

Supt. Lane Gives Information About School Opening, Sept. 8
(Continued from Page One)

carrot-raisin salad 5c, cold meat sandwich 5c, macaroni au gratin 5c, chocolate pudding and whipped cream 5c. Milk at 3c and orange juice at 5c are always on hand, while teachers may have tea and coffee if they wish. It is the desire of the school system to offer efficient service at cost and the co-operation of parents is solicited. Mrs. Rigby will continue in charge of the cafeteria while Miss Stahl of the High School staff will act as business manager.

Mr. George Fuller, new instructor in industrial arts, will offer three double-period courses. Blocks 1 and 2: Rudiments in Wood-Working. This course will offer instruction in the use of tools, assembly of light furniture, and lectures on varied phases of the lumber industry in Coquille. Blocks 3 and 4: Practical Home Mechanics. This course will cover all those mechanical problems which come up in any home, repair and maintenance, attention to farm implements for those who desire, and much demonstrative teaching to make classroom discussions as practical as possible. Block 5 and 6: Mechanical Drawing. This course will deal with sketching and also free-hand drawing from both perspective and orthographic viewpoints. All three courses are open to all high school pupils and are accredited state subjects. Pupils should consult the office on Tuesday, Wednesday or Thursday. Class enrollments will be limited to reasonable numbers. First come, first served.

All rooms in the High School are now decorated, the stage has been sanded, several classroom floors have been sanded and refinished, the auditorium has 100 new chairs, and other new and needed furniture has been installed. Janitors report that the rebuilt sanding machine purchased by the board has already paid for itself in the High School alone and that it has returned its cost once again as a result of its use in the Lincoln School.

With the exception of two, all rooms in the Lincoln School have had floors sanded and refinished. Several building repairs were made and all furniture refinished.

The Washington School, oldest school building in Coquille and one of the city's first high schools, will operate with all its rooms and furniture

in excellent condition. Principal Rosabel Brown will be in the building one week previous to the opening of school to receive registrations and to confer with parents.

Assistant Principal Osika and Superintendent Lane will be in the High School office and Principal Beck in the Lincoln School. As in the High School, it is also essential that pupils in the Lincoln School confer the week previous to the opening and straighten out any schedule changes or registrations.

The staff will begin its year with six teaching changes. Resignations were due to the following reasons: one left to become a superintendent of schools, another to accept a position in the Portland High Schools, still another to enter service in the Salem schools, one went to Pendleton, one is to be married, and one other retired from the service. All janitors will continue their efficient service.

Mention should be made of the contributions of the Parent Teachers' Association to all our libraries. Additional purchases have been made and it is only a matter of time when all school libraries will be thoroughly standardized.

Concerning Grade I registrations, parents should observe these regulations. Pupils reaching the age of six on or before October 1 are eligible to enter. Pupils living east of the Herry street bridge should go to the Washington School. Pupils living west of the bridge should enter the Lincoln School. Pupils living on Spurgeon Hill may enter either school. If there is room following the opening of school, pupils who reach the age of six during the month of October may register for Grade I. Telephone either Principals Brown or Beck for information concerning this question in October. These regulations cannot be altered in the interests of the pupils as a whole and for the convenience of all parents.

