"You can't leave your car here, miss."
"But, constable, it's a cul-de-sac."
"I don't care if it's a Rolls-Royce, you'll have to move it."

Pod Shot
"Suppose," queried the C.M.T.C. officer, "the enemy were gathered over yonder as thick as peas. What would you do?"
"Shell 'em, sir," replied the recruit.

THAT'S THAT

"Hunter tells me he's going to marry an heiress. I asked what her age was and he couldn't say."
"My boy, it isn't her age Hunter is interested in; it's her heritage."

A Suggestion
Lecturer—You see, nothing is impossible.
Voice—I'd still like to see you stick an umbrella down your throat and sneeze it.

Council Has a Busy Session Monday Evening

sible to have fuel delivered and drive cars from their homes to the paved streets.

The council agreed to grade the streets, as soon as the ground is dry enough, and superintend the placing of the gravel if the property benefited would collect the necessary funds for buying and hauling the gravel and put it into the city's hands for disbursement. The petitioners agreed to do this.

In making application for the eight-inch water main to the Arrow Mill Co. plant, J. Arthur Berg said that the company would start construction of their sawmill as soon as Mr. Jamieson arrives from Chicago, the last of the week or next. The company expects to install a huge tank there also.

The council told Mr. Berg that the larger main would be installed.

The request of Mrs. J. C. Watson for the extension of the water line on north Elliott, for 200 feet, through the subdivision she has just platted, all of which is within the city limits, was granted, the extension to be made when the need arises.

A petition, signed by a dozen or more in and near Ko-Keel Village, that the noise at night at the Western Condensing Co. plant be abated, was laid over until the next meeting. Mr. Berg said that the installation of the new boilers had just been completed, but that the steam popping off was something that could not be avoided in an industrial plant. The council members will investigate and learn if the completion of the boiler installation has removed the cause for the complaint.

STATES HAVE OPPORTUNITY TO SHOW WARES IN HUGE BUILDING AT NEW YORK FAIR

NEW YORK, (Special)—Included in the limited edition book of unusual size and beauty which the New York World's Fair 1939 incorporated has sent to state governors and, through diplomatic channels, to foreign governments, is the following text devoted to:

The Sovereign States of the Federal Union

George Washington, in declaring that the public felicity and prosperity of America depend upon the firm union and the unceasing cooperation of the sovereign American States, divined the future. The prosperity and the greatness of these United States have arisen from the free and unimpeded circulation of ideas and products in the world's greatest consumer market.

The Fair gives to each State the appropriate setting and opportunity to announce to the world its unique and indispensable contribution to America's rich and colorful civilization. The Fair contemplates a Hall of States, in the imposing Government group and flanking the structure which the Fair looks to the United States to build, to house the exhibits of the forty-eight States, and the Territories. Those wishing to participate more extensively will, in addition to their exhibits in the Hall of States, either erect their own buildings or obtain space to display their products and attractions in one or more of the exhibit zones.

The State of New York has naturally taken the leadership in the participation of the sovereign States of the Federal Union. Its total appropriation for Fair purposes may exceed \$5,000,000, and the New York State World's Fair Commission, appointed by the Governor, has been active for some time. Other States already are beginning to express enthusiastic interest in participating more extensively than at previous world's fairs. The many visitors will find a fresh cause for pride and enthusiasm in the revealing exhibits of their respective States. But beyond this, the exhibits will enable the States to make a persuasive presentation to all visitors of what they have to offer to the consumer and the tourist.

Before the Hall of States, at the New York Fair, a Bridge Night Fair is in Review
