

Assembly of God To Burn Mortgage

Rev. R. D. E. Smith today announced that the congregation of the Gospel Tabernacle had completely cleared their building of debt and now has property valued at \$35,000.00 which is unencumbered. Special services commemorating this event will be held on Friday. Rev. Charles G. Weston, Oregon district superintendent of the Assemblies of God, will officiate in a mortgage-burning ceremony and will also preach at seven-thirty Friday evening. The ministers of the city will be present, as well as visiting ministers from the neighboring cities. The Coquille Band will be giving a concert in the building from seven until seven-thirty. Rev. Mr. Weston will also speak in the afternoon at 2:30 o'clock. The public is cordially invited to attend these meetings.

The Gospel Tabernacle building was erected ten years ago by the present congregation. The church was associated with the Four-square denomination for a short time but soon severed any relation with that organization and became affiliated with the Assemblies of God with headquarters at Springfield, Missouri. The Assemblies of God is a voluntary co-operative fellowship with the congregation form of church government. They are the largest of the "Full Gospel" or "Pentecostal" organizations with a large following in the state of Oregon.

Further announcement will be made at another date and complete details will be released to the public at the earliest opportunity giving all particulars about this novel idea which will stimulate exclusive trading in Coquille during the holiday season.

Coquille Car The Third One To Hit

While on their way to Corvallis last Saturday Mr. and Mrs. Harry Hunt, of Coquille, were involved in a three-car wreck on the bridge at Hauser, north of Coos Bay. A woman had just passed the Hunt car but when she hit the icy bridge she started to skid, turned completely around and then smashed sideways into a south bound car. Mr. Hunt was about 50 feet back, driving slowly, when the other two met. He applied his brakes but when he started to skid he released them and nosed into the wreck. His car was not greatly damaged—the front was somewhat mashed in—but the other cars were badly damaged.

Bergen's Greenhouses tell the floral story.

'Dough Money' Days Promised For All Christmas Season

Plans for an extensive Christmas selling program in Coquille have been launched by members of the Coquille Junior Chamber of Commerce, following a meeting of the club Monday night at which time a definite program was adopted to secure all the trade possible for the local merchants during the Christmas season.

The plan adopted requires the use of "dough money" in all of the stores of the city from a period starting in early December up to a day or two before closing for Christmas. Dough money will be the only form of barter for the purchase of the many prizes offered by local merchants at a public auction when the campaign closes. But everyone will be given these share shekels with all purchases made during the period designated. This way, anyone can bid for the prizes as they are offered over the block by Santa Claus at the auction. (It is not just a hit and miss or lucky number proposition. It will be dependent upon the number of share shekels that is actually accumulated if anyone wins any of the better prizes. Although several hundred dollars worth of prizes will be offered at the auction, this will include many prizes of one and two dollar value, besides the more valued awards of merchandise.)

Further announcement will be made at another date and complete details will be released to the public at the earliest opportunity giving all particulars about this novel idea which will stimulate exclusive trading in Coquille during the holiday season.

Operating Rock Quarry

Coos county and the city of Bandon are planning operation of a rock quarry on Tupper rocks on the Bandon Ocean Drive inside the city limits on a joint basis. The county will furnish two crushers for the work and expense will be based on a 50-50 basis from WPA funds. It will enable Bandon to surface some its streets with rock and the county will surface some roads near Bandon.

Wins Promotion

Miss Julia Leatherman has been promoted to the first deputy in the office of County Clerk Oddy, according to announcement this week. Miss Leatherman's advance was made open due to the resignation of Mrs. Ray Vaughan, who has served in the office for a number of years. Miss LaVerne Knife of this city will take the post held by Miss Leatherman.

First National Bank Bids Low On Bonds

(Continued from Page One)

rights of way for pipe line. The water committee was asked to meet with the would-be purchaser and determine the price which should be asked.

The deplorable condition on the east side of Hall street at First was brought to the council's attention by petition of those in that section who asked that temporary walks be laid on the fill there. Permanent improvements cannot be made until next summer.

Carter avenue residents were present with a petition asking that that street be opened through from Seventh to Eleventh. The property owners are willing to dedicate the necessary land. The residents there want electricity for their homes but the Mr. States does not enter upon private property to set poles in the city and consequently several homes in that section are not now served. The street committee was asked to investigate and report at the Nov. 21 session as to the advisability of opening the street.

Several letters from Stevens & Koon were read. One stated that the plans for raising the Rink creek dam had been approved by the state engineer.

A. J. Olson, appointed by Stevens & Koon to supervise the work on the dam, was present and reported that the road from Second street east was almost impassable in a few spots. The city engineer was instructed to have gravel spread so that trucks could take the WPA workmen to and from the dam.

The need of repairs on the wooden sidewalk north to the high school was referred to the street committee with power to act.