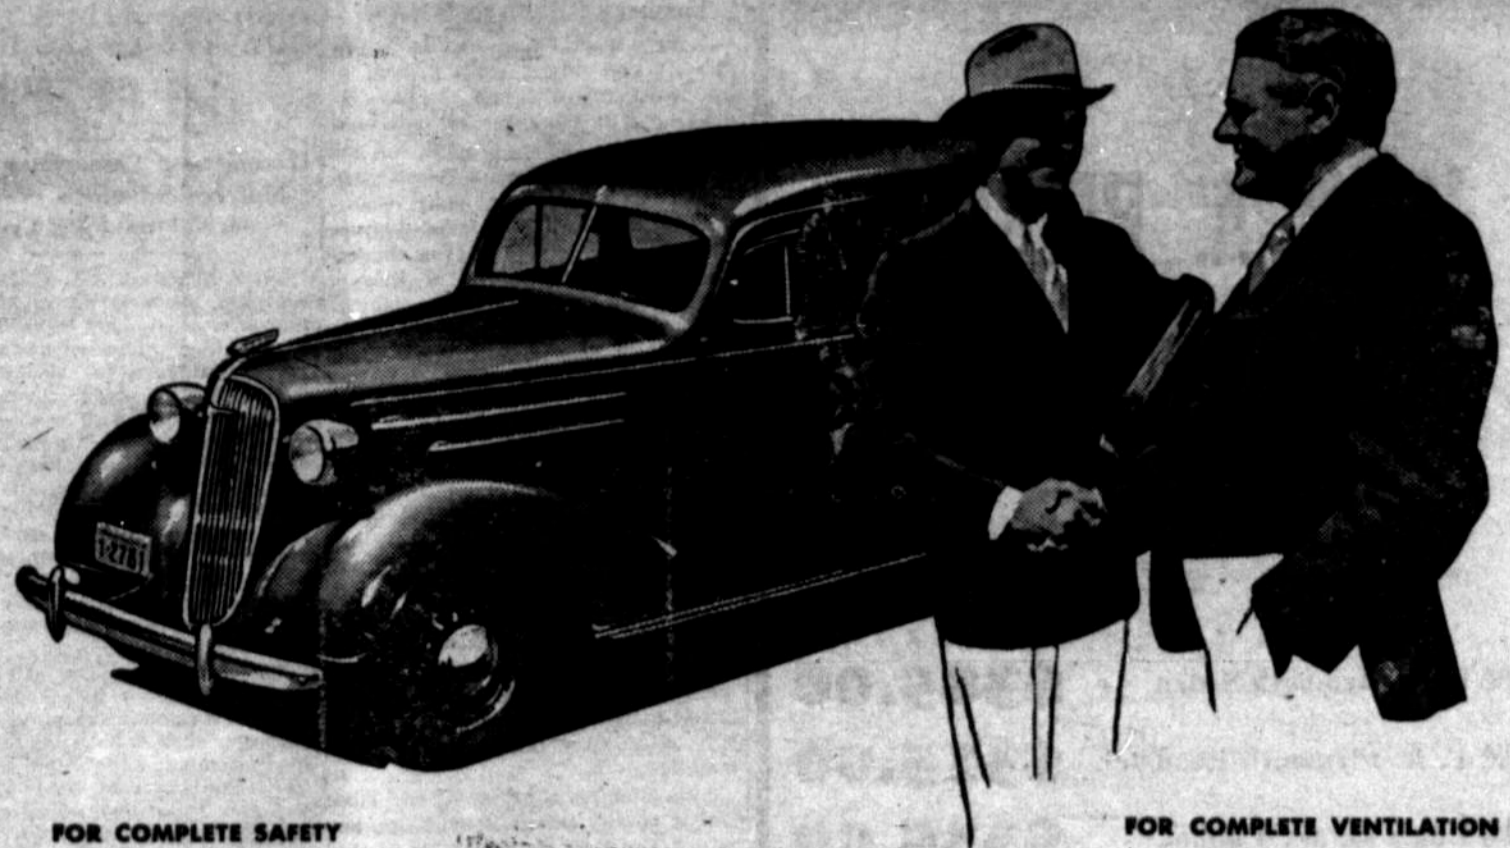

One of the urgent needs, due to present conditions and new state requirements, is that of a gymnasium. It is the plan of Superintendent Lane to secure government aid if possible and in any event to present the problem to the board and the community at an early date. Coquille is now the only high school in Coos county without a gymnasium.

The present board of education: Chairman Glaisyer, Mrs. Bryant, Dr. Bunch, School Clerk Leslie, and Superintendent Lane have been together for two years. There is no reason why the harmonious co-operation, which has characterized this group should not inaugurate and continue still another year those policies which resulted in a happy and progressive school system.

GRIMSHAW RE-CAPPING SAVES 75% TRUCK TIRE COST!

With the NEW GRIMSHAW process, you can now get thousands of extra miles from truck tires that have worn smooth. At about 25% of the new tire price, GRIMSHAW fuses a band of new, live rubber with excellent "non-skid" qualities over the smooth tread. Tremendous pressure is part of the GRIMSHAW process, which makes the new tread an integral part of the smooth tire.

