SALE OF OBSOLETE EQUIPMENT AND SCRAP MATERIALS

The Oregon State Highway Commission has for sale an assortment of obsolete equipment and parts located at the Highway Department Equipment Plant at Salem and a collection of scrap materials located at each of the four Highway Equipment Plants at Salem, LaGrande, Klamath Falls, and Coquille. Partial lists of the various kinds of equipment and scrap materials are as follows:

Obsolete Equipment at Salem: generator, motors, truck parts, gas engines, compressors, presses, etc.

Junk Materials at Salem: scrap steel, cast iron, aluminum, bronze, radiator cores, batteries, tires, tubes, etc.

Junk Materials at LaGrande: scrap steel, cast iron, brass, radiator cores, batteries, tires and tubes.

Junk Materials at Klamath Falls: scrap steel, cast iron, bronze, radiator cores, batteries, tires and tubes.

Junk Materials at Coquille: scrap steel, cast iron, brass, radiator cores, batteries, tires and tubes.

Sealed bids for the purchase of all or any one piece of the obsolete equipment and for all or any one class of the junk materials will be received by the Commission in the Auditorium, third floor, Public Service Building, Portland, Oregon, at 9:00 o'clock a. m. on Thursday, June 30, 1938.

Proposal blanks and full information for bidders may be obtained at the office of the State Highway Commission, Room 322, State Office Building, Salem, Oregon. Separate proposal blanks have been prepared for each one of the above five groups or articles. The bidder should specify which ones are desired when requesting the proposal forms.

Each bid must be submitted on a proposal form obtained from the State Highway Commission and must be accompanied by a certified check or bank draft in an amount not less than ten (10) per cent of the total amount bid where the total amount is over \$50; and twenty-five (25) per cent of the total amount bid where the total amount is \$50 or less. The right is reserved to reject any or all proposals or to accept the proposal deemed best for the State of Oregon.

OREGON STATE HIGHWAY COMMISSION
By: H. B. Glaisyer, Secretary

WARRANT REDEMPTION NOTICE
Notice is hereby given that all warrants issued before April 3, 1938, by School District No. 47, Coos County, Oregon, have been called for payment and interest on them has ceased.
Dated June 9, 1938.
Adolphus Hayes,
Clerk S. D. No. 47,
Gaylord, Ore.

2113

CALL FOR WOOD BIDS
The Board of Directors of School District, No. 8, will receive bids for 100 cords of 4-foot old growth fir, 50 cords to be delivered to the Washington building and 50 cords to the Lincoln building. Bids to be in the hands of the clerk by June 25. The board reserves the right to reject any or all bids.
Keith Leslie,
Clerk School Dist. No. 8
Coquille, Ore.

Calling cards, 20 for \$1.00.

Annual Meeting of The First Church of Christ, Scientist, Boston, Mass., June 6, 1938

A warning to nations "whose governments have been conceived largely in selfish ambition and brought forth by human force" was issued at the annual meeting of The First Church of Christ, Scientist, held in Boston, Mass., recently. The Mother Church, by The Christian Science Board of Directors declared the lessons of history show that governing bodies to be "of few days and full of trouble."

Reports disclosed continued growth of the Christian Science movement, increasingly higher standards for authorized periodicals, and a larger number of requests from groups of non-Scientists for representative Christian Scientists to address them. Election of Ralph Hasting Knapp, C. S., of Needham, Mass., as President of The Mother Church was announced. He succeeds Judge Clifford P. Smith, of Newton, Massachusetts. Edward L. Ripley, of Brookline, and Ezra W. Palmer, of Marshfield, were re-elected Treasurer and Clerk of the Church respectively. The President is elected by The Christian Science Board of Directors to serve for one year.

Directors reported that The Mother Church has grown substantially in numbers during the past year; is united, harmonious, and without debt. The Board of Directors expressed the need for spiritualizing consciousness. "The way of accomplishment," he said, "is through renewed consecration; a greater purification of sense and self; more love for God and humanity."

Judge Smith, retiring President, related several incidents of healing in which Mrs. Eddy's work, as a practitioner of Christian Science was demonstrated. In one instance, he said, "about 1872 when Mrs. Eddy lived in Lynn, she heard that an acquaintance named Mrs. Edgecomb was in great trouble, and went to see her. The trouble was that her little boy was extremely ill from what a physician had diagnosed as a chronic disease of the bowels. As Mrs. Edgecomb afterward related, Mrs. Eddy took the child from his crib, held him in her arms for a while, kissed him, laid him down again, and went out. His symptoms changed at once. In less than an hour, he called for his playthings, got up, and appeared quite well. And he proved to be completely cured."

