County School Notes

From Mrs. Mukey's Office

Two 4-H Club members, Irene Myrberg a member of the Randolph canning club, and Teddy Cadman, a member of the Langlois dairy club, will attend 4-H club summer school to be held in Corvallis this year, on a scholarship provided by the Coos-Curry Pomona Grange as a result of selection just made by the executive committee of that organization.

In going over the records of the activities of 4-H club members kept on file in the offices of the county school superintendent and the county agent, it is apparent to members of the committee that excellent work has been done in this field by many boys and girls in Coos county, says Ray Deadmond, master of the Pomona Grange and chairman of the executive committee. There are several who have outstanding records and give the winners of this award a close race. Others who were close to the top are receiving scholarships through other sources, he stated.

Irene Myrberg is a member of the Randolph canning club this year, which is led by Mrs. Florence Oerding. She is fourteen years old and has been in club work for five years. During this time she has shown unusual interest in the work; has completed all of the six projects undertaken and has won several prizes at county fairs.

Teddy Cadman, with his brother, Sidney, has been enrolled in 4-H club work for six years. He is fifteen years old, and a member of the Langlois dairy club this year, having moved there from Coquille where he made an outstanding record as a member of the Coquille dairy club and the Norway pig club. He won two first places and one second place on exhibits in the club classes at the county fair last year, and has been a consistent winner with cattle and hogs exhibited at the county and state fairs since he enrolled in club work.

Teddy has been one of three members of the livestock judging team,

which represented Coos county at the state fair at Salem two different years. He was a member of a team which demonstrated the construction of calf stanchions at the state fair and also at the Swift day program at Coquille four years ago. He won the highest award possible for a Holstein calf club member in the state and received as award a registered Holstein calf from F. W. Durbin & Son, noted Holstein breeders. This same year Teddy won the showmanship contest at the state fair in competition with the winners from all sections of the state. Sidney, his brother, won the same award the year before.

The Pomona Grange voted to provide these two 4-H scholarships at its last meeting held in the North Bay-side hall. Several subordinate granges are also awarding scholarships this year to club members in their respective communities. Sponsoring this work has been encouraged by the State Grange and we hope that our interest in this program will make it possible for the winner of the scholarships to attend the summer school and to bring home to other members of the club, to their leader and to the people in the community, more knowledge pertaining to club work and to be of assistance in encouraging more general participation among boys and girls in 4-H club work, Mr. Deadmond stated.

Powers

A jury trial was depicted by the eighth grade graduating class of Powers. Their exercises represented a breaking away from the traditional type of graduation exercises.

Myrtle Point

The Myrtle Point school displayed their 4-H club work Wednesday. This school has had several 4-H projects and as a result had a splendid display.

Local History

All persons having old manuscripts, authentic stories, etc., pertaining to early days should get in touch with Dr. Alfred Powers, Portland, who is leading the government survey for compiling a History of Oregon. Coos county should have much to contribute to the book.

McKinley

The following children of McKinley school have finished their Book League reading: Ivan Mast, Elinor Malden, Delbert King, Velta King, Lois Conlee, Norma Conlee and Keith Conlee.

Kills Swarming Pests Quick

Hordes of pests are already sharpening their stingers—swarms of flies, mosquitoes, ants, gnats, bugs are just waiting for hot weather. And then the pestering starts.

But Standard Oil Fly Spray can stop this insect nuisance cold. This spray kills 'em wholesale—and "kills 'em quick." Every drop is one hundred per cent active.

What's more, Standard Oil Fly Spray is made light enough to float in the air and settle down slowly. Thus it reaches and kills many insects hiding out of sight as well as those you see buzzing around.

Of course, this spray is perfectly harmless to humans and will not stain walls, drapes, clothes, or upholstery. But how it frees your home of insects!

Standard Oil Fly Spray rids your home of unpleasant cooking odors, too. Instantly—like magic it sweetens the air in any room of the house—quite an asset when so many homes are closed up tight during vacation period.
