VERY SPECIAL:--Blanket Ends, pastel colors, for Wool Rugs, Baby Blankets, Etc.

Wool is the Only Perfect Sleep Covering

LORENZ Since 1887

UNDER THE BLEACHERS

By Mark Seeley
Coquille's first big basketball game of the present season will take place in the Community Hall next Friday night, December 28. Opposing "Bill's Place" will be the Benton Athletic Club of Corvallis, an aggregation composed of ex-high school stars now enrolled at Oregon State College. One member of the quintet is Harry Helmkin, Coquille High's star center in 1932 when he led all county scorers and was selected on every all-county first team. The mentioning of his name will give a good idea of the strength of the Benton five.

Harold Merryman, manager and forward of the club, has four other stars on his squad. They include Punderson Avery and William Griswold, guards; George Ferguson, center; and Roy Painter, forward.

Coach Jack McCue will present Jack McCarthy, Tex Pease, and himself, forwards; Bob Collier, Henry Hartley and Linus Seeley, centers; Max Morgan, Harold Williams and Stanley Pulford, guards. The record of this squad is more or less known, but for clarification it might be written that two of its members, Seeley and Pulford, are former all-county men, as well as leading scorers of the Coquille teams they represented. Pulford, as well, led all county scorers in 1931. Collier is a member of the 1934 Red Devil team which went to the state tournament. McCarthy, Morgan and Williams were named on various all-county second teams, while Morgan made the Sentinel's first team in 1932. Hartley's record at Willamette University is Pacific Northwest Conference history.

Other games arranged by "Bill's Place" call for games on the following dates: December 28, Coquille Collegiates and "Bill's Place"; January 2, Coquille Collegiates and "Bill's Place"; January 7, Myrtle Point, there; January 10, Hanson's of Marshfield, here; January 14, Myrtle Point, here; January 17, Hanson's there; January 21, Riverton, there.

The Coquille Collegiates, better known as Mark Seeley's Collegians, will include such bonafide collegians as Ray Woodyard, Linus Seeley, Joe Davis, and David Smith. The ringers will be Bill Pook, Earl Morris, Alvin Shaver, Thurman Hickam, and Denton Ellington.

Further dope on the strength of Coos county hoop sport field brings forth alarming news from Myrtle Point and mere routine heralding from Bandon. Myrtle Point, it seems, tasted bloody defeat at the hands of

Hanson's Contractors of Marshfield, 40 to 8. Hanson's, however, would likely take any other Coos high school team by a like margin.

Myrtle Point, though, has also met Powers. This game ended 18 to 17, a win for the Bobcats, but it took a free throw in an extra period to produce the win. Word has it that the game was well played, with one Powers man, Kenny Rolfe, being a whole show in himself. All Rolfe did was to make all of his team's points. He had a chance to win the fray shortly before the end of the fourth quarter but missed a free throw after tossing one which tied the count at an even seventeen for each team.

At Bandon it has become known that Coach French has a list of eight prospective basketballers. Three, Young, center; Helfferstein, guard; and Giles, forward, are lettermen. The other five are Perry and Mynatt, forwards; McCollum, center; and Zentner and Bosk, guards. Flushed with championship victory in football, the Tigers will be hopped up to continue their winning ways. One huge item in their favor is a home floor this season, now that the new gymnasium is ready for use. Last year the Tigers were a traveling team for every game.

No news is as yet forthcoming from North Bend. "Silent Vic" Adams seldom says much nor schedules pre-season games for his Bulldogs. He shuns publicity.

Basketball schedule:
Tonight, Coquille High at Arago.
December 26, Wednesday, Collegians and "Bill's Place."
December 28, Friday, Benton A. C. and Bill's Place.

This week's scores—Coquille High 11, Riverton 13; "Bill's Place" 61, Ag Club 14; Hanson's Contractors 40, Myrtle Point High 8.

Jack Phinnegar pleaded not guilty in Justice Stanley's court this week on a larceny charge. He was accused of stealing gas and other stuff from cars at the Smith plant at the same time Jack Ford is accused of doing it. Pending a trial of that case he is serving time in the county jail in payment of a \$25 fine for driving while intoxicated recently.

M. I. Thompson is serving a \$10 fine imposed at Powers for setting out fires. The sentence was imposed some months ago.

Arthur Cook was brought up from Bandon, Wednesday, to receive \$5 fine for driving a car without a driver's license.

A machine-like, steady second half offensive coupled with an airtight defensive led Coquille High to victory over Riverton High in the basketball game here Tuesday night, 31 to 13. The Red Devil win served as a tasty bit of revenge for Coquille, thus avenging a 27 to 19 defeat at the hands of Riverton last week.

A tightly played first half in which both clubs closed up clam-like on the defense, but fumbled loosely on the attack, ended with the red and white on the long end of an 8 to 5 count. But the second half was different so far as the locals were concerned, once the fuse was ignited.

The entire Red Devil quintet settled down on an even keel, running the halftime score of 8 to 3 to 19 to 9, during during the third quarter. The huge share of the point making was being done by Robinson but the teamwork leading up to the scores was smooth. Robinson was responsible for six of the eleven points during this period, being aided in his assault on the basket by Bailey and Smith with one goal each, and by Barton with a free throw.