Judge Smith further disclosed that one of the most notable facts concerning the discoverer and founder of Christian Science is the assurance which she constantly had that its teachings came to her through inspiration and revelation. "In fact," he told the meeting, "she studied her writings regularly to learn from

them."
The report of The Christian Science board of lectureship, read by Richard J. Davis, chairman, told of 3211 lectures delivered during the past year.

The lecture held at Baguio, in the Philippine Islands, was unique, he said, for in the audience there were about 60 native Igorots, one of them introduced the lecturer. In Tasmania a lecture was broadcast for the first time.

Price Discrimination Illegal in Oregon

It is now illegal to sell merchandise in Oregon for less than cost, or to discriminate in price between customers for merchandise of like grade and quality, we are reminded by information received from the Oregon Business & Investors, Inc. office in Portland. Oregon's anti-price discrimination act went into effect May 21, after being held up almost a year by a referendum action, which referendum is now squashed.

This new law applies also to service trade, we are informed, such as laundries, dry cleaning, and processing personal property such as drying prunes or hops.

The Oregon anti-price discrimination act is similar to the Federal Robinson-Patman law, which was passed to give protection to independent merchants against secret rebates and price discriminations by large and small distributors of merchandise.

It is interesting to note that there is no method set up in the law whereby it will be enforced except as each trade group sets up a policy or enforcement committee similar to the enforcement committees set up under the old NRA procedure. Already in Portland, we learn, retail grocers, building material dealers and other trade groups, are setting up such committees to police the enforcement of the new Oregon law. The Federal Robinson-Patman law is enforced by the Federal Trade Commission, but no such enforcement agency is provided for the Oregon law.

The new Oregon law regulating prices that can be charged for merchandise or "service trade" output, provides that an offender can be put in jail and fined if he cannot justify his prices against a charge of discrimination. Triple damages are also provided for, and buyers can be equally guilty with sellers of merchandise if prices charged or accepted tend to create a monopoly or discriminate.

While the new Oregon laws was passed by the 1937 legislature for the purpose of protecting grocers and druggists in particular, against "loss leader" competition, actually the law affects all commerce within the state, and each business transaction must be examined carefully, we are informed

Clothing Special

Free Shoes

Free Hats

With each suit purchased from our stock before July 4th, we are going to give

— Absolutely Free —

Your Choice of either

A \$5 Hat or a \$5 Pair Shoes

An Invitation—and a Promise

We want to extend a hearty invitation to all our customers and friends to come in and see our new selection of Curlee Suits for the Summer season. When you do this—we can promise you a real treat.

You'll find these new Curlee Suits outstandingly styled in the modern trend by Curlee's expert designers. You'll find the same quality workmanship that has kept Curlee Clothes in the lead for many years. You'll find a beautiful choice of lightweight pure wool fabrics—the kind that insures comfort and long wear.

Come in and see these Curlee Summer Suits. Then price them and you'll agree you can afford to add one or more of them to your Summer wardrobe.

Styles, sizes and models for every man.

Goldwyn Builds Great Wall of China In Hollywood for "Marco Polo" Film

Only One of Many Magnificent Sets Constructed by Richard Day For "The Adventures of Marco Polo" Which Will Show at Roxy Theatre Sunday, Monday, Tuesday

There's an old legend that the bodies of a good many coolies were mixed with the bricks and mortar of the Great Wall of China. There weren't any coolies' bodies in Samuel Goldwyn's great wall out near the town of Chatsworth in the San Fernando Valley, 40 miles from Hollywood. In every other respect, though, it resembled the real wall built centuries ago.

Art Director Richard Day built Goldwyn's great wall for him.

It will be seen in Gary Cooper's new starring picture, "The Adventures of Marco Polo," which begins a three-day engagement at the Roxy Theatre on Sunday.

They didn't copy the whole Chinese wall. They built a piece of it 200 yards long—the piece that joins the big west gate at Pekin. It took their workmen four weeks to do it, which is much faster than the coolies worked. But then Day's workmen were better paid than the coolies were.

