

Blowout Protection? Sure! But— NON-SKID GRIP

is 5½ times more
necessary to safety

Your big worry should be skidding—the cause of 5½ times more accidents than blowouts. Smooth tires skid 77% farther; other new tires skid 14 to 19% farther than new "G-3" Goodyear All-Weathers (proved by 8400 tests). Since this "Goodyear Margin of Safety" costs nothing extra, get it now—ride safely during the slippery driving months.

43% More Miles of Real Non-Skid because "G-3" All-Weather Tread is flatter, wider, heavier, tougher. Blowout-Protected in EVERY Ply because Patented Supertwist Cord is up to 61% more elastic—absorbs shocks!

Dr. Hamilton's Alka-Algae Receiving National Recognition

Dr. V. L. Hamilton left today for Portland to confer with interested parties there in regard to the new preparation which he recently formulated and in which several Coquille men are interested. He has already had an offer from a 3500 chain store company to handle the product, but he has not yet made arrangements for its manufacture on a large scale.

The patented name of the preparation is Alka-Algae. It is mentioned in a column article in Commerce & Industry Magazine, a New York publication, as follows:

Of specific interest to physicians is the recent report from the Northwest that Vern Leonard Hamilton, physician and surgeon of Coquille, Ore., will market ethically a new pharmaceutical preparation for the treatment of gastric ulcers, colitis and hyper-acidity whose clinical tests have indicated significant therapeutic advantages. This new preparation will be distributed under the trade name, Alka-Algae, recently filed for registration at the U. S. Patent Office under serial number 357,197 as a means of protecting both physician and consumer.

Formulated for the treatment of gastric ulcers, colitis, hyper-acidity, chronic constipation and associated disorders, Alka-Algae is an ethical preparation to be used only on the physician's prescription. The ethical nature of the doctor's program is indicated in the following statement: "This preparation has been in use in my practice for a number of years and the results obtained were so highly satisfactory in treating cases

where it was indicated, that I decided to share the benefits obtained with my colleagues." Inasmuch as there has been a long-existent need for such a preparation in the medical profession, it is believed that physicians will be eager to investigate Dr. Hamilton's formula.

Survey of the comprehensive array of pharmaceutical preparations now distributed direct to the consumer by drug stores throughout the country discloses the need for a prepared product which will be marketed ethically with resultant benefits accruing to both consumer and physician.

Two Cows Drowned

A motor accident on the Bradley Lake road near the Gallier place early Sunday morning caused the death of two cows and damage to the car and trailer owned by C. L. Berry, of Langlois. Mr. Berry had the cows in a trailer behind his car and was en route home when his lights suddenly went out. The car left the road and turned over into a creek. The cows were drowned before they could be extricated. Mr. Berry was taken to the Leep hospital for treatment but his injuries were only superficial. The car was partly submerged in the water. — Western World.

Grand Jury Report

Following is a copy of the report submitted to the Circuit court last Friday by the grand jury which had inspected the jail and visited the county farm:

We, the undersigned Grand Jury, empaneled and sworn in for the above named county and state do hereby make the following report:

We have visited and inspected the county jail of Coos county and find it in an unsanitary condition and needs new paint on the walls, and toilets need replacement and oil cloth on tables should be replaced.

We have visited the County Farm and found the buildings all clean and well cared for.

That Mrs. Horton, the nurse at the County Farm, be commended on her faithful work and care of the patients.

We also examined the livestock at the County Farm and found them in good condition.

We feel that Mr. and Mrs. McNelly should be commended for their efficient management and the recent installation of refrigerating and canning factory.

Dated this 15th day of February, A. D. 1935.

Respectfully submitted,
J. W. Hildenbrand, Foreman, L. E. Croff, J. B. Moomaw, Z. C. Strang, E. W. Gallier, Iva Farr, Edna Slater.

Penalties on Thrift a Wrong

Out of the pyramiding of the public debt, and the increasing demands for socialistic experiments, is developing a condition that is worrying members of Congress—and all others who must depend upon the voters for their tenure of office, says an Industrial News Service bulletin from Washington, D. C.

This condition is the growing tendency to levy unprecedented burdens upon thrifty citizens for the benefit of others who, regardless of reasons, have turned to the federal treasury for direct or indirect financial support.

Congressional cloakrooms buzz with serious conversation regarding possible developments when the tax-paying public realizes it is saddled with a multi-billion-dollar load in the name of relief, when in fact much of the burden was created for experimental reform.

Pictures at the Liberty

The Coming Week

The hair raising thrillers of the Pearl White and Helen Holmes era pale into insignificance when compared to the modern thriller of the rails, "The Silver Streak," showing at the Liberty Theatre tonight and Saturday.

It shows a train going at an incredible speed with the engineer at death grips in the cab. Around curves it goes, and through switches that open just in time, missing freight trains by an eyelash, over drawbridges that close in the nick of time.

The relief from the thrills, aside from a strong love interest between Sally Blane and Charles Starrett as the romantic leads, is the comedy provided by an able team of funny men, Edgar Kennedy, Arthur Lake and Glinn "Big Boy" Williams. The picture features the new streamline train of the Burlington Railroad which, together with Boulder Dam, comes to the screen for the first time in "The Silver Streak."

Sure, swaggering, smart to a fault, with a sense of humor that is his stock in trade, the "Bill Grimes" of Jack Holt in "I'll Fix It," comes as the preview this week. A fixer in politics—he was a "fizzle" in romance. He could make the Mayor say "uncle"—but a winsome little school teacher wouldn't even say "maybe!" He sent her flowers—and she threw them out! He tried theatre tickets—she tore them up! Then he had her fired—and she fell in love! "I'll Fix It" is the story of a cocky politician who turned to a school teacher for a lesson in love! Gay, actionful, romantic, it provides Holt with his finest role to date.

"Mrs. Wiggs of the Cabbage Patch," the third and last of the three great novels of and by Americans, has been made into a motion picture and comes Sunday to the Liberty for three nights.

"Mrs. Wiggs of the Cabbage Patch" was written by Alice Hegan Rice in 1901, and is generally ranked with "Little Women," by Louisa May Alcott and "David Harum" by Edward Noyes. The latter two have already been filmed, and "Mrs. Wiggs of the Cabbage Patch" is now completed.

Pauline Lord, distinguished stage star who played in such notable productions as "Anna Christie," "The Late Christopher Bean," "Strange Interlude," and "They Knew What They Wanted," makes her screen debut as "Mrs. Wiggs." She rejected numerous screen offers in the past

but succumbed to the chance to play in this classic. Evelyn Venable and Kent Taylor, who have been teamed several times, are cast as the young lovers, Miss Lucy and Mr. Bob. W. C. Fields has a leading role and ZaSu Pitts plays the vapid Miss Hazy. Adapted from the play by Mrs. Rice and Anne Crawford Flexner, "Mrs. Wiggs of the Cabbage Patch" brings to the screen the world-famous characters of the story.
