School of Religious Education

The School of Religious Education is off to a good start, regardless of inclement weather and basketball games.

A very interesting class is "Meeting Life's Problems" for youths 16 years of age and over. Among the facts noted in the first class was that in 1916 there were more than twice as many divorces in the United States as in all of the rest of the world and that Oregon's divorce rate is twice the average of the United States for the same. The information available in this class, gathered by rather extensive research by the instructor, C. C. Farr, is needed for any well-rounded education but is seldom made available.

Other classes are on the subjects of:
