The Tip Top

So-called Bargain Waves?

Something everyone should read is printed on page 54 of the "Mademoiselle" magazine, May issue of 1933.

As everyone knows Living has not come down, Rents have not come down, Beauty Supplies have not come down. You should be skeptical of Bargain waves. The hair is very porous in this section of the country, so know your operator and know what she is using. Bootleg solutions can be ruinous to your hair.

Come in and have a test curl before you decide on the permanent you want. See for yourself. We do not fool you.

The only authorized dealers of the Zotos Machineless waves in Coquille. The children love the machineless waves and they are so much easier on them.