In designing the sets for the film, Day didn't strive for absolute authenticity. Rather, he tried to give the impression of the period in which the picture is laid, and at the same time to keep them simple, beautiful and modern looking. This last wasn't hard to do, for the ancient Chinese were more modern in many ways than the interior decorators who make chairs out of pieces of chromium pipe.

The Wall, for instance, isn't an exact copy of the Great Wall. But looking at it you get the impression that you are seeing the real thing. Nor are the gates of Pekin just like they were seven centuries ago.

According to Day, one can go too far in making things accurate. The picture itself lays no claim to being an authentic story of Marco Polo's travels. The sets are built in the same spirit. They have the same fairy quality, the same unreal reality.

Though no effort was made to be exact in every small detail, a great deal of research went into the build-

ing of the sets. The art director had to know what life in 13th Century China was like before he could design settings that would be in keeping with the period. He had to know what sort of huts the peasants lived in, and what sort of a throne Kublai Khan sat on.

The Khan's throne is in the throne room of the palace set. It resembles, oddly enough, one of those huge modern chairs you see in decorators' shops. Behind it is a plain white wall. In front of the throne, down a few steps, the floor is a mosaic map of ancient China, laid out in squares like a chess board. This is accurate. Kublai Khan had just such a map in his throne room and on it he figured out the movements of his troops.

The throne faces a grilled doorway that looks on the garden. Day says that both the throne room and the garden are supposed to be 80 feet up in the air, near the top of the palace.

This is shown on the screen when Sigrid Gurie as Princess Kükachin walks to the edge of the garden and looks down at the courtyard below. In the center of the garden is a fish pond, as big as most Hollywood swimming pools, though not as deep.

Day's great wall is much more spectacular, though not as beautiful. It rears up from the level plain for nearly 100 feet and is broken by the huge gates.

"The Adventures of Marco Polo" is released through United Artists.

County School News from Mrs. Martha Mulkey's Office

Martha Kurtz, clerk of the Lakeside school district, is the first one to have her materials in for the audit to be made by W. H. Wann. She is also the first one to have turned in her reports for the county school superintendent's office.

Schools Have Blackboards Finished
Empire and Haynes Inlet are having blackboards refinished by George Entzinger. While he is working on these he is making estimates for other school districts as a large number have requested such estimates. Mr. Entzinger is covering the boards with a slate finish.

Delmar
Delmar district is to begin shortly on a new WPA project for the enlarging of the school ground. It is also the intention of the board to have the artificial lighting system improved this school year.

School To Have Floor Finish
The schools at Cooston and Gravel Ford and one room in the Empire building are prepared, ready for a coating of penetrating floor seal.

Teachers Attend Summer School
A large number of teachers from the county are attending summer schools at numerous places. A few which have been recently brought to our attention are as follows: Nellie Shepherd, Bunker Hill; Esther Wilson, Valley View; Curtis Beckham, Remote; Laura Brandon, Norway; Grace Cox, Millington.

Pioneer Missionary Society

The Missionary Society of the Pioneer Methodist Church held their program and silver tea at the home of Mrs. W. A. Ireland last Thursday afternoon. Songs were led by Mrs. Helen Woodcock. Devotions, under the direction of Mrs. Cyril McCurdy, followed. Mrs. Orville Newton gave a talk on "Japan."

This was followed by "Kindergartens and Women" by Mrs. Walter Ording; "Sabbath Schools and Christian Relations," Mrs. H. L. Graybeal;

"Social Evangelistic Work," Mrs. D. W. Siver; "Three Schools of Japan," Mrs. Geo. Taylor, Jr., and a lesson on "Stewardship" by Mrs. Jas. Richmond.

A social time followed, with refreshments served by Mesdames Frank Schram, Ernest Adamson, Gladys Gano, Helen Woodcock, June Walker, and J. W. Zanders. Others present were: Mesdames Guy Adamson, Julius Ruble, Ernest Purvance, Walter Ording, Orville Newton, W. J. Peart, D. W. Siver, B. A. Davis, Miranda Way, B. W. Dunn, D. D. Dale, F. M. Wheaton, R. Rowell, Louis Fugelson, W. F. MacKnight, Frank Leslie, Leland Peart, Geo. Taylor, Jr., E. H. Brattain, Jas. Richmond, Cyril McCurdy, Clyde Minard, H. L. Graybeal and W. A. Ireland.
