

## People and Spots in the Late News

**AERIAL HITCH-HIKE** . . . Revolutionary "pickaback" airplane, shown here in test at Rochester, England, takes off as one plane, lands as two, for small seaplane can leave "mother-ship" at 700 feet.

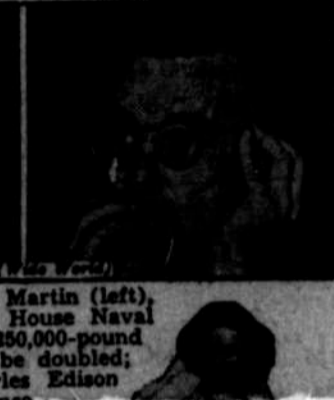

**"OBJECTION SUSTAINED"** . . . Paul McCallister, 3 months old, of Newville, Pa., clutches justice's gavel in court which returned him to parents after neighbors had held him for weeks because bill for his board had not been paid.

**SOUTHPAW NET QUEEN** . . . Pretty Marta Barnett of Miami, Florida state titleholder, smashes one over to beat Nellie Sheer for coveted Miami-Biltmore women's tennis championship.

**WARN U. S. TO ARM** . . . Glenn L. Martin (left), designer of "Clipper" planes, told House Naval Affairs committee of plans for 250,000-pound bomber and urged air armaments be doubled; Assistant Secretary of Navy Charles Edison (right) says he is in advance defense.

**DINNERS BENEFIT CHINESE VICTIMS** . . . Roger S. Greene, former vice-president of Rockefeller Foundation in Far East, practices chopsticks technique with Dr. Co Tui, executive chairman of American Bureau for Medical Aid to China, at first of series of Chinese dinners in New York to raise funds for Chinese civilians suffering at hands of Japanese invaders.

**SYLPH IN SATIN** . . . Cape of white terry cloth sets off marine blue of latex slipper satin swim suit worn by this slim socialite at British Colonial as she prepares for dip in surf off Nassau.

### Jailed for Disorderly Conduct, Larceny, Drunkenness

Elbert Henest was brought up last Saturday from Bandon, where he had been found guilty in justice court of drunken and disorderly conduct, to serve out a \$25 fine.

Five men were brought over from Marshfield Monday to serve time as the result of a big row in a boat house on Coos Bay, Sunday. Clarence Bate-man, R. L. Stabile, Bob Harrison and Cleo Carson were given ten days each on a disorderly conduct charge. Lloyd

Percy Hale was given 30 days on a vagrancy charge. Wm. F. Miller, charged with larceny of chickens at the Bay, was brought to jail here Monday. He had not yet pleaded this morning.

**Title for Belts in China**  
Girdles, sashes, or belts, have long been worn in China, as a part of the official costume, and by gentlemen in the higher classes of society. They were once known under the somewhat quaint and singular title of "cloudy dragon court belts, white as the fat of sheep."

**Have "All-Day Cigarettes"**  
The Burmese, inveterate smokers, delight in puffing an "all-day cigarette." From one to two feet in length and two inches in diameter, these cigarettes are of sufficient size to serve an entire family, including the baby, from morning until night. In fact, says Collier's Weekly, they are usually so large and heavy up to noon that they may be used as weapons of defense.

**Admiral Farragut in War**  
Admiral Farragut fought in the War of 1812, the Mexican war and the Civil war.

### Walter Norblad for Congress

Walter Norblad, of Astoria, who has filled with the secretary of state as candidate to oppose Jas. W. Mott for the republican nomination for congress in this, the first district of Oregon, is 30 years of age, has been state representative from Clatsop county for the past four sessions. He

is the son of former Gov. Al Norblad and has made a good record in his various official capacities. He sends the Sentinel the following statement—it can hardly be called his platform—of what he believes the republican party needs at the present time:

"Believes that for republican success, both nationally and in the state, it is necessary to:  
"Offer younger candidates and younger leadership that will actively and aggressively solicit a wider membership in the party which will embrace all classes of people, and,  
"Broaden the platform to conform to constructive, modern, economic and social thought and not continue to stand pat on discarded and obsolete principles which have proved to be the dry-rot of Republicanism."

