**Terrible Swedes Score High**

Olson's Terrible Swedes lived up to their name Monday evening in the Coquille Community Building when they romped through Bill's Place to the tune of 67 to 49.

Only a small crowd saw the exhibition put on by the visitors who near the end of the game were dumping the ball through the net with their heads. Campbell, their tall center, is a dead shot and after tossing a ball from the corner would walk away, knowing full well that he had rung the bell for another two points.

It was a fast game, as the large score indicates, with very few fouls called, and the score sheet shows the Swedes did not once miss a free throw conversion.

Points by the Swedes were scored by Neely 9, Martin 11, Campbell 26, Pettingrew 6, Alexander 15. By Bill's Place: Ellis 18, McCarthy 12, Barton 6, Stonecypher 6, Yarbrough 4, Shaver 2, Morgan 1.

The Swedes are finding it small pickings. Following the Redheads, also sponsored by Olson's Beauty Shops in Missouri, they came here from Crescent City, played at Roseburg Tuesday and then jumped up into Washington for their Wednesday game.

the street. And would it not be the cleaner, finer way to settle this feud once and for all on the mat before the impartial judgment of Coquille fans assembled?

Besides, in your first skirmish of three weeks ago, I missed all the action because I happened to be in the dressing room at the moment, though I am reliably informed that Gentleman Bob Stewart had the situation well in hand.

If you boys would sign on the dotted line, I would make several training suggestions, to wit: That Bill spend a day listening to the click of billiard balls in his recreation emporium so that he can get the proper resonance in his teeth gnashing, and,

That, Lufe take an afternoon off to listen to the groans of his guests as they pay their respective bills so that his own groaning on the mat will be nothing to be sneezed at.

The Coquille Wrestling commission has advanced the novel suggestion that unless the gladiators agree to forego gouging and hair pulling that they be made to wrestle each other with boxing gloves on. I am against this suggestion for some reason or other which I have been trying to discover for a week.

But, we are all agreed on officials that is, if it is agreeable to you boys. As the regular Community Building referee declines to officiate, the commission will divulge the name of an important local referee at the last moment. This is so that this gent will not be subject to coercion by either camp. Then, Frank Schram will act as head timekeeper with two assistant timekeepers to spy on him and see that he doesn't fudge. Several judges will be named later to see that fairness is preserved, and a strong contingent will be on hand from Chief English's department to see that decorum is preserved.

The duration of the match. Three five-minute rounds, two falls out of three or a referee's decision at the end of the fifteen minutes.

Boys, the fans of the Coquille valley are holding their breath until you agree to settle the Compton-Fortier feud in the wrestling ring of the Community Building on Friday, March the 19th.

What is your answer? Very truly yours, Harry Elliott

Miss Cowgill spoke to the girls about aims and values of club work. She examined their work and gave them pointers. As an example of what can be done, she showed samples of exceptional work. At the close of the meeting the girls were given their 4-H cards to be displayed in their homes.

Ed. McCarthy, 160 lbs., vs. Lewis (Buck) Anderson, 130 lbs.

Harold Neal, 148 lbs., vs. Orville (Sleepy) Bailey, 150 lbs.

It may be seen by looking back over the list of participants that they are as a whole quite evenly matched as to weight. It is the opinion of the promoting committee that each contestant will give a good account of himself.

The Coquille high school band, under the direction of Mr. Bernath, will be present to add its melodies and rhythms to the occasion.

The committee and supervisor wish to express their appreciation to Harry Elliott, promoter of the professional bouts, for the loan of his ring and canvas and also for giving up his scheduled date of March 10, so that the amateur bouts could be held on that night.

**Crop and Feed Loan Applications Now Being Received**

Applicants for emergency crop and feed loans for 1937 are now being received at Coquille by Geo. H. Jenkins, county agent, for the Emergency Crop and Feed Loan Section of the Farm Credit Administration.

These loans will be made only to farmers who cannot obtain credit from any other source, as provided by regulations issued by the Governor of the Farm Credit Administration. The money loaned will be limited to the farmer's immediate and actual cash needs for growing his 1937 crops or for the purchase of feed for livestock and in no instance may exceed \$400.

Farmers are not eligible for these loans if they can borrow from an individual, production credit association, bank, or other concern. Emergency crop and feed loans will not be made by the Farm Credit Administration to standard rehabilitation clients of the Resettlement Administration whose current needs are provided for by Resettlement.

As in the past, the security for these loans will consist of a first lien on the crop financed if the loan is for the production of crops, and if for the purchase of feed for livestock, then a first lien on the livestock to be fed. Landlords, or others having an interest in the crops or the livestock to be fed, will be required to waive their claims in favor of the lien to the Governor of the Farm Credit Administration until the loan is repaid.

Checks in payment of the approved loans will be issued by the Regional Emergency Crop and Feed Loan Office at Spokane, Wash.

She's a great wife — if she doesn't weaken

Lift Her Load with the Modern Electrical Servant  
—His Wages are so Very Low!

Do you think housework is easy? Have you ever stayed home for a day and followed your wife through her schedule? Cooking, cleaning, scrubbing, attending to the thousand and one wants and difficulties of the children—it's a wonder housewives and Mothers hold out as long as they do—that is of course

those who are still trying to get along without the help of modern electrical servants. Electricity won't tend the baby, but it will keep his milk pure and unspoiled and heat the water for washing his clothes. It will also cook his food and the family's more appetizingly than is possible in any other way.
