**Be Humane To Your Dog**  
It is an offense against the law in every state to leave a dog in a parked car, in hot weather, with the windows closed. It is an act of cruelty, all the worse if the car is standing in the sun. People who are fond of their dogs will not do it; people who are not fond of their dogs should not keep them.

Every man and woman motorist knows what it is to sit in a stationary car five minutes in the broiling sun, yet many will leave a dog for an hour or more, with the suffering growing in intensity by the minute.

The above is furnished the Sentinel by the Southern Oregon Humane Society.
