Poppy Day Next Friday

Nearly 30,000 new names will be on the scroll of America's dead defenders when the nation honors its war dead on Memorial Day this year, according to Bonnie Green, president of the Coquille Unit of the American Legion Auxiliary. World War veterans have been dying at the average rate of 80 per day during the last year, making nearly 30,000 who have passed on since last Memorial Day.

This high death rate among the veterans gives Poppy Day, May 25th, heightened importance. Mrs. Green explained. On this day the Auxiliary women collect contributions which form the major sources of support for their work for needy families of veterans throughout the year. Unless generous public support is given the Auxiliary's Poppy Day appeal, the welfare activities of the Unit cannot be maintained.

"In addition to the veterans who die," said Mrs. Green, "there are more than 100,000 constantly in hospitals. We endeavor to do something for those veterans while they are still within reach of our help, providing them cheer and comforts while they are in the hospitals and aiding them in the long, uphill struggle to regain an economic foothold after they leave the hospitals. Their families, too, often need aid."

"The poppies, which we will offer Friday, May 24th, to be worn in honor of the dead, are our principal means of raising funds for this work for the living."

We have appointed C. H. Hodgdon our agent for Coquille. All orders left or phoned (IM) him will be promptly taken care of. Give our floral work a trial. We will do our best to please you. Myrtle Greenhouses, Myrtle Point. 417
