Sure! But—  
**NON-SKID GRIP**  
is 5 1/2 times more necessary to safety

Your big worry should be skidding—the cause of 5 1/2 times more accidents than blowouts. Smooth tires skid 77% farther; other new tires skid 14 to 19% farther than new "G-3" Goodyear All-Weathers (proved by 8400 tests). Since this "Goodyear Margin of Safety" costs nothing extra, get it now—ride safely during the slippery driving months.

43% More Miles of Real Non-Skid because "G-3" All-Weather Tread is flatter, wider, heavier, tougher. Blowout-Protected in EVERY Ply because Patented Superwide Cord is up to 61% more elastic—absorbs shocks!

**The Memory Picture**

In our funeral home everything is planned to provide a beautiful setting for the last farewell. Years of scientific progress and long experience in the art of arranging details are behind the skilled ministrations that lend to the loved one the natural appearance of peaceful sleep that is so comforting to those who remain behind. We feel that our greatest privilege and duty is to make this memory picture one that will be forever cherished for its beauty and consolation.

**Pictures at the Liberty The Coming Week**

"A musical world cruise as seen through the eyes of hilarious youth!" That's a popular definition of the sensation new laughaganza, "Student Tour," which shows as the preview tonight. For in addition to comedy—supplied by Jimmy Durante and Charles Butterworth—and half a dozen new musical hits including the sensational new "Carlo" the picture bubbles with youth. The producers raided the colleges and universities of the nation, picking the loveliest coeds and the handsomest athletes to introduce to the public. Most of them never before have appeared before the cameras. And for locale, the producers took the entire world—New York, Japan, China, Java, India, Monte Carlo, Paris—and sent their cast on a musical cruise filled with comic complications and romance.

High pressure coaching in six months has blended an exotic Franco-Italian personality with intensive English stage training to present a new Hollywood star in her first Hollywood picture. The girl is Ketti Gallian. Her vehicle is "Marie Galante!" opening today at the Liberty

Theatre, an adaptation of the romance which won the Prix de Rome as a novel a couple of years ago. She is playing opposite Spencer Tracy, with a strong supporting cast. The production is rated as one of the most important on Fox Film's schedule for the year. The director and Jack Otterson, art director, with a camera crew made two trips to the Canal Zone to obtain background and color for the picture. The last visit coincided with the record-breaking passage of the United States Battle Fleet through the Canal, when more than a hundred ships crossed from the Pacific to the Atlantic in less than 36 hours.

Shirley Temple—most sensational film discovery of the year—will be seen at the Liberty for three days beginning Sunday, in her latest and, according to all advance reports, her best picture, "Bright Eyes." Once more James Dunn is cast as Shirley's leading man—a fact which is said to have enchanted the young star. Jimmy appeared as her daddy in "Stand Up and Cheer" and "Baby, Take a Bow," and Shirley, has eyes for no one else, they say, when he is on the set. Preview audiences in Hollywood are said to have greeted "Bright Eyes" as the finest and most

heart-warming picture in which Shirley has been seen. A human and compelling story, that at moments brings the tears, is combined with thrills that will chill the spines of any audience. So runs the advance report. The supporting cast includes Jane Darwell, of "White Parade" fame; Lois Wilson, Judith Allen, Theodore von Eltz, Dorothy Christy, Jane Withers, Charles Sellon, Brandon Hurst and Walter Johnson.
