

W.C.T.U. Institute Held At Arago

The Women's Christian Temperance Union held its institute meeting Tuesday at Arago. Forty-six women from various towns in the county were present. During the morning session it was reported that two life memberships had been received, one from Mrs. C. C. Farr, county president, and one from the county organization in honor of Mrs. Mary Edwards of Allegheny, who has been a union member for many years.

Mrs. Farr announced that plans are being made for a representative of the Children's Farm Home to attend the June institute meeting at Bandon. Mrs. F. G. Leslie was appointed director of the soldiers and sailors department. Christian magazines and cookies will be sent through this department to Fort Stevens Army camp.

Arago won the attendance record with 60 percent of their members present. The Union Signal, given as the reward, was graciously given to the Bandon union, as Arago union believed that it had more of the papers than Bandon. Mrs. William Phillips of Marshfield spoke on the influence of radio in the home. A vote of appreciation was extended to radio station KOOS and the Mutual Broadcasting company for fine programs.

Mrs. Nellie Epperson of Myrtle Point spoke on the world-wide influence of the movies. The Cookie Jar work was outlined by Mrs. F. G. Leslie. Afternoon devotions were conducted by Mrs. Katherine Woodward. Mrs. Clyde Crawford of Arago read a poem, and prayer was offered by Mrs. I. B. Sevy. Three small children, of the Loyal Temperance Legion group sang a temperance song, using posters to demonstrate their work. They were accompanied on the piano by Mrs. Ward Evans, who later conducted an inspiring White Ribbon Recruit Station, in which six little folks became members of the W. C. T. U. Their mothers took the pledge to give best possible character training to the children.

Two little girls distributed roses to the mothers and children. Mrs. McAllister accompanied by Mrs. Olaf Aasen sang a mother song, and Mrs. Evans gave a talk on character training, which she illustrated by giving examples of songs, poems and stories. Before the afternoon business session, Meadames McAllister, Sevy and Evans sang a prayer song. Mrs. Farr announced that Coos county is the first county in the state to meet the state budget of \$1 per member.

Ruth Towne plans to leave Friday for Enid, Oklahoma, where she will spend a year at Phillips University. Miss Towne has secured a year's leave of absence from the Coquille school system that she may get her Master's degree in education.

which Paul McElwain and Elton Schroeder are going to build there and the rain Friday made the road so slippery they couldn't get back up the hill from the Rogue river lowlands.

No serious consideration was given the complaints against the police department for tagging of cars. One was by a truck owner who wished to park his car day and night alongside his business building, in the restricted zone, and the other by a man who wished to leave his car on the strip between curb and sidewalk, in front of his home, to prevent its being crashed into by drunken drivers on the narrow pavement. He said three such crashes had cost him \$36 for repairs.

The councilmen declared that if the parking of cars between curb and sidewalk became general it would certainly detract from the neat appearance of the city.

Couldn't Get Up The Hill With the Truck

Lorin Salisbury and his brother got rained in at Ilah last Friday afternoon and were not able to get back to Coquille until Saturday evening. They had gone over in a truck with a load of lumber for the cabin

on Taylor street. The council, in ordering the repairs, included work on the broken curb in front of the Casino and White Spot on Front street.

The city engineer was instructed to confer with the school board and school officials in regard to a new sewer which would serve the High and Lincoln schools. This was in reply to a letter from the board which told of the complaints by residents on Burns Acres and along Cunningham, of the odor arising from the overflow of the septic tanks and cesspools which have served the schools for disposal purposes since the buildings were erected. The nearest sewer is several blocks south of the schools. Just what arrangements will be made, a new sewer or what, cannot be foretold at this time.

A letter from O. C. Sanford, treasurer of the Library Board, told of the dingy appearance of the library room, the fallen plaster because of a leaking roof on the city hall and the need of general renovation of the library quarters. The matter was referred to the building inspector, Frank Dungey, and material considered for re-roofing the roof of the city hall.

A fee of \$10 a day for use of the Community Building and a license fee of \$20 a day was the council's answer to the Universal Medicine company which desires to make a return engagement with a medicine show.

The last time it was here the company used a tent.

The contract with the Howard Cooper company for the purchase of an equipped pumper for the fire department, at \$6930.50, was approved.

The city engineer was instructed to prepare plans and specifications for an east Fourth and Fifth and a Division street grading and graveling improvement. The city had previously advertised a proposed Fifth street improvement but it later developed that earth from a cut on Fifth was wanted for a fill on Fourth, so it was decided to start over again to insure that the property benefitted on each of the three streets would pay its proportionate share of the cost.

The council accepted Floyd Peterson's offer, at \$2.50 per hour, for moving dirt with a bulldozer from the lot on which the city warehouse is located and to which an addition is to be made, across Moulton street into the gulch north of the Masonic Temple.

Bids for plumbing supplies for a new toilet in the city hall basement, for firemen, four in number, were read but as there was variation in the items listed no offer was accepted. Mayor Milne was confirmed in his opinion by the members of the council that all calls for bids by the city should be on blanks furnished by the city so that there could be no question that all bidders were figuring on exactly the same thing.

A contract was made with the Union Oil Co. for the city's fuel oil needs for the Community building for a year at 8 cents a gallon.

Approval of the application of Carl A. Cook's grocery for a package store beer license, at 708 North Henry
