

### Girls To Have Team

With Mrs. Harold McGrew as manager and "Buck" Sorenson as coach, a girls' softball team is being organized. Their first practice was Tuesday evening when 14 turned out and any young lady interested in playing the game is invited to be at the high school grounds Friday evening at six o'clock when the next practice will be held.

This girls' team is scheduled to meet a girls' team from the Bay when double header softball games will be played at Athletic Park here on Sunday, Aug. 6, as a benefit for Bob Ziegler who was seriously injured in a game a couple of weeks ago.

The other game will be between a team picked from the Coquille softball league and a similarly picked team from Marshfield. Stan Stevens will pick the Coquille bunch and A. J. Spaniol the one from the Bay.

### Two Uster-Wasers Will Go

Bill Fortier and Carl Gilbert are planning on attending the Old Timers baseball jubilee which will be held at Blue Lake, 12 miles from Portland, two weeks from next Sunday. Baseball and more baseball will be the order of the day, with games starting at noon and continuing until midnight, under the lights, so that all the old has-beens will have a chance to see just how far they have gone back. There will be 20 games of three innings each.

Biddy Bishop, one of the "Uster Wases," is president of the "Ye Old Timers Baseball Association, Incorporated."

### Coquille Eagles

The Eagles are spreading their wings in more ways than one as membership is increasing steadily with initiation every meeting night. There is more interest being shown in man power than ever before and I think the move on foot to get a home is the main reason for the added efforts the boys are showing, as everyone knows that the more members we have the less time it will take to reach our objective.

Worthy President Stark appointed a committee to arrange for a big party or picnic in the near future. I don't know yet where or when it will be but this much is sure—it will be good.

As I started at the beginning of this article, the Eagles have spread their wings and if any one doubts my word, let them have a talk with Mr. Stevens of soft ball fame. Last Tuesday night the lowly Eagles team stuck out their necks, dug in their talons and heat the highly touted Stevens Hardware team to the tune of 10 to 3.

Highlights of the game: No. 1—Mr. Stevens prancing up and down the first base coach line in the first inning when they gained a lead of three runs. No. 2—Mr. Stevens slowing down to a walk and finally dropping chin on chest when the Eagles got in front. No. 3—Mr. Stevens beaming again when one of his fielders made a flying leap into the air and grabbed what looked like a sure hit.

Congratulations Tommy, that was a good catch in any ball game. But putting all kidding aside it was a lot of fun and everybody enjoyed the game if noise counts for anything, and Mr. Stevens assured me the prices on hardware would not go up on account of their defeat. So no harm done. I would like to see about five hundred more fans out to the games. I feel sure they would get their moneys worth. (Admission free). See you all Friday night at the ball park.

### Coquille And Empire Tied For Lead

Starting with a home run by Hinzelman on the first ball pitched in the league game at Port Orford last Sunday afternoon, the Coquille Merchants team clinched the game right then, although P. O. tied it up in the fourth at one all. But in the fifth Coquille began forging ahead and the final score was 9 to 1.

Only four errors were chalked up by the scorekeeper and there is discussion whether the slashing drive by Baird down the third base line in the first, which Schaer got a hand on but could not stop, should not have been credited as a hit and not charged as an error.

### Dredging The Bandon Harbor

The U. S. suction dredge Pacific, operated under the direction of the U. S. Engineers, Portland, arrived in Coquille river harbor at Bandon Monday and has since been working steadily removing sand shoals on the bar and in the inner harbor near the mouth of the river.

The Pacific is designed especially for dredging the smaller harbors along the coast and has proved very efficient. It carries three crews, which makes it possible to work continuously while weather conditions are favorable. So far conditions have been ideal, it is reported.

The present dredging is hoped to relieve conditions in the local harbor temporarily at least. The engineers have promised to consider restoration of the north jetty as soon as finances can be made available. With the north jetty restored it is believed the present project-depth could be maintained without difficulty, while under present conditions the shoal now being dredged out will reform within a comparatively short time.—Western World.

### Comments On This Year's Open Season

Much interest is being expressed by hunters in the order of the game commission permitting the taking of 500 adult cow elk during the regular bull elk season, October 29 to November 12, in Morrow, Baker, Grant, Wallowa, Union and Umatilla counties. These permits will be issued in the order the applications are received and already the game department has received over 200 applications. The fee for a cow elk tag is \$5 for residents and \$25 for non-residents in addition to the regular hunting license fee. A separate tag must be secured for bull elk, fee for which is the same as for cow elk.

The antelope season has been advanced to October 6, 7 and 8 and a total of 600 permits will be issued this year to be divided as follows: 300, Lake county; 150, Harney county; and 150, Malheur county. These permits will likewise be issued to those making application first, and the fee is \$5 for residents and \$25 for non-residents in addition to the hunting license.

Permits for 500 antlerless deer will be issued for the territory immediately adjacent to the Mule deer game reserve in Lake and Klamath counties. These permits can be used any time during the regular deer season, September 20 to October 25, and the fee is \$5 for residents and \$25 for non-residents.

An act passed by the last legislature will likewise permit the taking of one antlerless as well as one buck mule deer in a large portion of Grant county during the open season from September 20 to October 25. A fee of \$1 will be charged in addition to the regular hunting license for taking antlerless deer in this area, and there will be no limit as to the number of such permits to be issued.

Printed copies of the complete hunting regulations including maps of the areas covered by the special orders, will be available about August 10.
