S2.00 THE YEAR

Committee Thanks Those Decorating

No awards were made by Christmas decorating committee of the Coquille Chamber of Commerce for either home or business decoratmg this holiday season. There were many which deserved honorable but here again the committee did not wish to slight anyone and merely thanks the scores of both householders and business men who co-operated in making Coquille one of the most beautifully decorated cities along the coast, and it might be better to make it "in the entire

"Sabotage" is the best definition to be applied to the destruction last riday night of light bulbs taken from in front of various homes. The globes were just smashed on the sidewalk. The police are seeking the youthful perpetrators of these out-

The committee hopes that next year there will be funds available so that some cash prizes can be offered. But the destruction of light globes by foolish children—certainly no one with a sense of decency would pull such stunts—is going to be a deterrent hereafter to those who would like to dress up their places for Christmas.

With Britain"

E. G. Opperman received a cablegram on Christmas from his brother in England, which read, "Greetings from the Opps to all other Opps and American friends. Stout hearts are this side; all's well with Britain."

The English brother is a manufacturer, making parts necessary in dese. As a precaution he not long ago built another factory in case the one in operation was damaged and recently it was bombed, the building and machinery dropping into the basement. But the equipment was salvaged, moved to the other factory, and he is again operating a plant.

Highways Are All Open Again

The slide which covered the highway at the Hathaway place, just west of the dike on the road to Bandon for a distance of 200 feet last Thursday noon was removed from the pavement by the state highway crew; the road being cleared by Sunday although the short detour was still necessary while the rock and earth between the payement and the edge of the bluff was being removed.

The rocks were dumped along the upper side of the dike as further protection from flood waters.

At the highest point last Friday, when the crest of the high tide reached here, the water still lacked a foot of covering the dike. Down at the Joe Nilson place, just this way from Riverton, however, the water reached a depth of 26 inches on the highway and only those who needed to go through were making the attempt. At the Alpine place, just below the Riverton store, the water was about eight inches over the pavement at the high water mark.

The road up the river and across, to the Roy district district, was open again Monday morning.
