

H. S. Boys Net \$55 from Their Amateur Card

The high school athletic fund netted \$55.21 from the amateur boxing card presented in the Community Building Wednesday evening, which was attended by several hundred students, children and adults.

In the main boxing event Ole Chard, 110, took the decision from Zoe Sinclair, who outweighed him five pounds.

Dee Krantz, 165, won over Bill Vincent, 155; Everett Smith, 160, decisioned Lewis Williams, 160; Don Landaker, 137, won the referee's nod over Jim Leatherwood, 137; and Ted Schaefer, 114, outclassed his 114 opponent, Phillip Stock.

Draws were declared by Referee Stanley Fitzgerald in the Jimmie Williams-Russell Konrad bout, each weighing, 141, and the Arlie Knife, 135, vs. James Allen, 138, match. Each bout was for three two-minute rounds.

In a battle royal Eugene Davis and Ralph Peery were declared to have gone to a draw after Wallis Willis and Richard Jensen had been eliminated. The youngsters hardly got the idea for instead of three ganging up on the larger Peery boy, they squared off in couples, with the result that the smaller boys were quickly out.

In the wrestling part of the program Orville Bailey, 150, could not handle Harold Neal, 148, who pinned Bailey twice. Eugene Vaughan, 140, who from Charles Van Meter, who outweighed him 15 pounds, and in the curtain raiser, Edward McCarthy, 160, disposed of his 130 pound antagonist, Buck Anderson.

These three rounds, or two falls out of three wrestling bouts were refereed by Harry Hunt.

No managers of individual athletes were in evidence, but the seconds and handlers certainly put in a busy two hours and a half.

The high school band furnished several enjoyable numbers before and during the program.

Red Devils Will Not Participate in Tournament

The Coquille Red Devils closed what might be termed a disastrous basketball season last Friday evening when they lost to the Bobcats at Myrtle Point by an 11 to 25 score.

The second casualty of the season happened in the last few minutes of play when Ralph Fuhrman suffered a sprained ankle from a fall.

Not having won a game in either district nor county conference, the Red Devils do not participate in the tournament which opens at seven o'clock this evening in the armory at Marshfield with Myrtle Point meeting Roseburg in the first game, and North Bend and Marshfield in the second.

The Friday night winners will play one another Saturday night to decide which quint shall represent the southwestern Oregon district in the state tournament at Salem next week. The Friday evening losers will play in the preliminary game Saturday night.

Judge Grants Five Divorces

Judge Brand granted five divorces in circuit court here on Wednesday, to the plaintiffs in the following cases: Henry A. Eaton vs. Julia Eaton. Kenneth W. Cutler vs. Marjorie Cutler.

Gertrude A. Bynon vs. Geo. E. Bynon.

Alta M. Fogel vs. Cyril L. Fogel. Elizabeth Chapman vs. Hugh E. Chapman.

Karacul Sheep Strong
Karacul sheep are noted for their hardiness and ability to thrive under adverse conditions. The mature animal develops a lustrous but coarse wool, which is used in the manufacture of rugs, carpets, blankets and robes. Because of its limited uses, the wool from the karacul generally sells from one-half to three-fourths the price paid for good-quality white wool.

Funeral Services for Clinton Burr Held Wednesday

Below is printed the obituary notice given by Earl F. Downing, of the Church of Christ, at the funeral services held for Clinton Burr at the Schroeder Bros. Mortuaries here, at two o'clock Wednesday afternoon:

Clinton Burr was born in this city on October 2, 1920. He passed from this life March 6, at the age of 16 years, five months and four days. All his life was lived in Coquille and vicinity.

His school life began in Coquille under the instruction of Mrs. Chase. He was active in school functions and at different times held various offices in student organizations. At the time of his death, he was a member of the junior class of the local high school.

Clinton was well liked by his teachers, fellow-students, and townspeople who knew him. He was interested in farm life particularly, was a great home boy, and had a cheerful, kind, helpful and industrious disposition. Clippings of recent date found in his room revealed his interest in government affairs and in such movements as the Boy Scouts.

Those left of the immediate family to mourn his departure are: his parents, Mr. and Mrs. Geo. Burr; two sisters, Irene and Mary Burr; one brother, Ronald; his sister-in-law, Mrs. Ronald Burr; and one nephew, Ernest Burr.

Other relatives surviving are his grandfather, four great aunts and one great uncle, residents in the state of Washington; five great aunts and uncles residing in Wisconsin; three aunts and two uncles and ten cousins, all of his father's family; and five great aunts, four great uncles, three aunts, and eleven cousins of his mother's family. As can be seen from the list of survivors he is of a family marked for long life for four generations survive him. His death is the first death occurring in the immediate family. Also no deaths have occurred among his cousins or aunts or uncles except one aunt, a sister of his father who died in infancy.