### Friday's Wrestling Card Has Good Line-up

(Continued from Page One)

quille before and is well known to mat enthusiasts here who sometimes pay their admission just for the privilege of venting their spleen on the stage. Mr. O'Dowdy, who seems to flourish on such treatment. He is as temperamental as a female bear—just coming out of hibernation and as flighty as a gull in a gale. With all his fist throwing and illegal tactics he is as colorful as Bulldog Jackson himself.

Wagner may be said to be the most acrobatic wrestler who has ever hit this territory. His favorite parlor joke is to grasp a gent around the neck and then kick him with both feet in the chin. So far he has only employed these tactics in the ring and doesn't as yet go around greeting his friends in this manner. When that unhappy time comes George will probably lose a lot of his staunch admirers. So far, he can claim to have the largest following of any scientific grappler in the northwest.

Wagner is not only an expert drop kicker but has made improvements on numerous other popular holds such as the Irish whip, the crucifix and the crossbow.

In addition to this, Wagner recently won the Pacific Coast Middle-weight belt in a furiously contested match against Jack Lipscomb. This will mean money in George's pocket for as long as he can hold the title. Since he is a level headed chap he is liable to hold it for quite some time. The match against O'Dowdy Friday night at the Coquille Community Building will not be for the title as commission rules do not require him to post the belt so soon after winning it. However, there is a good chance that Promoter Elliott will be able to sign up Wagner for a title match in Coquille later—which should be welcome news for valley folks.

In the semi-final of 45 minutes a brilliant match will be the one between Curly Donchin, sensational Jewish boy of Philadelphia, and Gust Johnson, who left Sweden when he was 18 years old. This will also be for two falls out of three.

These men are both athletes of the highest caliber and again Promoter Elliott is to be congratulated on such a match. It is doubtful if a single blow will be struck in this match, though you can never tell in such a contest. Sometimes the cleanest match will end in a blaze of fisticuffs.

For the 30-minute prelim Don Nemanic, of San Francisco, will meet either Flash Kelly or Elton Owen, brilliant young star of the grappling game. Harry has signed up both Kelly and Owen and has his pick of either to use against Nemanic. It is likely that he will use Owen as this boy has made a hit with southwestern Oregon fans.

Ringside seats will be on sale at Bill Place in Coquille.

Calling cards, 50 for \$1.00.

### "UNREAL REALITIES"

#### OIL FROM WATER

Summerland, California, offers to the bewildered onlooker a sight rarely seen in this world—oil flowing out of water, or so it seems. And not only flowing, but gushing! Oil wells on the floor of the ocean are the secret of this strange spectacle—black gold from the blue Pacific!

#### SKULLS ON A HILLSIDE

According to legend, when the "Flood" came, all the Indians climbed Bare Hill. But there a great serpent began devouring them until only one was left. This brave shot the serpent which rolled down the hill stripping it bare of trees and disgorging the heads of his victims. Peculiar skull-shaped stones are still found at the foot of Bare Hill on Canandaigua Lake, New York.

#### WONDERLAND OF ROCKS

Not far from Tucson, Arizona, all manner of men, beasts, and fowl have been carved in stone by the winds and waters of many million years. These grotesque figures in the Wonderland of Rocks—thousands of acres of them—have served as the hiding place of many an outlaw of the Old Southwest.

#### 48,500 CITIES AND TOWNS

in the United States are served by only one form of public transportation . . . motor-buses. The Greyhound Lines serve more communities than any other travel agency.

