Dr. Mace Leaves Hospital

After 5½ Months' Siege
 Mrs. Calver Mace, formerly Miss Harriet Sweet and a sister of Mrs. Pearl Ellingsen here, writes the Sentinel from her home in Santa Cruz, Calif., that "Dr. Mace has just returned from five and a half months at Stanford-Lane Hospital. They did not amputate nor did they give him any promise he would recover or walk again. But his determination has given him this start; while the hip is practically gone, and never stops draining, he gets around with a cane."
 She also writes that she had just seen Mrs. Fred Linegar, whom older residents will remember as Louise Schroeder before her marriage to Mr. Linegar, who was the Coquille postmaster when this writer came to Coquille a quarter of a century ago.

Playground Prattle

The second two weeks' period on the public playground ended Wednesday. The total number taking advantage of the ground were 450, an advance of 150 over the previous period.

During this time the playground facilities were improved by the addition of a fine six-ball croquet set, a gift of the B. & P. W. club, and a set of horseshoes and pegs, gift of Greene and Jensen.

To add to these, the Woman's Club donated \$10.00, with which a new tennis net, a volley ball and net have been ordered. These will be on hand the first of next week.

All school age youngsters are welcome to use the equipment and Mrs. Woodcock would be glad if Scout troops or groups would organize a volley ball tournament, games to be played between 10:00 and 4:00 o'clock, observing, of course, the playground rules.

By the end of the summer, an ample supply of equipment will be on hand so that next year the playground will be ready at the close of school.

Two Coos Schools Apply to PWA

C. C. Hockley, regional director for the PWA, will be at the court house in Coquille at 10 a. m. next Monday, Aug. 15, to discuss with city and other municipal body officials the steps that should be taken to obtain grants for the construction of public works. He will be at the city hall in Marshfield at three o'clock the same afternoon.

Two applications for school building grants in the Coquille valley have recently been sent to the PWA office in Portland and forwarded from there to Washington for approval.

One of them is for a grant of \$33,750 to construct a new elementary grades building in Coquille to replace the old Washington frame building. The total cost of the building is estimated at \$75,000.

Of course the taxpayers' approval of the project will have to be secured before the building is started, but as the time for filing applications for grants expires in less than a month it was necessary that the board act at once in making the application. According to a report the actual construction must start by Jan. 1, 1939, if the project goes through.

Bandon school district, No. 54, has applied for a \$24,545 grant for a building which will cost \$54,545.

Still another PWA application which is of interest to travelers is that for a grant of \$54,653, made by State Highway Engineer R. H. Baldock for construction of a bridge across the Umpqua on the Pacific highway, just south of Dillard, to replace that narrow, decrepit, covered bridge which is so much of a travel hazard. The total cost of construction is estimated at \$121,450.
