The Garden Bug

It is still a little too wet to do much in the garden, but if your soil has been previously prepared, you can plant a few gladiolus bulbs for early bloom. The Myrtle Gardens have 25c packages containing a dozen bulbs of 12 different named varieties or two each of six varieties. Then you can buy named sorts by the dozen at 50c.

This is the right time to choose your primroses in bloom, and no harm can come from moving them at this time if the job is done with a little care. Myrtle Gardens will be glad to dig them up and pack them in such a manner that you may bring them home without disturbance.

Shop there for a new shrub, too, to replace overgrown or damaged bushes in your yard, or to fill a bare-looking line of your house or garage that needs softening.

This is open season on rose bushes. If you haven't a rose garden yet, resolve to have one this year. It is not too late by any means. The clay soil in this section is just what roses thrive in. If you suspect that it is rather poor, Eaton's Feed Store or Coos Feed Store can supply you with peat moss, bone meal and Vigoro or Morecrop, which will create an ideal condition for rose success. Prepare the soil deeply so that the roots may reach down deep. Roses love cool roots. If manure is used at all, make sure that it is very well rotted and well mixed with the soil. Wood ashes incorporated with the soil assist with drainage and furnish potash, which is valuable to rose culture.

Hardy disease-resistant bushes can be obtained from Josephine Brockmann's new stock of two-year, grafted, No. 1's in all wanted colors and proven varieties. Mrs. Brockmann has tried out forty-four widely advertised varieties. Some are well adapted to this climate others have been discarded as unsatisfactory. From the results of these experiments the new stock has been ordered with the needs of this location in mind.

The damp summer evenings and foggy nights have heretofore made rose-growing in Coos county a rather discouraging pastime on account of the inroads of blackspot. Scientific research has produced simple remedies for this objection, so that Coquille, by reason of its cooler summers can now compete with Portland

for rose fame. Before the earwigs and slugs defeat all your garden efforts, drop in at Coos Feed Store or Eaton's and buy a box of Snarol. This is a poison bait that exterminates these pests with a few applications. Always put this bait under boards or sacks or empty halves of grapefruit skins. These are the places the slugs, cutworms and earwigs congregate, and fowls and wild birds will not be destroyed when the bait is covered. If your neighbors don't put out bait when you do, your efforts will not be very effective, for their pests will move into your garden. Why not seek co-operation in spreading bait.

I knew a tactful lady one time who was having little success interesting her neighbors in pest control, so she bought ten pounds of cheap stock bran from her local seed store, mixed it with one pound lead arsenate and stirred in about a quart of stock molasses. Having made the mixture, she distributed it to her neighbors, explaining that she had made up more than she was able to use and she thought they might like to put it on their own gardens. Most of them were glad to co-operate and for a trifling sum the whole block was kept free from pests. The boxes of Snarol cost from 25c to 60c and are ample for the average garden, but if you plan to bait the whole block, better mix your own!

Mrs. Holmstrom's Wedding at Gardiner Recalled

The favorable publicity which "Buzz" Holmstrom, of Coquille, is receiving on account of his exploit in "shooting the Colorado," brings to minds of old-timers items of interest concerning the family. Our Ada correspondent offers the following: "In line with the general interest manifested in the Saturday Evening Post story of the running of the Colorado River by Buzz Holmstrom, and the fact that he was born on the Schofield, Mrs. W. A. Smiley recalls that the young river runner's parents were

married in the Smiley home in Gardiner. The event was thirty or more years ago. Mrs. Holmstrom was Miss Frances Johnson, and taught the Schofield school prior to her marriage.—Reedsport Courier.