### In the Dressing Room

(By Don Bailey)

Coach Hal Hatton will call for his track candidates the last of this week or on Monday of next week. The material this year is very slim so far as lettermen are concerned, there only being three back from last year and one of them is not going out for track this year. The other two are Dee Krantz and E. Smith. There are, however, other boys who look like good material for the 440 or 880 yard dashes but you can't tell anything about it until they have tried out or run in competition with someone else. Practice only will bring out any new material if there is any to be found.

If anyone will look up the past turnouts, they will find that an average of eight or ten men turn out each year. No coach can make a team out of so few. Encourage the boys to turn out and with a big squad available, the coach can put out a track team; otherwise not.

Last Friday the basketball boys received their letters. Each player had to play in sixteen or more quarters to be eligible for a letter. A. Bailey received his fourth letter, to end a great basketball career with Coquille High. He was on the all-tournament team his freshman and senior years and on all-county team his senior year.

R. Fuhrman received his third letter and we can expect a bigger and better year next season from him. R. Walker, E. Smith, M. Goodman, all received their second letters. R. Walker will leave the squad this year with a great defensive season behind him. E. Smith and Goodman have two more years ahead of them.

R. Sproul, R. Arnold, J. Shambow and "Chuck" Rowell received their first red and white basketball letters. Rowell will receive his diploma in May and will not be back. The rest will be back for more next season.

The football and basketball finances of this year will come out about even with the board. This is the first time in seven years this has happened in C. H. C.

#### Once "Gibraltar of America"

The Virgin Islands' capital, St. Thomas, or Charlotte Amalie, was once termed the "Gibraltar of America." St. Thomas is the home of the bay rum industry, but the trees grow on a neighboring island. There the work of coaling steamers is done by women. Each one carries approximately a basket of coal nicely balanced upon her head.

#### Spiders' Ingenious Scheme

A certain species of young spiders, in order to emancipate themselves early, to conquer space and to disperse themselves about the world, resort to an ingenious scheme of aviation. They gain the highest point of a thicket and release threads which, seized by the wind, carry them away suspended.

#### Wore Gems on Certain Days

Besides believing in the special powers of gems, English scientists of long ago introduced the fashion of wearing certain stones on certain days of the week. Brilliant, moonstones, and pale stones in general, were the correct thing for Mondays. Red stones were for Tuesdays. Friday was the day to wear emeralds.

#### Church Used for Prayer

Near Marble arch in London is the chapel of the Ascension, said to be the only Christian church in the world used exclusively for prayer.

### Good Will Toward Coquille

Expressed by Minter

(Continued from Page One)

Washington labor council would have over-ruled the decision and would have placed the local plant on the unfair list which would have meant that no A. F. of L. members could have been employed there, even when orders made operation possible.

Mr. Minter expressed the friendliest feelings on the part of himself and of the union members for Coquille, its people, and for the plant which employs them and hoped that relations would always be harmonious.

J. E. Norton made one of the best short talks we have ever heard him make, following Mr. Minter, and intimated that the "loose talk" suggestion on credit was given the Times by a bay man who constantly tries to stir up trouble between Coquille and Marshfield and endeavors to control the actions of the local unions.

Mr. Norton also made a point of the fact that labor is just as much influenced by the law of supply and demand as is any article of merchandise or service and that when people do not have the money to buy, the price drops to a lower level, and he asserted that the supply now exceeds the demand and that prices must drop. That economic law cannot be regulated by government fiat or price fixing, for very long.

#### Fleets of Harbors

Jamaica in the British West Indies has sixteen harbors, chief of which are Kingston, Port Morant, Old Harbour, Montego bay, Falmouth, St. Ann's bay, Port Maria and Port Antonio.

#### Buried in Westminster Abbey

Henry Purcell, the father of English music, was the first musician to be buried in Westminster abbey. He was the organist of Westminster abbey and died in 1695.

## FLYING KITES

Never fly your kite near electric lines or use wire for kite string as you are liable to be injured from contact with the electric lines. Even a damp cotton string is a conductor of electricity, so be very careful and always fly your kite in an open space where there are no electric lines. I certainly do not want any of my friends to be injured while playing.