The Carcass Is Not Heat-Weakened.
GRIMSHAW RE-CAPPING does not heat-weaken the worn tire. Side-walls and breaker strips are in no way distorted or damaged.

Don't Throw Away Your Smooth Tires
The carcass of any good tire will wear out three sets of treads—don't throw away "two-thirds" of your tire value. When your tires have worn smooth, don't use them for those last few dangerous miles of wear. Before the fabric shows through, send them in for a GRIMSHAW RE-CAP and SAVE 75%. ONLY THE GRIMSHAW PROCESS offers all these advantages and gives you a RELIABLE GUARANTEE.

Flood Control Hearing Set For Sept. 18 by Engineer
(Continued from Page One)

control on the Coquille River and its tributaries may be given proper consideration, a public hearing will be held by the undersigned in the City Hall, Coquille, Oregon, at 9:30 a. m., on September 18, 1936.

3. All parties interested in flood control on the Coquille River and its tributaries are invited to be present or to be represented at the above time and place, and particularly the officials of any county, city, town or local association whose interests may be affected by the desired improvement. They will be given an opportunity to express their views with reference to flood control.

4. Local interests should be prepared to state fully the character, amount and frequency of the flood losses which they have sustained and to state the extent of the improvement desired to alleviate or eliminate these losses.

5. Section 3 of the Flood Control Act of 1936 provides in part as follows: "That hereafter no money appropriated under authority of this act shall be expended on the construction of any project until agencies have given assurances satisfactory to the Secretary of War that they will (a) provide without cost to the United States all lands, easements, and rights-of-way necessary for the construction of the project, except as otherwise provided herein; (b) hold and save the United States free from damages due to the construction works; (c) with regulations prescribed by the Secretary of War."

This provision of law is mandatory and is interpreted to require that the agency assuming the responsibilities

imposed shall be a legally constituted body able to present prima facie evidence of its ability to comply with these requirements.

6. Oral statements will be heard, but for accuracy of record all important facts and arguments should be submitted in writing, in quadruplicate, as the records of the hearing will be forwarded for consideration by the War Department. Written statements may be handed to the undersigned at the hearing or be mailed to him beforehand.

BREWSTER VALLEY

The Laird Benham and Laird camp has finished its logging at Coos river and has moved all its equipment to the camp at Brewster. Mrs. Tom Krewson, who has been cooking at the camp, went home last week and Mrs. Julius Benham took her place. Little Hazel Oberman had her tonsils removed Saturday morning at the hospital in Myrtle Point. Her parents, Mr. and Mrs. Chas. Oberman, kept her in Myrtle Point that evening and brought her home Sunday. She is getting along nicely.

Mr. and Mrs. Ed Toole and sons, of Coquille, visited at the Keller home Sunday afternoon.

Mrs. Anton Yotz and Nicky and Mrs. Veta Mann took an apartment in Coquille for a couple of months and have moved from the Lawhorn house.

Mr. and Mrs. Frank Church and family, from Camas valley, visited at the C. M. Wilson home Sunday. Mrs. Church is Mr. Wilson's niece.

Harry Oerding, of Coquille, came to Christensen's Sunday for more myrtlewood.

In honor of Christina's birthday Saturday, Aug. 22, the Christensen family and Eugene and Melvin Christensen went to Bandon and spent the day on the beach.

Lowell Waggoner, of Coquille, came up Tuesday to spend a few days with his father at the Brewster Rock Lookout.

Christmas Seal Sale Institutes

Three tuberculosis Christmas Seal sale institutes will be held in Oregon early in September by C. L. Newcomb, national director of the Christmas Seal Sale, according to Saidie Orr Dunbar, executive secretary of the Oregon Tuberculosis Association. The opening session will be conducted by Mr. Newcomb in Baker September 7. He will appear at Portland September 11 and at Eugene September 12. For those county associations unable to send representatives to the three major institutes, local county sessions will be arranged. Christmas Seal sale contracts for 1936 have been mailed to the 28 county associations, according to Mrs. Dunbar. All contracts call for a per-

centage of the proceeds to be retained by the county association for local activities.

At the last executive committee meeting, needs of tuberculosis patients for hospital care were discussed. The two state tuberculosis hospitals have a waiting list of 101 patients.

Calling cards, 50 for \$1.00.
