Notes of Interest About the Coquille Schools

High School News

The Extemporaneous Speaking contest this year is based on the book, "Only Yesterday," written by Frederick Lewis Allen. For those of us who recall the days of the war to the present it is a worth while book to read. Mr. Allen brings back to us "revitalized and freshly interpreted, an endless variety of half-forgotten events and fashions and crazes and absurdities." While new to the present generation, they seem highly interested in our fads of yesterday.

Wednesday evening the "Ag" boys were defeated by Myrtle Point in a basketball game, 24-8. The players on Coquille's team were: Leonard Lawhorn, Ben Daniels, Cedric Cross, Cecil Laws, Rex Kelley, Jim Schaefer, and Howard Detlefsen.

Tonight Coquille Hi's basketball team travels to Roseburg to meet Myrtle Point. We are hoping for a repetition of last year's success. Remember the "Yellow Shadow" to be presented at the Community Hall March 15, at eight o'clock. The cast has labored long hours to give a presentation that the public will enjoy. The cast includes: Clynard Holverstott, Myrtle Minter, Jim Robinson, Audrey Kendall, Gretchen Neal, Aletha Leatherwood, Donald Smith, Howard Detlefsen, Geraldine Minsard and Tommy Thrift.

Among the interesting events facing Coquille High School students are: Junior Prom, March 22; Interclass Rivalry Assemblies beginning March 27; Senior Ball, May 24.

Dr. Bruce Baxter from Willamette University, talked to the students at the assembly Thursday morning. Dr. Baxter is president of Willamette and is an entertaining speaker. Coquille students are always pleased to welcome guests from other parts of the state.

Coquille High School is proud of the new curtain installed in the gymnasium. Funds for this curtain were made possible by the faculty play given this year.

Washington Building

On Monday of last week our county health nurse, Mrs. Iris Elrod, made a thorough check on our building for skin disease. It was found entirely free except for three or four questionable cases that will be watched and cared for carefully. Mrs. Elrod commented on the unusual cleanliness of our students. This is a compliment we are proud to have given us.

We have several new students in our school. Two of these are in Miss Shone's room. Vera Sellman from Riverton, and Howard Robb from North Bend.

Washington's birthday was observed in each of the primary grades on Friday, February 22. In the fourth and fifth grades the assembly program honored the great man. Songs, poems, and stories of his life were numbers on the program.

Our school is having a rather large number of absences due to bad colds and attacks of "flu." We appreciate the parents' co-operation in keeping the children out when they are taking these colds as it prevents spreading to the other children.

Through the efforts of the P. T. A. the Washington Building has the use of sixty-five state library books until May 20. We are delighted to have these books as our library is limited. The P. T. A. gave a candy sale in the hall of our building on Thursday. The proceeds are to be used to purchase library books.

Report cards went out Tuesday afternoon. The honor rolls for this six weeks' period are as follows: All 1's, none; no grade lower than 2—Dick Vinton, Ethel Vaughan, Verene Bailey, Wilton Willey; no grade lower than 3, Phyllis Bunch, Theodore Ellingsen, Laurel Fuller, Earl Haynes, Roy Jones, Jerry Lewis, Duane Terry, Wayne Terry, Betty Jo Thorp, Buddy Aasen, Phyllis Barry, Odetta DeGretter, Jane Oerding, Avis Rickett, Harriet Tozier, Margaret Ann Wilson, Tommy Marton, Doris Ann Wood, Eves Alexander, Patricia Barry, Bruce Bishop, Paul Cole, Donald Cunningham, Robert McCarthy, Bonnie Jean Forrest, John Mulvihill, Ruby Pierce, Gerald Smith, Rae Tousley, Mary Woodhurst, Inez Young, Doreen Robinson, Wilfred Wasson.

Lincoln School

The eighth grade civics classes are learning a great deal about court procedure. Last week they attended a session of the county court, and this week they are holding courts of their own to apply the knowledge which they gained.

Friday night is the date for the second Junior High party. This one is being sponsored by the Girls' League, and is causing considerable excitement.

Last week the Junior High basketball team won two games. On Wednesday evening they defeated Bunker Hill with a score of 22-13. Friday after-school they defeated Riverton 24-11.

The library has been aided a great deal by a group of books obtained from the state library by the P. T. A.

They will give a great deal of pleasure to the students as well as be of assistance in the matter of book reports.

Buzz Saw Trick Coming to Liberty Next Wed.-Thurs.

With "more thrills, chills and fun than a five-ring circus," Virgil, the internationally famous magician, is scheduled to appear at the Liberty Theatre for two days, starting Wednesday, March 13th. Virgil's full company with his live African lion and his tons of equipment will present his \$50,000.00 "Mystic Circus" that has gained for him his present exalted position as magic master.