The remaining twelve Coquille scores came during the fourth quarter. As in the third quarter, Donaldson, key offensive man, directed thrusts which saw the margin in the score increase. Bailey scored twice more with field goals, and Thrift, a substitute, duplicated this performance. The other four points went to Barton and Robinson on free throws and to Moore on a field goal. Line-ups:

Coquille (31)		Riverton (13)
Robinson (7)	F	(3) Smith
Smith (5)	F	(2) Morris
Barton (2)	C	(2) Church
Donaldson (6)	C	Hull
Bailey (6)	G	Sell
Ray (3)	S	(6) Ward
Moore (2)	S	
Yarborough	S	
Thrift (4)	S	
Detlefsen	S	

Referee—Jack McCue.

A Red Devil victory was also counted in the second team game, 40 to 11. Duplicating high score performances by Norm Ricketts and Bob Waggoner in the two previous games, Lloyd Wood grabbed the plum this time with twelve points. Don McClellan followed with eight.

New Cases in Circuit Court

Dec. 20—Albert Oleman, guardian of Marian Oleman, vs. Darrell Roberts and I. R. Tower.

Calling cards, 50 for \$1.00.

Last Session of Old Council Held Monday Evening

City Recorder Leslie reported, to the council Monday evening that the Mt. States Power Co. had stopped its payment of a two per cent gross franchise tax to the city. There has been talk that the company is subject to a five per cent tax on its gross business in Coquille, but it is further stated that the supreme court has declared unconstitutional the statute which would have permitted a city to collect such a tax.

The application of E. A. Wimer for a replanking of the alley between Heath and Coulter streets, from the A. O. Walker and E. L. Vinton corners a block west, was referred to the street committee and city engineer, with power to act.

The Coquille firemen were given permission to use Community Building for basketball practice, on nights on which it was not otherwise in use, for a payment of \$2.50 per night, just enough to cover the cost of lights.

The application of Louis Sell to rent the house at the corner of Tenth and Heath streets, which he recently needed to the city, at \$10 per month, was denied by the council. According to the agreement last fall he was to have use of it until Jan. 1, and he asked for another six months at the \$10 rate.

The application of S. H. Donsted for recommendation to the state liquor commission for permission to sell beer was approved.

The recorder was instructed to bill the Liberty Theatre for the last half of its 1933 amusement license and for 1934.

The application of the Valley Building & Loan Association was favorably acted upon. They requested that street improvement assessments on the half block formerly belonging to A. L. Nosler, on North Heath street, be segregated so that they might pay the assessments on the two or three lots to which they have title.

Marriage Licenses

Dec. 17—John L. Anderson, Jr., and Dorothy V. Laskey, both of North Bend.

Dec. 18—Fred A. Bessey and Grace Fulton, both of Marshfield.

Dec. 18—Peter J. Menegat, Jr., and Freda Lullman, both of Lakeside.

Dec. 19—Felix G. Miller and Eleanor C. Oerding, both of Coquille. They are to be married Sunday at the Pioneer church here.

Dec. 20—Carl Culley and Cordia Swart, both of Marshfield.

Testing for Bang's Disease in Coos County to Start

(Continued from Page One)

ment by the Bureau of Animal Industry of the U. S. D. A. of Dr. W. V. Glaspyer of Coquille to test the cattle. With the arrival of Dr. Bennett, another appointee of the bureau, to assist with this work, testing will be speeded up so that all herds should be tested within a reasonably short time, according to the plan.

Dairymen who co-operate in this plan, which is strictly voluntary, will be provided with this free testing work and will receive indemnity payments on condemned stock in return for signing a contract agreeing to make the standard cleanup of premises when disease is found and agreeing to continue testing at his own expense under the Oregon accreditation plan, until his herd is eligible for accreditation.

In explaining this program, County Agent Jenkins pointed out that when a cow is definitely determined to be a reactor to the Bang's disease test, it is appraised at this fair value and is then sold for slaughter within 30 days, the owner receiving this sale price or salvage value, as it is called, first of all. Then in addition, he gets an indemnity payment equal to the difference between the sale price and the appraised value providing this difference is no more than \$20 for a grade and \$50 for a registered purebred animal. The return to the farmer is the salvage value plus the indemnity. No indemnity will be paid for unregistered bulls.

In explaining more in detail a specific case was mentioned where a grade cow which was found to be a reactor was appraised at \$40.00 and brought \$20.00 when sold for slaughter. If, on the other hand, this same animal was appraised at \$40.00 and brought only \$10.00 for beef, the owner would receive only \$20.00 indemnity. If a registered purebred cow is appraised at \$85.00 and brings

only \$20.00 when sold for slaughter, the maximum indemnity of \$50.00 would bring the total only to \$70.00.

This is the first time that dairymen have ever had an opportunity to obtain free testing and cash indemnities for the eradication of this disease, Jenkins stated. Many dairymen have already signed the agreement to participate.

All dairymen in the county who plan to avail themselves of the advantages of this program should sign agreements as soon as possible. The plan, as outlined, calls for the testing of herds in the county by districts and only those herds whose owners have signed an agreement in advance and filed it at the county agent's office with others from his district, can be tested when the veterinarian's first visit is made.

Arrangements will be made to meet with the groups of dairymen to further explain the testing program on request, Jenkins stated.
