

## Coquille Service Stations, Dealers To Provide Winterizing Program For Drivers

A complete winterizing program is available for automobile drivers at the various dealers and stations of Coquille this week. In connection with the safety program for safe driving in the winter time and in order to comply with state requirements of the highway, every motorist should not only protect himself but protect society by seeing that his car is adequately prepared.

At City Motors, Lars Larson, manager, has a novel and highly efficient vitalizer, which removes dirt and sludge and gives the motor the pep and vitality for winter driving and cold morning starting. A special on this motor conditioner which includes removal of spark plugs and testing and cleaning of air cleaner is on this week for only \$2.00.

At Southwestern Motors, another outstanding value is available with one gallon of anti-freeze being offered free with any Chevrolet heater that is installed this week. This is an exceptional offer — the heaters are priced as low as \$10.95.

Clovis Church, who operates the independent Gilmore station on Front and Willard, is also concentrating on winterizing this month. He lists conditioning your car that are entirely free. He urges every motorist

to put in winter oil and winter lubricants.

Thornton Tire Service has a budget-payment plan, whereby the auto owner can secure a new battery, a new heater and new tires or retreaded tires on a small monthly payment plan. Harold Matson, manager, also urges every motorist to look over their other winter supplies.

At the Coquille Service Station, Arch Walker has the usual Goodyear line of batteries, tires, and accessories and claims a speedy service to every car. They will check every necessary part of the car in order to place it in operating condition for the winter months.

### A VARIETY AND COOKED FOOD SALE, NOVEMBER 7-8

A variety sale of new and used articles, as well as a cooked food sale, will be held in the room in the hotel building, next to the Mt. States Power Co., next Monday and Tuesday, Nov. 7 and 8. The ladies of the Dorcas society of the Seventh Day Adventist church are holding the sale.

At the Coquille Service Station, Arch Walker has the usual Goodyear line of batteries, tires, and accessories and claims a speedy service to every car. They will check every necessary part of the car in order to place it in operating condition for the winter months.

## Red Cross Seeks Cut In Accident Toll

1,725,406 First Aiders Trained Since 1910

Cognizant of tremendous losses in human lives and of permanent injuries resulting from accidents in homes, on farms and highways, and around industrial plants as well as in the basement workshop, officials of the American Red Cross have been directing a systematic fight against what they term "this economic waste."

As part of this nation-wide effort to reduce deaths and permanent injuries from accidents, a recent statement from Red Cross headquarters in Washington reports that during the past 12 months certificates have been granted to 295,023 persons completing courses in the administration of Red Cross first aid.

Holdings of these certificates have followed detailed courses of study and have been taught how to splint fractured limbs, stop flow of blood, treat poison sufferers, care for victims of heat, electric shock, and handle other common emergency situations. The courses emphasize methods of caring for patients until professional medical aid can be summoned to scenes of accidents.

Since 1910, the report reveals, 1,725,406 persons have received this training from qualified Red Cross instructors.

Bringing help nearer scenes of possible accident, 2,454 emergency first aid stations have been established in strategic locations on principal highways throughout the nation, operators of the stations receiving the prescribed Red Cross instructions and maintaining full first aid equipment on the spot.

**Civilization, Culture**  
Civilization has to do with the environment in which we live; culture is concerned with life itself and the way it is lived.

## CHRISTIAN SCIENCE CHURCHES

"ADAM and Fallen Man" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, Nov. 5.

The Golden Text was, "He that is of the earth is earthly, and speaketh of the earth: he that cometh from heaven is above all" (John 3:31).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "In the beginning God created the heaven and the earth. So God created man in his own image, in the image of God created he him; male and female created he them. And God saw everything that he had made, and, behold, it was very good. And the evening and the morning were the sixth day" (Gen. 1:1,2,7,31).

The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "With a single command, Mind had made man, both male and female. How then could a material organization become the basis of man? The creations of matter arise from a mist or, false claim, or from mystification, and not from the firmament, or understanding, which God erects between the true and false" (pp. 524,523).

## SOUTHWESTERN MOTORS

1st Street, Coquille

## THE MOTOR IN YOUR CAR NEED NEVER GROW OLD

Carbon, grit, gum, and sludge deposits are a menace to your motor. They cause excessive wear, sluggish performance, and decreased efficiency. The formation of these substances can not be avoided because they are by-products of the combustion of gasoline and air in contact with oil in your motor... BUT
