Office Corner W. First and Willard St.

Washington, D. C., Nov. 29—Great Britain is showing its appreciation for repeal of the embargo (making U. S. an arsenal for the allies) by cancelling concessions to the United States under the trade treaty. It has applied an import embargo on 18 items; controls on 27, and import licenses on 42. Before the reciprocal trade agreement the 88 items represented \$250,808,000 sold by United States to the British.

On the embargo list, affecting Oregon and Washington, are fresh apples representing \$7,330,000; fresh pears, \$3,428,000; canned asparagus and tomato juice, \$404,000.

On the control list, with value of export before the treaty: Timber, \$16,651,000; wheat, \$8,312,000; feed-stuffs, \$483,000; dried fruits, (prunes) \$5,649,000; canned salmon, \$6,352,000.

Items for which licenses must be obtained: Honey, canned beans, hides, skins.

The reciprocal trade agreement cut down Pacific northwest exports to the United Kingdom; now the British cut out supplies from Oregon and Washington almost entirely.

Unemployment benefits of Social Security board amount to \$9,508,333 in Oregon since Jan. 1, 1938, to the first of the present month. For Washington the board reports payments of \$5,106,980 since last January to November 1. Washington was a year later than Oregon in complying with Social Security requirements. Claims were paid in Oregon to 25,240 persons; in Washington to 27,773 in past months.

Two Oregon state-wide WPA projects have been approved as eligible for funds by the president. One project, estimated to cost \$68,605, is to receive, store and transport packages and account for food and other surplus commodities allocated to state public relief by federal, state or other agencies. The second project, to cost \$27,810, is to transcribe, tabulate and summarize economic basic data on present land use and tenure prepare maps, record assessed valuation and distribution of livestock and assemble information on tax delinquency as associated with land use. Sponsor for this project is Oregon State college.

Oregon's 150 acre cultivating cranberries are the most productive of any such acreage in the United States, according to the bureau of agricultural economics. Oregon's acreage is relatively small but highly prolific, an acre averaging 40 barrels, just double the productivity per acre of Washington's 11,000 acres. New Jersey growers are fortunate to pick three barrels to the acre.

Federal maritime commission is so disgusted with its experience on the west coast that it plans trying to sell the government's ships which have been leased to private operators and furnishing service between Puget Sound and the orient. Members of the commission explain that they are constantly having disputes with the union, and rather than continue the arguments they prefer withdrawing from active participation in the operation of ship lines out of Pacific coast ports.

On November 1 there were 10,954,000 boxes of apples in cold storage in the United States. Washington state had eight out of every ten of these boxes. Oregon's share of the total was 989,000 boxes.

One of the issues of the campaign next year will be the reciprocal trade agreements. From the Pacific coast to the Mississippi river it will be a live topic. Protest against the way Pacific northwest products have been treated by Secretary of State Hull have been filed by Senators Bona and Schwilkenbach, of Washington, Senators McNary and Holman, of Oregon;

TWENTY YEARS AGO

(Taken from The Sentinel of Dec. 5, 1919)

J. E. Norton has purchased the Ed. Ellingsen house on Schroeder street. Mr. Ellingsen plans to move to his ranch on the Marshfield highway.

Among the candidates eligible for the county attorneyship on the republican ticket next year are Claud Giles, of Myrtle Point; A. H. Derbyshire, of North Bend; Capt. Ben Fisher, E. L. McClure and J. T. Brand, all of Marshfield.

The sum of \$200,000 has been appropriated by the road commission for the building of a road from Coquille to Bandon by way of Riverton. Of this \$100,000 will be spent on the Coquille-Marshfield road.

County Clerk Lloyd Oddy announced this week that he would retire from public life. In a letter to the Sentinel Mr. Oddy pointed out his reasons for retiring and endorsed A. B. Collier, his chief deputy as the successor for his post. He still has a year to serve but made the announcement in order to clear the field for potential candidates in the coming election year.

John D. Mickle, of the state dairy

Senators Johnson and Downey, of California. First skirmish will come when congress meets in regular session in January, to be followed by the congressional elections later.

Only 15.8 per cent of all the land in Washington state is available for cultivation, and of the total state acreages only 8.7 per cent is actually under plow. Number of acres used for crops is 3,733,099 out of 42,775,040. In Oregon only eight per cent is available for cultivation and only 5.1 per cent is being used. Oregon's cultivated acreage is 3,112,168 out of a total of 61,188,480, according to the bureau of census. Nevada ranks lowest of all, with but 0.4 per cent of its entire area cultivated; Arizona next with 0.7; Wyoming 2.8. Nor is California so "hot." Of that advertised garden spot only 11.7 per cent is available for cultivation and but 7.1 per cent of the state's acreage is used for crops.

These statistics will form part of an argument made next spring in congress in justification for insisting the federal government pay taxes on its holdings in the 11 western states. Figures are from the census bureau.

Recreation Meeting To Be Held Next Monday, Tuesday

Two social recreational meetings are scheduled for the first Monday and Tuesday in December, according to the home demonstration agent, Miss Julia Bennett.

The first recreation institute will be held in the Green Dell Grange Hall on Monday evening, December 4, at 7:45 p. m. The second night meeting will be in the Myrtle Point high school gymnasium on Tuesday, December 5, at 7:45 p. m. Miss Izola Jensen, specialist in community and social organization from Oregon State College, will conduct the institute and U. S. Burt, head of the visual education extension program, will assist in the meeting by using slides, films, etc. to show the use of visual education equipment in recreational program.

Persons who have charge of any recreation such as music, folk dances, skits, stunts, paper and pencil games, table games and active games are invited to bring a partner and attend either one or both of these meetings as well as the later ones to be held next April.

Any organization may send its leaders for this free help. Christmas recreational activities will be taught also.

