Notes of Interest About the Coquille Schools

High School News

A number of weeks ago it was mentioned that Coquille HI had made some entries in a contest sponsored by the National Cheese Institute, Inc. We are pleased to announce that Eileen Kern and Helen Biasca were selected as winners of one dollar each by the institute. Their letter to the girls states:

"The National Cheese Institute is pleased to announce that you are one of the winners in the National Cheese Week Menu Contest, in which you competed with entries from every state in the Union. In making this award to you the Institute and judges wish to express their appreciation of the excellence and originality of your paper."

The Girls' League members play hostess to members from other county leagues this Saturday. In order to help finance the gathering the league sponsored the picture, "Happiness Ahead" at the local theatre. Appreciation is expressed by the members for the co-operation of the Liberty Theatre proprietors.

Tuesday evening Coquille HI's basketball team made its debut against Arago. Coach Hartley has had to revamp his team around the only remaining veteran, Lewis Donaldson. The team after consistent coaching has made rapid progress. Coquille HI will give the other teams in the league considerable trouble.

Tonight Coquille's Ag. boys give their annual party. Careful preparation has been made to insure adequate entertainment for the invited guests. Each year the students look forward to the Ag. party as being the most outstanding of informal events.

The faculty play, "Oh Doctor," is rapidly beginning to take the appearance of a real production. The first act has been mastered and work is commenced on the second act. Don't forget that the proceeds will be used to purchase needed equipment in the three schools.

Washington School News

The Washington building is radiant with the spirit of Christmas. Each room has a Christmas tree and decorations in keeping with the season.

Due to the fact that we have no place large enough to accommodate the audience for a single program for Christmas, there will be three. The first and second grades will have a joint program in the second grade room. The two third grades will combine for a program in one of the third grade rooms. And the fourth and fifth grades will combine for a program in the extra room in the building. All parents and friends are welcome to come. The programs are made up in connection with regular school work.

Oscar Purser, who recently entered from Arago, has moved to Myrtle Creek. Oscar was in Miss Shone's room.

The fourth grade in Miss Ellingsen's room is practicing for the Christmas program to be given December 21st. We are hoping that every parent from our room can come.

Edna Hayes, who entered our school from McKinley has moved to Myrtle Point and will attend school there.

Visitors in the first grade since the last report are: Mrs. John Oerding, Mrs. Walter Oerding and little son, Mrs. Howard Post, Mrs. D. E. Rackleff with her sister and son, and Mr. and Mrs. E. C. Yarbrough. Mr. Yarbrough is the second father to visit this room this year, Mr. Rackleff having visited earlier in the term. Every child's mother has visited the room since school opened, but in three instances, visits were made while the school was not in session.

Patricia Berg, who has been absent for the past month, has returned to school.

Lincoln Primary Notes

The second grade has two new students, Shirley Gibson, from Bandon and Leo Call from Winchester Bay.

The second grade is drilling a chorus for the Christmas play to be given at the Community Building Wednesday, December 19, at eight p. m. This program is a free program given by the Lincoln School.

Dorothy Cadman is going to bring the second grade a Christmas tree.

The first grade has written a Christmas play and are going to ask their mothers to come and see it next Thursday afternoon. It was written entirely by the children and will be presented by them. The invitations will be their writing lesson. The play has been their language work for three weeks, the songs being music work.

Lincoln Junior High Notes

The basketball season has begun, and the prospects for this year's

team are fair. Though we have no tall boys to play center, several boys are good jumpers and willing to do their best. The boys are practicing every evening after school and are under the direction of Mr. Beck. The first game of the season will be played with Powers this evening at the Community Building. Junior High students will be admitted on their students body tickets, others will pay five cents. Adult admission will be fifteen cents. The probable line-up will be: forwards, Fuhrman and Cadman; center, Arrell; guards, Stacer and Krantz. Substitutes: Goodman, Leatherwood, Schaefer and Martindale.

The Christmas edition of the paper, due to original contributions from several students, shows signs of being larger than usual.

At an election some time ago, the Junior High student body voted to change their colors from red and white to blue and orange. The change had been considered for some time as many objected to having the same colors as the high school.

Several students have moved recently, Eleanor St. Clair, Lois and Delbert Hayes, all moved to the Norway district. Melba Purser, a new student this year, moved to Nebraska.

This morning members of the forestry service spoke to the students and showed them slides concerning fire prevention.

542 4-H Members Show Profit

A profit of \$1182.04 was obtained by the 542 4-H club members enrolled in the work through the State College Extension Service during 1934, according to a report covering 4-H club work in Coos county during the year, received at the county agent's office from H. C. Seymour, state club leader.

This information is taken from the record books, is prepared by each club member and sent to the state club leader's office at the end of the year. Of the 542 boys and girls enrolled in the work, 453 completed 100 per cent. The total value of the 4-H club projects amounted to \$3,135.00. The cost involved in carrying on work by the club members amounted to \$952.96.

A total of 57 clubs were organized early in the year in clothing, cookery, canning, health, forestry, handicraft, garden, potato, sheep, dairy, pig and poultry work. Home economics club work is supervised through the office of the county school superintendent and the agricultural club work through the office of the county agent.