It is fun to be fooled, especially when you know you are being fooled. Virgil's show is said to be entirely different from usual magic shows—his is spectacular. He brings with him his own public address system, all of his own scenery and special effects, lighting effects and music. It is reported that his unusual success has been due to his particular attention to details. He is rapid and performs as many as nine complete tricks in three minutes. This is interesting because the average illusionist does from twelve to fourteen tricks in an hour and a half. Local people will see the motor driven buzz saw that saws through a woman, while she is entirely visible and with the skin bare where the big 30-inch blade slashes through at the rate of 3000 revolutions a minute. Although newspaper syndicates have told of this marvelous invention both here and abroad and news reels have reproduced it on screens in hundreds of cities, no one has fathomed the mystery and to see it on the stage is reported to be sensational. Newspapers report that as many as eighteen people have fainted during Virgil's operation of this one illusion.

This, however, is only one of dozens of illusions. Virgil has the "7 unsolved hysterics of the Orient," "Death on a Medieval Guillotine," "Chinese Opium Den Mystery," "Mystery of the Phantom House," "Enchanted Menagerie," "Casadaga Propaganda," and among a host of other illusions the latest development in magic, "Satan Burns a Man Alive." Virgil's show will play here at the Liberty theatre at popular admission prices. It promises to be an unusual event. On the same program will be the late feature picture.

City to Enlarge Pipe Line Crossing to River

service station, was ordered moved 75 feet to the north. City Engineer Stacer estimating the cost at \$75.

J. P. Johnson, S. H. Stockhoff and Antony Biasca were present to ask for a larger pipe line to their places across and down the river. Mr. Stockhoff's offer was to pay for the pipe for a new one-inch line to his place if the city would lay it to the Russ place, or he would pay that much on a two-inch line to replace the one-inch line which now partially serves the farmers of that district. The other 17 or 18 users in that district prefer a two-inch line and Mr. Johnson agreed to get them to pay for the additional pipe necessary if the city would lay it.

The council granted the request and authorized the city engineer to have the work done.

At the request of Fire Chief Gardner, the city attorney was instructed to prepare an ordinance forbidding automobiles following a fire truck within 500 feet, or parking within three blocks of a fire, the same regulations that exist in the state traffic laws. This will enable the city to secure fines for violations which now go to the state if fire-followers interfere so much with the department that arrests must be made.

A letter from the State Highway department conveyed the information the applications to haul logs through Coquille, on the highway, must be made to the Public Service Commission, after the city council had approved the application.

President Willamette U. Talked to Lions Yesterday

(Continued from Page One)

of the African veldt, which he and Mrs. Baxter traversed by auto last summer. Kruger Park, named in honor of Oom Paul Kruger, is a vast territory of 8,000 square miles, lying between the Transvaal and the Orange Free State. It is a refuge for wild animals of Africa and nearly all that are left on the dark continent remain there.

Diverting from his trip, Dr. Baxter told of Oom Paul's aversion to the Jewish race and how at one time, as head of the Transvaal government, he was finally persuaded to assist at the dedication of a new Jewish synagogue, in his governmental capacity. You will only have a very few words to say, he was urged: "As president of the Transvaal republic I declare the building open." He said the words all right, and then added, "In the name of Jesus Christ our Lord."

Between 9 a. m. and 5 p. m., the party in which he was travelling, saw and counted 238 herds of wild animals, not single animals, but herds, but it was not until after one o'clock that they saw a lion. Then they stopped and watched and took pictures of 13 in one group, two cubs and eleven grown lions. The lions did not, nor do they attack people in cars, the gasoline smell obliterating the human odor. But it is fatal, as well as against the law, to descend from the car while crossing the Park. The lions exhibited little curiosity and eventually left the trail.

At another point they met, what the doctor said was the largest lion he ever saw, and he just got the car stopped in time to avoid hitting it. After what seemed like hours, but was really less than five minutes, the brute gave a final swish of his tail, and disappeared in the brush.

The party visited the Martin Johnson home near Niobia and were also in Tsavo which was for several months the end of railroad construction while the lions were cleared from the neighborhood. Dr. Baxter recommended as most worth reading the book, "Maneaters of Tsavo," written by Col. Patterson, the man who eventually cleaned out that district so that construction could continue. Dr. Baxter's stories of lion attacks were enough to make the blood run cold.

MANY BANKS LONG LIVED

In the United States—
163 Banks over 100 years old.
2,472 Banks over 50 years old.
10,391 Banks over 25 years old.

There are in the United States 163 banks that have been in continuous existence for more than one hundred years. There are 2,472 banks over fifty years old, while 64% of all the banks in this country, or 10,391, are twenty-five years old or older.

In other words, practically two-thirds of the banks in this country have come through several successive periods of depression and panic, including 1907, 1914, 1920 and 1929-33.

The Oldest Bank

The oldest bank in the country, which is in Boston, was chartered February 17, 1784.

In the 64% of banks that are twenty-five years old or older is lodged a major portion of the banking resources of the nation. In commenting recently upon the stability of a great majority of the banks in the United States, Dr. Harold Storer, Educational Director of the American Bankers Association, said:

"The fact that we have so many banks that have been in existence a long period of years is an eloquent tribute to the genius of American managerial ability, for no other country has experienced such wild gambling eras and resultant periods of business stagnation as those through which our country has passed at frequent intervals during the past century."
