**You Do Want LOWER RATES But P. U. D. Is Not The Answer**

- 1...** Another tax-levying body? A board of five directors with broad powers to levy additional taxes without your vote.
- 2...** \$41,541.84 new taxes every year for five years or a total of \$207,709.20, to be spent for any purpose that suits the fancy of five directors.
- 3...** Loss of \$153,704.69 taxes now paid by power companies? The Attorney General has cast doubt on the ability of the tax collector to force Oregon PUD's to pay taxes.
- 4...** P. U. D. Bondholders to force up your rates? If P. U. D. is forced on the people you lose the present protection of State regulation of rates. If the P. U. D. should go sour the revenue bondholders can force up rates to pay every dollar of principal and interest on their bonds.