Clinton was a descendant of pioneers on both the paternal and maternal sides of the family. His paternal grandfather, and relatives were early settlers in Cowlitz county, Washington, in the vicinity of what is now Longview. Likewise on the maternal side his relatives were early

settlers in Coos and Douglas counties and his body was laid to rest in the cemetery at Norway, in which his great grandfather and great grandmother, and grandfather and grandmother Clinton, pioneers in this country, are buried.

Two Bandon Men Pass Away in Coquille

George D. DeOs, for many years a resident of the Four Mile county, south of Bandon, passed away at the Coquille Hospital on Sunday morning, March 7, at the age of 65 years, two months and 15 days. While he had been ailing for some time his condition was not considered serious until Thursday of last week when he took a sudden turn for the worse. He was immediately taken to the hospital.

Deceased is survived by three sons, Jasper, Lawrence and Ernest. His wife died seven years ago.

Funeral services were held at the Schroeder Bros. chapel in Coquille Tuesday afternoon. Interment followed in the I. O. O. F. cemetery in Bandon.

Franklin Dudley Austin died at the Coquille Hospital at 3:00 a. m. Tuesday, March 9, 1937, after a severe illness of several weeks, following a period of failing health covering the past two years. He was taken to the hospital on March 1. He was 71 years, nine months and nine days of age.

Deceased was born near Bellebrook, Ohio, May 30, 1865. He was married to Joanna Foster on April 18, 1888 at Springfield, Ohio.

Mr. and Mrs. Austin came to Bandon about 22 years ago. When the hydro-electric plant was built on Willow creek for the City of Bandon, Mr. Austin was placed in charge of its operation and he has held that position since.

The deceased is survived by his widow; one brother, Nathan, living at Waynesville, Ohio, and one sister, Martha, living at Dayton, Ohio.

Funeral services were held at the Schroeder chapel in Coquille yesterday, at 2:30 p. m., with Rev. W. S. Smith officiating. Interment will be made later at Albany, Oregon—Western World.

Many Dairymen Fail to Balance Their Rations

Many stock keepers fail to balance their rations because they feel it necessary to feed what they have at hand. For example: A farmer may have a large supply of alfalfa or clover and, knowing that this is an excellent feed, especially for dairy stock, he will feed too much protein, which will result in a loss of feed as well as production.

It probably would pay him very well to sell some of his alfalfa and buy corn or barley. On the other hand, he may have a large supply of timothy hay, corn silage and corn, and his rations woefully lack protein as well as minerals; for in our protein feeds we generally have a high per cent of minerals and vitamins.

There are many feeds in the form of forage, grain or mill stuff, and in any state or county they generally can be produced in sufficient quantities and at low enough prices to warrant profitable production of stock and stock products. But to obtain results it is necessary to give the animal a balance as to protein and carbohydrates. This also applies to minerals.

Dairy Hints

The effects of scant pasture in summer last far into the winter.

There are no known cures for abortion but there are precautions.

The price of butterfat is always highest in fall, winter, and early spring.

Cream can be more easily and more economically handled in the cooler weather.

Feeding good cows is more profitable than feeding poor ones. Cull out the poorer animals.

Butterfat production depends upon the inherited producing qualities of the cow, the kind and amount of feed, and the care and management given the cow.

Calling cards, 50 for \$1.00.

Chevrolet Production In Full Swing
Resumption of manufacturing activities at the two Chevrolet plants in Oakland is a pleasant prospect to Gerald Loraine who punches his time preparatory to building 1937 models for the western states. Below—airview of the Chevrolet Plant No. 1 and the Fisher Body plant on Foot-hill Boulevard. Chevrolet Plant No. 2, devoted to the manufacture of trucks and commercial cars, is the former Durant plant on E. 14th St. It was purchased last Spring to meet augmented demand from Chevrolet's western dealers.

PHOTO of a LADY
SHE has an Automatic Electric Water Heater in Her Home!
HOW do some people manage to cover so much ground, to go to so many places, to meet so many people—and yet, through it all, seem fresh and smiling always? The answer is, they have learned how to take care of themselves, even under high pressure conditions. One of the things they have discovered is that instant hot water, ready at the turn of a faucet, helps to refreshment and relaxation, soothes tired nerves, takes the lines out of the face, keeps one looking clean, alert, fit.
And the best thing about it is that the new low Water Heater Electric Rate and efficient automatic water heaters, with their economical use of current, have brought instant hot water within the reach of almost every family, even those with small incomes.