A report by Engineer Gould for the street widening of Second, Third, Hall, Elliott and Henry streets—all the work done except that on the highway for a block, on Third from Folsom's east a block, and from Third on Hall south half a block—showed that the cost to the property owners was \$4,104. This will average to the property about \$2 a front foot, which is to pay for the material used, supervisor and engineering. Labor for the job was paid by the WPA.

Births at Coquille Hospital

To Mr. and Mrs. Ralph Low, of Riverton, last Friday, a seven-pound and six-ounce daughter, who has been named Lois Evelyn.

The same day to Mr. and Mrs. J. W. Smith, of Langlois, a 7½ pound baby girl—Shirley Dean.

To Mr. and Mrs. Willis Van Leuven, of Randolph, a 10½ pound daughter, on Monday.

Bowling Team Wins Dinner

Last Wednesday evening the following Coquille people made up a party which partook of a Chinese dinner, won by the bowling team from Coquille, representing "Bill's Place," as a prize for rolling the highest weekly score: Mr. and Mrs. "Moose" John Clabaugh, Mr. and Mrs. Harry Oerding, Mr. and Mrs. Stewart Norton, "Butch" Briner, Chester Price, Mr. and Mrs. Jack Wilson, and Mrs. "Boots" Bush. Mr. Wilson is the star pitcher of the Boston Red Sox. The pitcher of the Boston Red Sox. The Clabaugh family, left Thursday for their home in Portland.

Propaganda Can Stop Now

Thank heaven the election is over! There will now be a dearth of cent and a half political publicity and propaganda clogging the mails and the desks in newspaper offices, but there is no let-up to the flood emanating from Administrator J. D. Ross' offices in regard to Bonneville dam power. The only good thing about the propaganda received is that the reverse side of the sheets makes good copy paper.

Alan Bailey, of this city, was one of the crowd at Eugene last Saturday which saw Oregon trounce Idaho, 19 to 6.

WM. HARTLEY, BROADBENT PIONEER, BURIED TUESDAY

William Elijah Hartley, a resident of Coos county since 1872, passed away here last Friday, heart trouble causing his death.

Funeral services were held at the Gano Funeral Home on Tuesday this week, conducted by Rev. Mr. White, of Myrtle Point, and interment was in the Norway cemetery. Six nephews of the deceased acted as pall bearers and Lealie Hartley and Jimmy Grant.

Mr. Hartley was born at Boone, No. Carolina, Dec. 8, 1865, and came west with his parents when a small child. After a short stay in California they moved to Oregon and he has been a resident of the Broadbent section for a great many years.

He is survived by two sisters, Mrs. H. E. Morgan, of Snohomish, Wash., and Mrs. Anna Grant, of Broadbent; and five brothers: Leonard, of Placerville, Calif.; Reuben, of Status, Wash.; Benjamin, of Snohomish; Jack, of Granger, Wash., and David of Bandon.

Should Let Gasoline Tax Alone

The Sentinel would suggest to the new city government which takes over the first of the year, that it drop its membership in the League of Oregon Cities. That organization seems to be making its biggest campaign in the effort to divert gas tax revenue from the state to the cities, which means a consequent slowing up of the state highway development.

The motorists pay the tax willingly in order that highways may be built and maintained, not that city councils may have additional funds in their treasuries to spend.

Chas. Huggins, defeated candidate for mayor in Marshfield, is president of the League and he has sent out lots of propaganda urging that the legislature cripple the state highway commission by allocating a portion of the gas tax to the cities.

THIS IS COQUILLE'S NUCOA WEEK

Grocers listed below are featuring NUCOA, the delicious, wholesome "Thrift Spread" with VITAMIN A

*** SAVES YOU MONEY ON EVERY POUND!**

GO TO YOUR GROCER'S—see his display of Nucoa this week. Here is your chance to try this delicious, wholesome food.

Made from pure vegetable oils churned in fresh pasteurized skim milk, Nucoa supplies as much food-energy as the most expensive spread for bread—3,300 calories per pound. And Nucoa also supplies VITAMIN A for your children's growth and protection! The year around, every pound of Nucoa contains at least 7,500 Vitamin A units. It never varies.

Use Nucoa on the table and for shortening, pan-frying and seasoning. Nucoa tastes delicious on hot breads and vegetables (a real test of flavor!) . . . it adds richness to all your cooking . . . yet helps you keep your food bills down!

