STANDARD OIL FLY SPRAY
It kills mosquitoes, flies, fleas, gnats, moths and other insects, and kills 'em quick!
Why? Because our laboratories developed a spray with four important features. First, the finest pyrethrum (toxic to insects) is used. Second, the spray solution is light enough to atomize completely, allowing its mist to settle down slowly when sprayed. Third, it is free from oil which might stain clothes and fabrics. Fourth, it is absolutely harmless to humans and pets. Insist on Standard Oil Fly Spray.
