for Poland missions; Mrs. Sloan spoke on "A Journey Through Poland," which was very interesting and instructive.

There were eighteen present and all were very much interested in the talks and seemed very enthusiastic over the work for the remainder of the year.

The following division leaders were appointed: Mrs. Bean, Mrs. McCulloch, Jennie Lafferty, Mrs. Nina Noeler, and Mrs. Jesse. Each division consists of eight ladies besides the leader. A contest is to be carried on throughout the year. Points will be given as follows: five points for attendance, ten for new members, 25 for a scripture verse, ten for a guest.

After the program coffee and cookies were served by the committee.

The Alumni Christian Endeavorers of the Church of Christ are anticipating a very enjoyable picnic lunch with Mr. and Mrs. MacDonald on next Sunday, after the morning church services. Brother MacDonald ministered for the church here for many years and it is like going home to all the members of this congregation to visit at "Friendly Woods."

Mrs. Wheaton was made a member of our club Tuesday evening and we hope to see her there often.

John Martin began the short but snappy program with two fine accordion solos. Next was a delightful comic recitation on sweet peas given by Mrs. Dutton. Mr. Beyers then surprised us all by a fine comic recitation which caused a big laugh.

Mr. Taylor told the club of a gift of Regal Lily bulbs, given the club by A. T. Morrison, of Bandon. These were later distributed among the members by a committee of two appointed by Mr. Taylor. Mr. Grimes also gave the club a large number of fine glad bulbs in a mixture, which were also distributed by the same committee. A vote of thanks was given both gentlemen for their kindness.

Mr. Martin gave us some more of his excellent music at this time, while Mr. Taylor and little Bruce Marton gave two dance exhibitions.

In his thanks to the club for their surprise, Mrs. Taylor said he was the only member of his family born in America, the rest being natives of England. He spoke of his lifelong interest in the great man for whom he was named, George Washington; also of the financing of the famous equestrian statue of Washington, which stands in a square across from the city hall in North Pittsburgh.

After Mr. Martin had given us one last solo, the time was given over to the contest flower for next meeting, March 6. The iris, any type and in any kind of container was chosen. The meeting then adjourned.

Already the stealing of flowers from our city park has commenced, the iris being stolen as fast as they bloom out. It seems a pity that this one spot cannot be exempt from the flower thieves who make life miserable for flower growers in our town from spring till winter. These thieves are not children either, but grown-ups, which makes the act more unendurable. The iris grows so easily, as do lots of other flowers, why not raise your own, folks, and keep the respect of your townsmen? If you try it once, I am sure you would find it more enjoyable than eating them. There are lots of people who would gladly share plants and bulbs with you and help you get a start. The flower growers of Coquille are generously itself in dividing with others, and I know from experience. Just try it once, and I am sure you will never again be guilty of stealing flowers.
