CALL FOR TRANSPORTATION BIDS

Notice is hereby given that the Board of Directors of School District No. 8, Coos County, Oregon, will receive bids for the transportation of high school pupils from the following non-high school districts to the high school building in School District No. 8, for the school year 1935-6:
No. 1 Fairview Route. All the high school pupils who reside or are located in the following elementary school districts: numbered 22 25 and 10, Coos County, Oregon.
No. 2. From approximately the Geo. S. Davis place on the Coos Bay-Roseburg Highway to the high school in Coquille.
Bidders must observe the following requirements made by the Non-High School Board:
1. Bids to be made on monthly basis (school month).
2. Payment to be made to regular drivers for days only on which school is held.
3. In cases where payment is made to driver so much per child, per month, payment will be made for number of days child is actually in attendance.
4. Payment to be made within twelve (12) days after close of school month.
5. Contract to be allowed only for number of months that school runs.
6. All bidders are hereby notified that the present non-high contractors have the privilege of renewing their contract at the lowest bid received on this call, provided the board considers their past performance satisfactory and they have regular school buses meeting standard qualification. (' indicates new material).
7. Bidders must include Liability Insurance to be provided at expense of driver in amounts required by Non-High School district board.
8. Drunken drivers are not to be considered.
9. Bids must be filed with the Clerk by 6:00 o'clock p. m., May 11, 1935.
10. Bids may be for entire group from one section or on the per pupil per day rate.
11. Whenever it is to advantage to haul pupils other than the regular non-high pupils that amount received by driver for such transportation will be deducted from the total.
12. Bids are to be made for both one and two year contracts. The latter applies, however, only to contractors who operate regular school buses.
The board reserves the right to reject any and all bids.
Keith Leslie, Clerk.
School District No. 8, Coos County, Oregon.

The motor car is a good customer of everybody . . .

"I foresee the time when industry shall no longer denude the forests which require generations to mature, nor use up the mines which were ages in making, but shall draw its raw material largely from the annual produce of the fields. . . I am convinced that we shall be able to get out of yearly crops most of the basic materials which we now get from forest and mine."
—Henry Ford

- WOOL** goes into upholstery, floor coverings, lubricants and anti-rust preparations.
- LEATHER** goes into upholstery—and in addition, glues are made from cow hide, and from cow's milk. . . Other parts of cattle, through other processes, yield stearic acid, greases, glycerine (for shock absorbers and body enamel) and soap chips (used in washing machined parts and bodies before painting).
- HOGS** furnish lard oil, oleic acid and brush bristles.
- GOAT'S HAIR** (Mohair) goes into upholstery.
- BEEWAX** goes into electrical imbedding compounds.
- COTTON** goes into tires, batting, cloth, battery box, timing gears, brake linings and, not least important, into Safety Glass. (Every Ford V-8 car built this year will have Safety Glass in every window, at no

extra cost to the car buyer . . . Cotton, in the form of cellulose acetate, is the central part between the two sheets of glass that make up every finished sheet of Safety Glass.)

CORN yields butyl alcohol (for enamel finishes and other purposes) and starch (for stiffening cotton linings).
LINSEED OIL is the basis for paint—is used in foundry cores—and is one of the ingredients of the beautiful, synthetic baked enamel finish on a Ford V-8.
SUGAR CANE yields molasses for solvents, anti-freeze and shock absorber fluids.
CASTOR OIL goes into lacquers and artificial leather suitable for rumble seats, where real leather would be damaged by exposure to the weather.
TUNG OIL is part of the top material used in Ford cars and is also used in brake linings.

TURPENTINE is used in paints, adhesives and solvents.
SOY BEANS are used in making cores for metal castings in our foundry and are also an important part of the baked enamel finish of a Ford V-8 and of the plastic knobs and buttons in the car's interior.
LUMBER is used for packing purposes. It is not used for any structural part of the Ford car, which has a welded, all-steel body, reinforced with steel, for maximum safety.