You will find a wide selection of bulbs and perennials at Cooper's Gardens.

and food commission arrived here Wednesday and held a dairymen's meeting here in the evening.

Leslie Schroeder has been in San Francisco for nearly a year taking a course in engraving, watch repairing, etc., and upon his return this week will take a position in his father's jewelry store.

This week has given us such delightful December weather as is enjoyed in but few localities in the United States—frosty mornings, followed by bright genial days.

J. D. Carl has bought the Robert Tyrrell place at Arago and will move onto it the first of the year.

Ben McMullen has finished the cruise of timber in Douglas county west of Gardiner and came home Tuesday.

Knights of Pythias elected the following officers for the year: H. S. Cadman, C. C.; Theo. Clinton, V. C.; W. C. Chase, K. R. S.; E. N. Moon, Prelate; R. L. Gimlin, M. A.; C. A. Schroeder, M. F.; Nell McGilvery, M. W.; A. T. Morrison, M. E.; A. T. Schroeder, I. G.; Elmer Shull, O. G.; W. L. Kistner, Trustee.

Talented Youth Has Its Fling In "Babes In Arms"

Mickey Rooney and Judy Garland Head Cast In Gay Musical At Roxy Theatre

Song and dance, pathos and drama, form the background for the first co-starring appearance of Mickey Rooney and Judy Garland in "Babes in Arms," which opened at the Roxy Wednesday for a four-day run.

Based on a couple of seasons ago, the story deals with the era when vaudeville passed out of the entertainment picture. When the old-time headliners were up against it their kids came to the rescue, bringing with them a modern viewpoint and a talent that was inborn.

It is a natural structure for a picture which boasts the greatest collection of song, dance and acting performers since the memorable "Great Ziegfeld." In addition to the stellar Rooney-Garland team, the cast features Charles Winninger, Guy Kibbee, June Preisser, Graces Hayes, Betty Jaynes, Douglas McPhail, Rand Brooks, Leni Lynn, John Sheffield, remembered as "Tarzan, Jr." in "Tarzan Finds a Son!" and some 200 supporting players.

Cast as the son of a famous "two-a-day" team in a period marked by the passing of vaudeville, Mickey leads the children of the despairing troupers in a fight to keep out of the county farm. Desperation and the amazing talents of the youngsters enable the kids to fight their way right to the very Broadway from which a fickle public has driven their dads and mothers. A puppy love romance between Judy and Mickey is threatened momentarily by June Preisser, playing a former screen baby star who has both the looks and the money needed to stage Mickey's show.

New Grocery Opens On Cherry Creek Road

Frank Grensky, whose Oregon Little Wranglers are playing for the free turkey dance Saturday evening, Dec. 2, at the Cherry creek road dance pavilion near McKinley, stated Monday morning that he has opened a grocery store there next to the dance hall and some time next month will also have a service station open there.

See us for Berry bushes, Asparagus, Rhubarb, Gooseberries and Currants, Cooper's Gardens.

Thanksgiving Service at the Christian Science Church

A Thanksgiving Day service was held by First Church of Christ Scientist of Coquille, at 11 o'clock on the morning of Thanksgiving Day.

The service opened with the congregation singing hymn, No. 160, in the Christian Science Hymnal.

The Thanksgiving proclamation by the president of the United States was read by the First Reader, who also read the scriptural selection, Isa. 61: 1 to 8 and 9 to 11.

After the scriptural selection the congregation united in silent prayer, which was followed by the audible repetition of the Lord's Prayer with its spiritual interpretation from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy.

The lesson-sermon for Thanksgiving Day given in the Christian Science quarterly and read in all Christian Science churches in the United States and many other parts of the world followed the second hymn. The subject of this Lesson-Sermon was "Thanksgiving" and had for the Golden Text: "Rejoice evermore. Pray without ceasing. In every thing give thanks: for this is the will of God in Christ Jesus concerning you." (1 Thess. 5: 16-18).

After the responsive reading of Bible passages, the Second Reader read the citations chosen from the Bible, while the First Reader read the correlative passages from Science and Health.

Among the Scriptural verses included: "O Give thanks unto the Lord, call upon his name: make known his deeds among the people. Sing unto him, sing psalms unto him: talk ye of all his wondrous works." (Ps. 105: 1, 2).

And among the citations from Science and Health was: "Christians rejoice in secret beauty and bounty, hidden from the world, but known to God. Self-forgetfulness, purity, and affection are constant prayers. Practice not profession, understanding not belief, gain the ear and right hand of omnipotence and they assuredly call down infinite blessings." (p. 15).

A solo was sung, after the Lesson-Sermon had been concluded.

Testimonies appropriate to the occasion were then given by Christian Scientists in the congregation. This period was completely filled by expressions of gratitude for healings and other help received during the past year. The closing hymn was followed by the Scientific Statement of Being from the Christian Science textbook, and correlative passage from 1 John 3: 1-3.

The meeting was concluded with the benediction: "O Give thanks unto the Lord for He is Good; for His mercy endureth forever." (Ps. 107: 1)

Three Bandon Boys' Narrow Escape

Three Bandon high school boys—Bob Smith, Lloyd White and Art Kroening—were rescued by the coast guard in the nick of time last week.

They had taken a skiff and made quick time down toward the mouth of the river on an ebb tide but when they attempted to row back their boat made more headway toward the open sea than it did upstream. When caught by the coast guard's powerboat crew the skiff was within a few feet of the turbulent water on the bar.

Calling cards, 50 for \$1.00.

Spike Camp In Curry Co.

A 3-C spike camp at Gold Beach is being proposed by the state forestry department and if it goes through, the 48 men will use the buildings at the Curry county fair grounds for barracks. The boys would work on the roads and trails in Curry county and do other work desired by the forestry department.