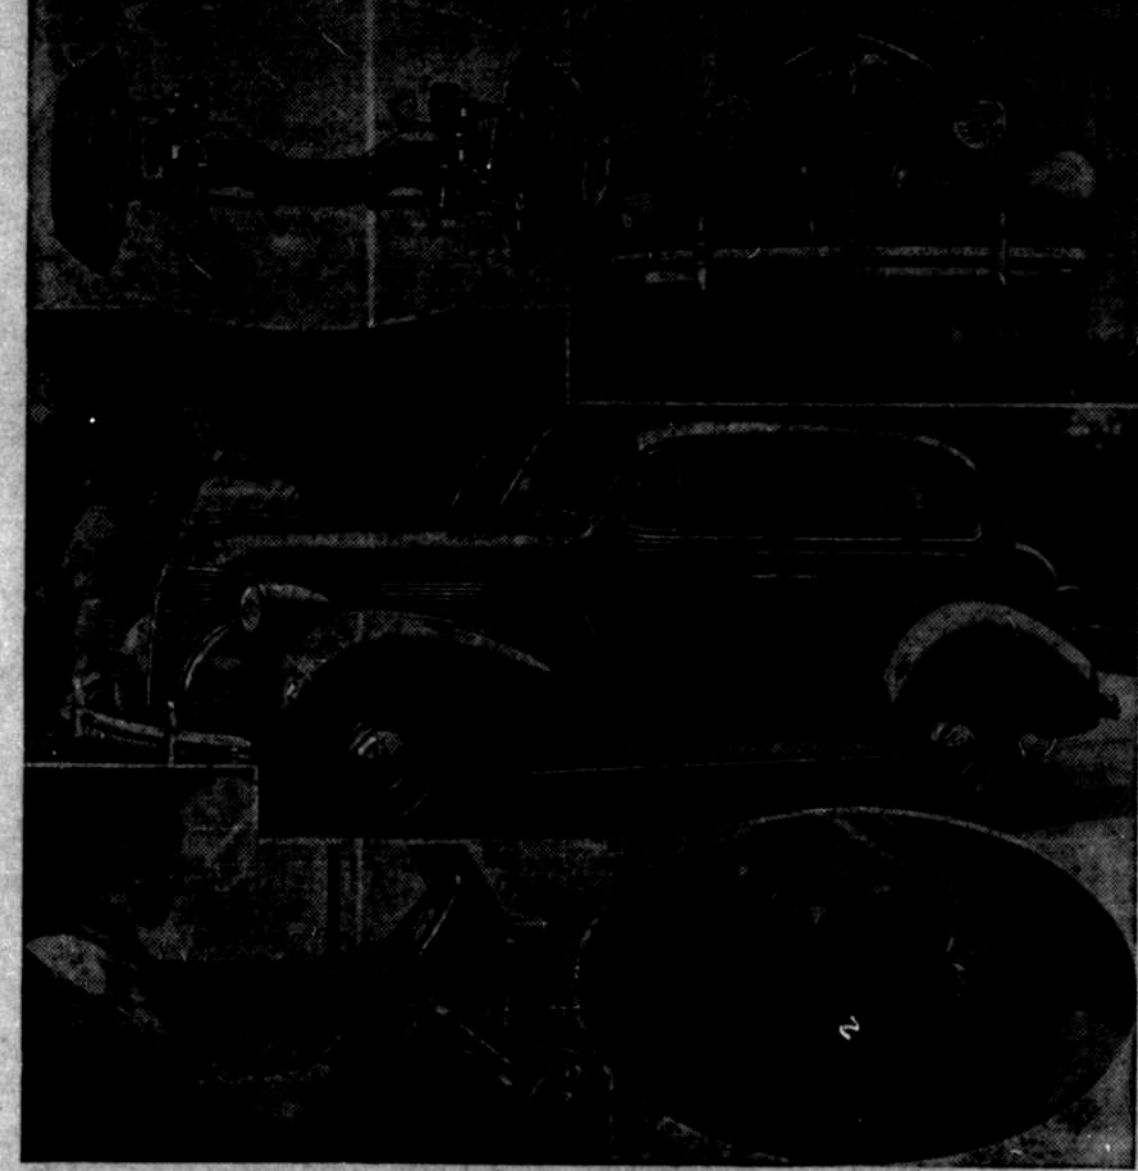

Nucoa is approved by Good Housekeeping Bureau and accepted by the American Medical Association, Council on Foods.

Chevrolet Takes Big Strides Ahead for 1939

New Aero-stream styled bodies combine with major mechanical improvements to provide new beauty, safety, comfort and operating ease, in the 1939 Chevrolet, presented October 22, and featured at the big auto shows this month. The new models are offered on two chassis, the Master De Luxe and the Master 85, both of which are powered with Chevrolet's famous six-cylinder valve-in-head engine.

A new vacuum gear shift mechanism with steering column control, optional on all models at small extra cost, does 80 per cent of the work of shifting gears. The Master De Luxe series features a new riding system, in which a brand new Chevrolet Knee-Action mechanism is scientifically co-ordinated with new ride stabilizer and double-acting hydraulic shock absorbers to furnish a smooth, soft ride.

Central picture is the new Master De Luxe Sport Sedan. Upper right: front end view of the 1939 car; Upper left: Master De Luxe front suspension unit, complete; Lower left: accessibility and finger-tip ease of operation are two major features of Chevrolet's vacuum gear shift with steering column control; Lower right: As the handbrake on all models is re-located under the coat, front compartment floor is cleared in cars with vacuum gear shift.