To Extend Service of Hospitals at Roseburg

The Oregon Old Soldiers' Home at Roseburg is being rehabilitated, according to an item in last Friday's Douglas County Times, and will be used as a camp for disabled men where they can recover from their ailments and at the same time earn their keep.

There is also a current report that the new Old Soldiers' Home is also to have its scope extended so that it will be a receiving hospital for the sick or injured from the CCC and transient camps of this Pacific coast section.

The item from the Times in regard to the old Home reads:

Over at the Oregon Old Soldiers Home buildings, that are being transformed into a camp for disabled aged and young men, Wm. H. Baillie, of Salem, is in charge of the work, and already has received a number of men who need help in getting back to health and their former morale. Mr. Baillie, who was in charge of similar work at Klamath was recently transferred to the city to build up the second unit here. The institution will give shelter to those aged and infirm who are unable to engage in activities required of men in camps that have been set up for sheltering men who are able to do real work.

Mr. Baillie said that most everybody admits that for ten years past economic conditions have been going wrong. As a result many elderly men were thrust aside, and broken in health and spirit, have been compelled to wander about and exist as best they could. Such men will be given shelter and slight work so that this unhappy condition may be corrected, and if the times comes when they may again seek employment they will be physically fit.

So far the eldest man to apply for shelter is 76 years of age, and the youngest 34, but the most of them are over 50 and up. These men are doing all the work about the premises, and without an exception are deeply interested in the set up, and every one of them appears to be taking on a new lease of life. Among them are plumbers, carpenters, engineers, firemen, gardeners, etc. All of these men came to the place in bad physical condition, resulting from different maladies and exposure, coupled with insufficient food, and under care given at the camp will be put on their feet. All of the men do this work or remodeling without pay, accepting the care and medical treatment as more than a fair return for their labor. This is a saving to the government

HOW MUCH

FOR YOUR EYES

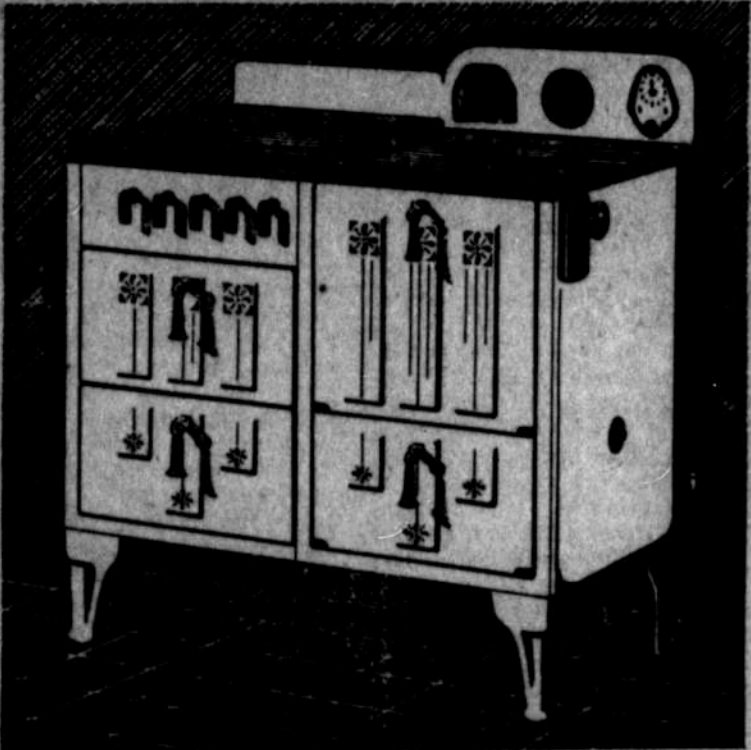

Eyestrain is a very real danger. Few of us realize that we pay dearly for every hour we strain our eyes. The tragedy is that we seldom know that we ARE mis-using our eyes. Attempting to read, work or study in poor or glaring light is the cause of most eyestrain. Often the penalty for eyestrain is not paid until later years. Then it is too late. The two or three pennies a day saved on your light bill isn't worth the risk of impaired vision. See this new type lamp (recently designed to help correct the evils of improper home lighting) at your dealers.

IF YOUR BREATH HAS A SMELL YOU CAN'T FEEL WELL

When we eat too much, our food decays in our bowels. Our friends smell this decay coming out of our mouths and call it bad breath. We feel the badness of this decay all over our body. It makes us gloomy, grouchy and so good for nothing. What makes the food decay in the bowels? Well, when we eat too much, our little brains can't digest it. What is the little brain? It is the most vital digestive gland in our body. Unless it gets its share of food from our liver into our bowels every day, our movements get hard and constipated and 90% of our food decays in our 40 feet of bowels. This decay sends toxins all over our body every six minutes. When our friends smell our bad breath (but we don't) and we feel like a whipped egg, don't get a mouthwash or take a laxative. Get at the cause. Take Carter's Little Liver Pills which gently start the flow of your liver juice. But if something better is offered you, don't buy it, for it may be a colored (mercury) pill, which houses teeth, drives and oxidizes the bowels in many people. Ask for Carter's Little Liver Pills by name and get what you ask for—54. 21211, C.B.C.
